

UCLA GRADUATE QUARTERLY

Volume 17 Number 1
FALL 2007

Message from the Dean

Dear Graduate Student,

Each fall, UCLA welcomes a new cohort of graduate students, and this year, we in the Graduate Division are also welcoming two new associate deans, Professors M. Belinda Tucker and Carlos Grijalva, along with Professor Nancy Wayne, who will fill a new role in administration. They'll introduce themselves to you later in this issue. Reading about them, I was struck by Professor Wayne's insistence that while her discipline may be physiology, she is also a doctor of *philosophy*.

In the pursuit of our various academic goals, it's not hard—but it is foolhardy—to overlook that we must also become philosophers, and one branch of philosophy is of particular importance to us as researchers. Ethics, the dictionary tells us, is “the discipline dealing with what is good and bad and with moral duty and obligation.” Whether your research involves mice or men, second graders or senior citizens, or even languages and literatures, a knowledge of ethics will help you to develop the professional integrity that will serve you well throughout your career. Ethics provides the intellectual tools for examining your work in a context that extends beyond the boundaries of your career, this campus, and even this country. It can help you make crucial decisions about how to conduct your research and writing in a manner that honors UCLA and your discipline while it serves the more immediate demands of your academic progress.

If you are finishing a master's degree in science, technology, engineering, or mathematics (or you're an undergraduate) and you've been accepted for doctoral studies, you're eligible for a new NIH-supported seminar that will be offered through the Graduate Division next spring. Called *Developing an Interface for Science and Ethics*, the six-week program provides an introduction to ethical traditions, as well as more pragmatic information about public oversight, publishing, interdisciplinary work, conflicts of interest, and private fund raising. Heather Tarleton, a new member of the Graduate Division staff and a recent graduate student herself, believes it is important for graduate students to understand the ethical principles that underlie integrity. She also notes that as graduate students, you're colleagues in a research enterprise and on the brink of becoming independent scientists. Ethics can ensure that you meet the social responsibilities inherent in your work.

In the academic world, it seems to me, Fall is like an extended New Year's celebration, a time to review your past experiences for lessons that might inform your future behavior. It's also an opportunity to put aside whatever might have gone wrong and make a fresh start in the right direction. That applies whether this is your first year or your fifth. May you meet the challenges this year will bring with renewed vigor and enthusiasm.

GOSPEL FUNK & JAZZ

HIT THE ACADEMY!

BY
JACQUELINE
TASCH

POPULAR MUSIC IS the soundtrack of our lives. We might sway to gospel at church, dance to funk at the local club, play hip hop on the car radio, or kick back with jazz after dinner. What we don't do—at least not most of us—is research or writing about it. At UCLA, however, a cadre of academics are deeply involved—and widely noted—for their scholarly approach to the music that is just entertainment for most of us.

As a graduate student at UCLA, Jacqueline DjeDje wrote a ground-breaking master's thesis on the spirituals and gospel music of southeast Georgia, then went on to write her dissertation on one-string fiddle music in northern Ghana and Nigeria. Now Chair of the Department of Ethnomusicology, she's returned to the fiddle research, drawing connections between fiddling in Africa and in the United States during the era of slavery.

Funk music was the last chapter in Scot Brown's dissertation about the Black Power movement at Cornell University and later a chapter, "In Face of Funk," in his book, *Fighting for Us*. As an Assistant Professor of History, he's offering a course on "Recent African American Urban History: Funk and Black Popular Culture," which

shows how African American music is tied to the political and economic history of American cities.

Cheryl Keyes was a graduate student at Indiana University when she heard rap music for the first time. She had just one question: How did it get up North? "Rap reminded me of some of the things I heard growing up in the South," she says, like the African American verbal and vocal styles used in contexts as different as preaching and cheerleading.

She soon recognized that what rap grew out of was not so much the American South as the whole history of African and African American culture. "The roots of rap are in African American musical and verbal practices that go back to where African people come from, West Africa, in particular," she says. In Mali, for example, the griot was a singer/storyteller whose tradition became transformed in the New World into the blues, preaching styles, children's playing songs—and eventually rap.

Rap also recalls African American verbal genres like signifying. As early as the 1940s, black deejays used a stylized way of speaking that was a precursor to rap. Another prototype was "Signifying Monkey," a toast done in rhyming couplets from Rudy Ray Moore. "Rap is not something that just dropped out of the sky," Professor Keyes says—and that was the theme of her dissertation.

Cheryl Keyes, Associate Professor of Ethnomusicology, Scot Brown, Assistant Professor of History, and Jacqueline Dje Dje, Chair of the Department of Ethnomusicology

As Professor Keyes's findings suggest, scholarly research helps to link popular music to the history of African American people. In another example, Professor DjeDje has shown connections between the one-string fiddles that were played in Africa as far back as the 10th or 11th century and the fiddles described in slave narratives out of the American South in the 19th century.

The physical connection provides a new context for viewing African Americans. In the slavery era, African Americans "were the primary performers of this musical tradition called fiddling," Professor DjeDje says. "Most people say African Americans were taught the fiddle by Europeans, but fiddling may have been a way to maintain their own culture." Not surprisingly in view of America's racialized history, when Africans played the fiddle, white people did not, and when white people

Cheryl Keyes was a graduate student at Indiana University when she heard rap music for the first time. She had just one question: How did it get up North?

in black face began to fiddle in minstrel shows, African Americans moved on to other instruments. Music, Professor DjeDje says, becomes "a window to study other topics, like women or gender or religion."

Professor Brown offers a similar view. "Funk music," he says, "allows me to talk about a lot of wider issues: the impact of the Great Migration of African Americans to Northern cities, the impact of the Civil Rights Movement and Black Power, the end of industrialization, when jobs were lost and working people suffered."

Professor Brown offers the example of Dayton, Ohio, which experienced a large wave of black migrants during World War II, people who found jobs in an expanded auto industry in the 1950s. The large and relatively well-paid working-class black community supported music education, and the city of just over 200,000 produced a high proportion of funk bands—among them, the Ohio Players, Slave, Lakeside, and Roger Troutman. "Most of the musicians could read music as early as middle school," he says, and "a live music culture evolved, with talent shows hosted in city parks and at local schools."

Funk sampling, of course, is used in a great deal of rap music or hip hop, but more than funk, hip hop has been used as a political voice for people who are otherwise lacking in power. Most notably, gangsta rap often involves harsh criticisms of the police and police-related violence. But even before then, when rap was just emerging on the East Coast, the music was often intertwined with social action or political concerns. Afrika Bambaataa laid a foundation of Black nationalism when he brought together deejaying, emceeing,

Playing the guitar during the recording session of his *Introducing Kenny Burrell* album in 1956.

Kenny Burrell & the Jazz Studies Program

UCLA DOESN'T HAVE a fully-fledged academic program in funk, gospel, or hip hop—yet—but it has since 1996 had a Jazz Studies program, headed by the legendary jazz guitarist, Kenny Burrell. Among the earliest members of the African American music cadre at UCLA, Professor Burrell developed the nation's first university class on Duke Ellington, called "Ellingtonia," in 1978. That course is now part of an undergraduate concentration in the Department of Ethnomusicology, which combines traditional classroom courses and performance work with the goal of producing outstanding jazz musicians who have a strong academic foundation.

"A dream of mine," Professor Burrell says, is to establish a graduate program awarding master's and doctoral degrees in jazz studies. To Professor Burrell, who was honored in 2005 as a Jazz Master by the National Endowment for the Arts, there are only two kinds of music: "good music and the other kind." He takes issue with the idea that only music composed centuries ago should be taken seriously. "More and more people are thinking that jazz is an art form and also that many other forms of African-American music are worthy of study, research, and education," he says. "I just feel good about it."

Jooyoung Lee

“Hip hop is raising important issues about race, gender, sexuality, and globalization—that’s why I think hip hop scholarship is so gripping. It’s giving new life to the academy.”

H. Samy Alim
Assistant Professor of Anthropology

graffiti, and breakdancing in the late 1970s in a phenomenon that became hip hop. “He saw the street arts as a way to deter youth from violence,” Professor Keyes says. “Instead of competing with knives, they would battle artistically.”

Another early element in hip hop was knowledge, according to Assistant Professor of Anthropology H. Samy Alim, the newest member of the faculty cohort researching African American music. “Since the 1970s, people within hip hop have talked about knowledge as the fifth element of hip hop [along with deejaying, emceeing, graffiti, and breakdancing],” he says. “There was a traditional focus on knowledge and understanding and social critique—a need to be critical about what’s going on around us.”

Given this interest in knowledge and information gathering—you could call it research—“It’s almost logical to carry this over to an academic interest,” Professor Alim says. “It’s natural to look for knowledge and to want to produce it, to challenge official versions and report the findings.” With often negative views of hip hop in the mainstream, hip hop scholarship is also “providing an alternative narrative that needs to be discussed,” Professor Alim says. “Hip hop is raising important issues about race, gender, sexuality, and globalization—that’s why I think hip hop scholarship is so gripping. It’s giving new life to the academy.”

Its political and cultural elements have helped to spread hip hop around the world. Before he was a UCLA graduate student, Sabela Grimes worked with DJ Blaze to form a rap group in South Africa called Bush Culture and built a collaborative relationship with Prophets of the City, a local group using rap to express responses to apartheid. From Africa, Sabela found his way to Philadelphia, where Rennie Harris asked him to collaborate on a dance theater project that developed into Rome and Jewels. Sabela later joined Harris’s Pure Movement hip hop dance company and toured the world as a performer. As a former English major, he may love the rhyme, but as a dancer, he also appreciates the impact of movement. “If you can lock and pop,” he says, “you can be anywhere on the planet and people speak your language.”

Once new genres of popular music have spread around the world, their birthplace may be forgotten. Professor DjeDje believes that’s especially true of Los Angeles. While Chicago and New Orleans have effectively packaged their contributions to Black music, Profes-

sor DjeDje says, Los Angeles is often overlooked, its impact lost perhaps in the bright lights of Hollywood or the mythology of LaLa Land.

Early in her own academic career, as she “began doing fieldwork in Los Angeles and talking to people in Los Angeles, I began to recognize the contributions of black musicians here to the world,” Professor DjeDje says. Gangsta rap was born here, of course, and the first recording by a black jazz

artist was made in Los Angeles in 1921. Professor DjeDje encourages graduate students “to use Los Angeles as your laboratory,” and several have followed her advice.

Karin Patterson recently completed a dissertation titled, “Expressions of Africa in Los Angeles Public Performance, 1881–1994,” dating back to the music provided by the earliest Africans arriving from Mexico into Southern California. Birgitta Johnson has filed her research on African American megachurches in Los Angeles, and Christina Zanfagna is doing much of her fieldwork on Christian rap here, as well. Jooyoung Lee is gathering information for his research on a street corner in Leimert Park, where young rappers gather to warm up.

“People just don’t make the connection, but a lot of the music we hear from around the world started in Los Angeles,” Professor DjeDje says. “When you begin to look at what Los Angeles musicians have done, you see that they have had a dramatic impact on world culture.” And who better to study that than scholars at UCLA?

HIP HOP

WORKING GROUP

LEFT: Jooyoung Lee “struts.” Strutting is a style of popping (a type of breakdancing) popular in the Bay Area, characterized by walking and contorting to the beat.

A COUPLE OF YEARS AGO, three graduate students—Loren Kajikawa in musicology, Jordan Smith in comparative literature, and Christina Zanfagna in ethnomusicology—put together a group of scholars like themselves whose research involved hip hop, with Professor Cheryl Keyes as the faculty leader. They got a small amount of funding and put on a few events before Loren and Jordan began their dissertation work and the group dissolved.

In the Fall of 2005, H. Samy Alim arrived as a postdoctoral fellow in the Department of Anthropology, and things began to gel again. Dr. Alim, a linguistic anthropologist, “was a real trailblazer,” Christina explains. In his first year, he led a reading group on specific pieces of literature. “We met once a month,” Christina says, “but there was no sustained attendance.” Last fall, with a full-time faculty position, Professor Alim reformulated the reading group as a weekly year-long class, with credit.

“That’s when we became a cohesive group on campus,” Christina says. “We needed a leader on the professional level.”

Professor Alim is enthusiastic about the Working Group in Hip Hop Cultural Studies, which will continue in the new academic year. “We have a critical mass of people at UCLA doing this research,” he says, a cohort that embraces hip hop researchers from a range of disciplines—ethnomusicology and musicology, sociology, Asian American Studies, history, education, anthropology, world arts and cultures. “We’re on the cutting edge.”

The working group has attracted some stellar speakers: Pharoahe Monch, a critically acclaimed hip hop poet; Davey D and James G. Spady, well-known hip hop journalists; Jeff Chang, author of *Can’t Stop, Won’t Stop: History of the Hip Hop Generation*; Rennie Harris, founder of the world renowned hip hop dance company, Pure Movement; and UCLA’s Professor of Ethnomusicology Cheryl Keyes, one of the first academics to focus her research on hip hop.

In addition, the group continues to read and present research on how the politics of language, race, class, gender, sexuality, and spirituality contribute to the making of the Global Hip Hop nation. Members explore methodological and theoretical issues, with a focus on the central debates that have developed in the field of hip hop studies.

Christina says the working group has been “a really productive space for a lot of us.” Some students outside of music-related fields “felt a little marginalized in their departments,” she says, so the working group was “almost therapy on certain levels.” But it also had an academic function, providing an interdisciplinary opportunity “to see how others are approaching the study of hip hop.” Student participants have an opportunity to present their work and get feedback.

At the workshop, Catherine Appert of ethnomusicology learned more about ethnography from Jooyoung Lee, a student in sociology who uses that methodology in his hip hop research. Other participants had spent time in Senegal—Catherine’s research looks at the hip hop created by Senegalese in America—and could tell her about the hip hop scene there.

The workshop has also included discussions “about what a hip hop pedagogy might look like,” Christina says, “not just how to teach hip hop but how participating in hip hop on a scholarly level could influence the way we teach.” One effect is to encourage the juxtaposition of scholarly language with slang or popular expression. In a summer undergraduate course, “The Cultural History of Rap,” Christina borrowed from the hip hop use of sampling, organizing each class by themes instead of chronology, “a patchwork approach” that put blues, the transatlantic slave trade, and Don Imus’s controversial comments in a single class session and set soul singer James Brown’s voice “right up next to Snoop Dogg’s.”

On the following pages, you’ll meet some of the graduate student members of the Hip Hop Working Group.

ABIMBOLA COLE, ETHNOMUSICOLOGY

BROADCASTING IN BOTSWANA

How were you introduced to hip hop?

In 1987, my older sister bought me a copy of LL Cool J's album, "Bigger and Deffer." At the time, I didn't know most of the words, but I knew that I loved the music. Eventually, I started to listen to other old-school hip hop artists. I loved Big Daddy Kane because he was from my hometown, Brooklyn. De La Soul had a really different sound when they first came out. I would also poke around in my sister's deejay mixtapes, and I would watch music videos with her. I equated hip hop with coolness back then.

When did your interest change from fan to scholar?

During my senior year at the United Nations International School, I wrote a research paper

on hip hop's African influences. Then, while I was at Spelman College, I took a course titled, "Hip Hop and the Hip Hop Aesthete," which was truly my proper introduction to hip hop as an academic subject. We were able to discuss topics about the music that were usually un-touchable in the classroom. At the end of the course, I wrote a paper questioning the hip hop feminism of Brooklyn's own Lil' Kim, an ever controversial figure in the culture.

What brought you to UCLA?

I first came to UCLA in June 2001 as part of the Humanities and Humanistic Studies Summer Institute (HAHSSI) sponsored by the Bunche Center for African American Studies. The program gave me a chance to work under one of my current research advisers, Professor Cheryl Keyes. During HAHSSI, I worked on a paper about MTV's Hip-Hopera, Carmen. It was eye opening to consider how certain images were retained down the line and became embodied in Beyonce's depiction of the character. I had already been accepted for graduate studies in Ethnomusicology, and Professor Keyes continued to work with me

on the paper, so that I was able to present it at a conference at the university of Newcastle Upon Tyne in the United Kingdom.

How did your research evolve?

I came to UCLA because there was no other place better equipped to get me ready for research on hip hop and other genres of popular music in South Africa. I also took language courses here and elsewhere, and in 2005, I got a Fulbright award to do my dissertation field research. By then I had decided to expand the scope of my research to Botswana. When the Fulbright ended, I had modified my dissertation topic to a historical overview of hip hop music and broadcasting in Botswana. Being in Botswana for nearly two years, I've had the chance to interview some amazing figures in the Hip-Hop movement and how it has evolved from the 1980s to the present. I've been able to sit down with people who have remarkable stories about breakdancing and deejaying in Botswana back in the 1980s, confirming that hip hop music has a history stretching back decades here.

Jooyoung Lee (right) practices a popping routine with “Tick-a-lott.” Photo by Kashta K. Eneas III (aka “Black Sultán”).

JOOYOUNG LEE, SOCIOLOGY

POPPING WITH PROJECT BLOWED

How were you introduced to hip hop?

When I was in seventh grade, Dr. Dre’s multi-platinum album, *The Chronic*, came out—it was the album that put gangsta rap up front and center in the popular media. At the time, my Mom wouldn’t allow me to buy CDs with explicit lyrics, so I saved up my allowance and gave the money to a friend, and she went to the mall and bought me that album.

When did your interest change from fan to scholar?

While I was a political science undergraduate at UC Berkeley, I started dancing and deejaying at house parties and a campus pub, the Bear’s Lair. I saw this street performer named Tron on Telegraph Avenue; he was wearing a karate suit and had a boom box and a little hat full of dollar bills. He was a fantastic popper, and for two years, I became his protégé.

About the same time, a professor in ethnic studies introduced me to the literature on the historical significance of hip hop. I got a video camera and started making a mini documentary about how people use hip hop in public. The video went with a paper arguing that marginalized groups use hip hop as a political voice. For example, there was a homeless white kid who was a famous street dancer in Berkeley. He did a mime style of popping. If you didn’t watch him closely, it just looked cool, but through conversations and hanging out with him, I came to learn that he felt that his dance was a type of political expression.

What brought you to UCLA?

People at UCLA seemed very interested in what I wanted to do, which included more fieldwork. Also, a huge, huge pull was the long and rich history of hip hop and culture in general in Los Angeles. I switched

disciplines to sociology because it came down to me just really liking to hang out with people. Methodologically, it’s a really good fit.

How did your research evolve?

For more than two years, I’ve been doing ethnographic fieldwork in Leimert Park. Every Thursday night, Project Blowed has Los Angeles’ longest-running hip hop open mic. Outside, guys get together on a street corner. Some rap in ciphers, where guys stand in a circle and take turns improvising rap, and others battle, where two people face off. Inner-city residents and law enforcement often see street corner gatherings as signs of trouble. I’ve been looking at the group’s interaction and emotion management, and I’m seeing ways that people organize the scene so someone can back out of a battle or fall out of a cipher and still save face. Say someone in a cipher can’t continue freestyling. Somebody else will jump in to sustain the ongoing flow and deflect negative attention from the person who fell off. These kinds of moves work against conflict and violence.

This research was the subject of my master’s thesis, and I’m going to expand the study for my dissertation, which will tell the stories of the guys on the corner—how they got into hip hop and what kinds of things they’re doing to make it in the music industry (or blow up, as they call it). One of the most gratifying parts of my research is seeing guys who’ve been through hell and back catching small breaks. For example, one guy is talking with major labels now about signing a six-figure deal that could change his life.

HOLY HIP HOP!

CHRISTINA ZANFAGNA, ETHNOMUSICOLOGY

How were you introduced to hip hop?

The earliest experience I remember was MC Hammer. He had this cross cultural, cross racial appeal—it was energetic, lively music, it was dance oriented, and it had this sort of sacred, spiritual feel. I was about 11 years old, and I wanted the MC Hammer pants and everything. In high school, I started becoming a big-time fan.

When did your interest change from fan to scholar?

I went to New York University in a program where I got to create my own major, so I was taking courses in black politics and music criticism. A class on hip hop really lit my fire around this stuff. It opened up a channel between the classroom and my everyday living in a real exciting way. It was near the end of my undergraduate work, which focused on

world music and the global pop arena, but it left a residue of hip hop cultural studies that I came back to later.

What brought you to UCLA?

I took a year off and worked for a radio program called AfroPop Worldwide, basically doing music journalism, interviewing artists and writing CD reviews. But I missed the intellectual rigor of the university. The job was fun, but I really wanted to focus more on ideas. I liked the whole approach of ethnomusicology, looking at sonic characteristics, the music on its own terms, and its cultural context as well.

How did your research evolve?

I was still thinking about Afropop or maybe flamenco when I arrived at UCLA in 2003, but then I wrote a research paper my first term on Christian rap, called “Holy Hip Hop,” and it just kind of spiraled from there. Southern California has one of the larger Christian hip hop communities—ministries within churches and rappers in the studio—so I could do the fieldwork here. I’m just starting to do that this fall, in Inglewood, Moreno Valley, and Sun Valley—and I’ll make a trip to New York City and to Tampa, Florida, which hosts the biggest free-standing hip hop church.

Christian Hip Hop sounds almost exactly like “secular” hip hop but the lyrics are different. Rap is also deployed as a tool or a channel to spread a different kind of positive message that isn’t littered with profane references or explicit language. I’m also interested in the musical choices that might distinguish holy hip hop from other styles. In churches, a performance may include someone playing prerecorded hip hop tracks, a deejay scratching on a turntable, and an organ player throwing in chord hits. Although Christian hip hop has been around since the 1980s, practitioners are still experimenting with the most effective combinations of sound. I’m particularly interested in how young people involved in holy hip-hop deal with the seeming paradox of being both hip-hop and Christian. [GQ](#)

Carlos Grijalva

Graduate Division Associate Dean

CARLOS GRIJALVA REMEMBERS what it was like to arrive at Arizona State for graduate studies, the first in his family to have graduated from college. His father had wanted him to be a dentist. “When I started talking about graduate school in physiological psychology, he had no idea what I was talking about,” Professor Grijalva recalls. Also, he had no financial support for his first year.

Then things got easier. He won a Ford Foundation fellowship to pay for the rest of his studies, and “I also found a faculty mentor who took me under his wing and made sure I stayed on track,” Professor Grijalva says. “He and I became very good friends and eventually colleagues.”

Those experiences are foremost in his mind as he begins his tenure as Associ-

ate Dean in the Graduate Division, with responsibility for diversity programs, including the *Alliance in Graduate Education in the Professoriate* (AGEP) and the *Diversity Initiative for Graduate Study in the Social Sciences* (DIGSSS) grants. “I hope to use my own background to continue the good work the Graduate Division and the campus have done over the years,” he says. Building on those achievements, Professor Grijalva is especially interested in “retention issues: How do we keep disadvantaged students on track toward their degrees?”

A key element is mentoring. While African American and Latino students may not always find mentors of their own ethnicity, Professor Grijalva says, “there are many faculty who may not share the same heritage but nevertheless are sensitive to

individuals of various backgrounds and make excellent mentors.”

Other responsibilities include liaison with the Physical Sciences Division, the Anderson School of Management; the ACCESS & Basic Biomedical Sciences programs, academic programs in the David Geffen School of Medicine, and the Departments of Oral Biology, Psychiatry, and Comparative Literature.

Professor Grijalva brings to his new assignment a three-year term on the Graduate Council, which oversees graduate programs and their curricula. He also served on a special committee to examine factors that make universities and their departments first-rate. “Universities are always searching for the metric that tells them they’re on target,” he says, whether it is faculty publications and awards, graduation rates, or graduate career placements.

During his Graduate Division assignment, he will continue research looking at an animal model of anorexia nervosa, which has produced “some interesting paradigms,” he says. In his laboratory, rats are given access to a running wheel and also put on a restricted diet, he says. In some cases, “the animals actually start running more and eating less,” he says. The research team is experimenting with the injection of peptides into the brain to “encourage the rats to eat when their appetite starts to drop.” He points out that in analogous cases of activity-based human anorexia, especially among athletes or dancers, “something gets out of control and before you know it, the focus is on weight loss rather than performance.”

A past recipient of the Department of Psychology’s Distinguished Teacher award, he also plans to continue teaching. Especially close to his heart is the Introduction to Psychology course for undergraduates, where he tries “to talk not only about psychology but also about what they need to do to navigate through this complex system,” he says. For students like he once was, it’s important to let them know that the campus has resources to help them, he says, “so they have a foothold right at the beginning.”

M. Belinda Tucker

Graduate Division Associate Dean

PREGNANCY IS NOT something one would automatically associate with the postdoctoral experience, yet, M. Belinda Tucker, a social psychologist and longtime observer of postdoctoral scholars, notes that some women who have postponed childbearing take this relatively unpressured period to begin their families. “Once you get that first faculty job, you’re on committees, you have students, you’re teaching classes, and you have to publish,” Professor Tucker says. Confronting the issues associated with juggling family and work might well fit into an agenda of postdoctoral supports.

As one of the Graduate Division’s new Associate Deans, Professor Tucker will be the point person on issues related to postdoctoral fellows. She will also be liaison to the Life Science Division, the Social Science Division, the International Institute, and the Schools

of Public Affairs, Nursing, Public Health, and Dentistry, giving her the opportunity “to learn a lot more about how the graduate experience might vary among settings and what their distinctive needs are,” she says.

A final piece of her new portfolio is liaison to the Institute of American Cultures, an umbrella organization that supports the ethnic studies centers and builds research connections among them. When she arrived at UCLA in 1978, one of her first assignments was to coordinate the Afro-American Studies component of the Institute’s postdoctoral program, which placed fellows in each of the ethnic studies centers.

Since then, Professor Tucker has had a great deal of experience selecting and working with postdoctoral fellows on her extensive agenda of research projects. As the Director of the Family Research Consortium IV, for example, she helps manage a program

that “places scholars around the country to develop their capacity to conduct research on family processes and mental health.”

At UCLA, she recently served on the Postdoctoral Advisory Committee, which was charged with developing new policy in that area. “Structural issues related to survival” were high on the agenda. For example, some national fellowship sources may provide a fixed amount of compensation, regardless of where the recipient lives. “People who live in very expensive places like Los Angeles are going to experience constraints on their lifestyle,” Professor Tucker says. Recognizing this, the National Institutes of Health now allow universities to provide supplemental payments from other grants. Another important concern is the relationship between mentors and postdoctoral scholars. UCLA has developed “some guidance for mentors and postdocs on what they can expect to happen over the next year, or two or three, in this relationship,” Professor Tucker says.

Much of Professor Tucker’s understanding of the postdoctoral experience, however, comes from her one-on-one connection with fellows as well as graduate students in the course of an extensive research agenda. At the present time, she is continuing the analytical phase of a 21-city longitudinal study of family formation patterns, completing a study of how developmentally disabled people adapt to midlife, and participating in a comparative look at how black urban youth—African Americans, Belizean Creoles, and Belizean Garifuna—make the transition to adulthood. A project investigating how families adjust to the imprisonment of a member is just getting under way.

The Department of Psychiatry and Biobehavioral Sciences has honored Professor Tucker with its Outstanding Research Mentor Award in 1998 and the Outstanding Graduate Teaching Award in 2004. She has been part of dissertation committees in a wide range of departments: from psychology, sociology, and anthropology to English, geography, and urban planning.

Nancy Wayne

Graduate Division Academic Administrative Intern

LEARNING THAT **PHD** means Doctor of Philosophy, Dr. Nancy Wayne's young daughter once asked if her mother, a scientist in the field of physiology, was a philosopher. "I said yes, a philosopher is someone who asks why," Dr. Wayne recalls. "If you continue to ask why throughout your life and dig deeply into the answers to your questions, first of all, you'll never be bored, and in addition, you'll always advance, and you'll have an interesting career whatever you choose."

Living up to the name on their degree is one of the goals Dr. Wayne would set for doctoral students, along with more pragmatic tasks like becoming expert in

their dissertation subject and developing an array of methodological skills and the facility of switching among them. "These are important work and life skills, whether or not students continue in experimental research," she says.

Dr. Wayne's ideas about graduate education will inform her service as Academic Administrative Intern in the Graduate Division, a job she begins this fall. She hopes to provide the Graduate Division with a South Campus perspective, to help improve campus diversity, and perhaps to develop some integrative educational tools. "Integration of ideas across disciplines can be applied to any graduate program," she says.

Providing valuable background for her new assignment is her service on the founding executive committee of a new interdisciplinary program in the Interdepartmental Graduate Program in Molecular, Cellular, and Integrative Physiology. "I called us the everything committee," she says, "because we did everything that was needed: how were we going to implement this new program, what kind of educational and social programs would make this a cohesive program when you have faculty from a lot of different departments coming together?" An important strategy in the IDP was social: "laid-back events that involve food and drink, outside of work, are very important to build camaraderie and collegiality, perhaps even develop new ideas and collaborations," she says. "It's always good to feed people."

Dr. Wayne also served as chair of the IDP's curriculum committee, and she will retain her position as co-chair of the first-year medical curriculum in Gastrointestinal, Endocrine, and Reproduction at the David Geffen School of Medicine, an assignment she says has been "a huge amount of fun, a lot of work." She sees her Graduate Division post as a way to expand her understanding of graduate education across campus.

Her own graduate years were spent at the University of Michigan, where she earned a PhD in physiology. She then accepted a postdoctoral appointment at the University of Virginia with Gene Block, UCLA's new chancellor. His arrival on campus is "like having family come into the city," she says. "I've known him for a very long time."

Coming to UCLA in 1992, Dr. Wayne set up a laboratory that studies the role of a small set of brain neurons in reproduction. Called gonadotropin-releasing hormone neurons, they are "the command cells, the top of the heap of what controls reproduction," she explains. People are often surprised to learn that the brain controls reproductive development and fertility, she says, despite anecdotes about couples who become pregnant after years of infertility when they adopt a child. "It's probably a release from stress," she says. "If you can tap into a nonpharmacological way of relieving stress, that would probably be helpful in many but not all cases of infertility." She plans to continue that research during her Graduate Division assignment. [GQ](#)

New Associate Dean M. Belinda Tucker, Vice Chancellor Graduate Studies & Dean, Graduate Division Claudia Mitchell-Kernan, new Associate Dean Carlos Grijalva, and Associate Dean Ross Shideler.

The doors open.

Welcome Reception

On September 26, 2007, the doors of the Faculty Center opened to welcome over 3,500 incoming graduate students.

Vice Chancellor of Graduate Studies and Dean of the Graduate Division Claudia Mitchell-Kernan spoke to the students about their upcoming years at UCLA: "Some of you have come to UCLA specifically to study with an expert in your field of choice. For the rest, finding a mentor for your doctoral work is a very important task. While you're looking, I urge you to meet as many faculty members in your graduate program as you can—and professors who are doing related work in different disciplines. You'll find our faculty interesting and interested in you. Graduate students are not only the future of the academic enterprise, they also bring new energy and enthusiasm to us all." -MW

a mad rush for ice cream

Hermanos Herrera, a family group (many of them UCLA students), entertained the crowd with traditional Mexican music.

2007 Doctoral Commencement Hooding Ceremony

by Daniel Bennett, Assistant Dean, Graduate Division

ON THE EVENING OF JUNE 14, this year's 730 recipients of the doctoral degree were honored at the Doctoral Commencement Hooding Ceremony in Royce Hall. Each year UCLA's new doctorates are welcomed into the academy at this colorful and traditional ceremony.

Graduates, faculty and members of the official party came together to enjoy light refreshments on the terrace off the West Lobby of Royce Hall, while families and friends took seats in the auditorium. A majestic trumpet fanfare by the UCLA Wind Ensemble Brass signaled the beginning of the formal procession of faculty and graduates, faculty clad in the varied and colorful academic regalia of their individual doctoral alma maters, students in robes and tasseled caps and bedecked with the occasional orchid lei or other personal ornament. The magnificent organ of Royce Hall was played by University Organist, Christoph Bull.

Acting Chancellor Norman Abrams gave the call to order and welcomed all attendees. The Chancellor congratulated the gradu-

ates and recognized the families who backed them during their years of graduate study: "Your support and encouragement have been instrumental to the achievements we celebrate today." In keeping with the spirit of family support, Chancellor Abrams singled out Magdalena Edwards, who received a Ph.D. in Comparative Literature and was hooded by her father, Professor Sebastian Edwards, and John Tekuang Chang, who received a Ph.D. in Health Services and was hooded by his wife, Visiting Professor Alice Kuo. In the conclusion of his remarks, the Chancellor encouraged the new graduates to "generously share what you have gained here and apply it to improve the quality of life wherever you can."

Chancellor Abrams also presented the UCLA Medal, the University's highest honor, to UCLA alumnus Morgan Chu, who received bachelor's, master's, and doctoral degrees from UCLA. Dr. Chu, who also received a master's degree from Yale University and the J.D. degree from Harvard University, helped to create UCLA's Asian American Studies Center. Dr. Chu and his wife

Ross Shideler, Associate Dean, Graduate Division; Claudia Mitchell-Kernan Vice Chancellor Graduate Studies, Dean, Graduate Division; and Michael Allen, English Professor

Helen continue to be loyal supporters of the Center and UCLA. Dr. Chu was honored for his contributions to UCLA and for his extraordinary record of legal practice, which includes a groundbreaking approach to intellectual property litigation and information technology law.

Claudia Mitchell-Kernan, Vice Chancellor Graduate Studies, and Dean of the Graduate Division, took inspiration for her remarks from the University of California's first president, Daniel C. Gilman. President Gilman took charge in 1872 and established a mission for the University to promote the common good. Dr. Mitchell-Kernan noted that the University has succeed in fulfilling that goal: "The University and its graduates have been a primary engine in bringing California to international prominence in science, technology, and the arts. The University has also responded to the evolving nature of California's society. It has grown from one small campus serving mostly the sons of elite white California businessmen to 10 campuses and more than 200,000 students drawn from both genders, a range of socioeconomic categories, and many nations."

While lauding the University's past achievements, the Vice Chancellor encouraged the new

graduates to understand that today the public good must be redefined as global, with jet travel placing Beijing, Paris, Tel Aviv, or Nairobi only hours rather than weeks or months away, as in the day of President Gilman. In this context she called upon the new graduates "to take on the big issues of our time: climate change, dwindling supplies of fossil fuels, the international spread of disease, economic dislocations here and abroad resulting from globalized businesses,

and, of course, war." President Gilman described wisdom as "a power to distinguish the useful, the false, and the fragile, from the good, the true, and the lasting." The Vice Chancellor concluded by wishing the graduates "not only wisdom but every blessing in the new paths you begin today."

Each student was hooded by a dean from an official party of deans from the Graduate Division and UCLA's schools and colleges, personally congratulated by Acting Chancellor Abrams, and presented with a diploma by Vice Chancellor Mitchell-Kernan. Each hooding was accompanied by applause, camera flashes, and expressions of pride and joy from family and friends throughout the auditorium.

Following a final salute from Scott Waugh, Acting Executive Vice Chancellor and Provost, graduates, faculty, and guests enjoyed a mid-evening reception in Royce Quad, highlighted by champagne, strawberries and cookies. In addition to a capacity crowd of graduates and their families and friends, more than 100 faculty attended the ceremony and reception. [GQ](#)

Will Conley

Craig Citro

Mathematics

IF YOU'RE LOOKING FOR SOMEONE who understands Fermat's Last Theorem, Fuchsian groups, or the Teichmüller flow, you might stop by the Rock Wall in the Wooden Center. Rock-climbing is a favorite hobby of Craig Citro, his fellow graduate students in mathematics, and their professors. "I'd guess that one in four people in the department climbs regularly and the other three at least have tried it," he says. "It's like problem solving with your body."

Rock climbing has a lot in common with work on the very abstract and obscure issues in advanced mathematics, Craig says. You might try a particular climb "twenty or thirty times and not be able to do it," he says, "then you'll shift the way your foot is positioned by 10 degrees and all of a sudden the climb is the easiest thing in the world."

“...then one day a bunch of things become clear and I make a lot of progress all at once. That one day is enough fun that I’m willing to come back and struggle again the next month.”

Similarly, “I spend 29 days in a row beating my head against a wall trying to understand something in Number Theory and making zero or negative progress,” he explains, “and then one day a bunch of things become clear and I make a lot of progress all at once. That one day is enough fun that I’m willing to come back and struggle again the next month.”

While you may find people at the Wooden Wall who understand the issues in advanced mathematics, don’t count on them being able to explain what they do. At least so far, although Number Theory is the oldest branch of mathematics, with 2,000 years of history, no one’s written *Number Theory for Dummies*. Craig’s girlfriend knows “the math words I use a lot,” he says, “but she doesn’t really know what I do,” which is studying p-adic L-functions. “I’m trying to prove something about their value at a certain point,” he says. An L-function is an analytic object. “A strong theme in modern mathematics is trying to draw connections between large, well-developed areas, for example, in Number Theory, connecting some algebraic object with an analytical object—say, an elliptical curve and a modular form.

In 19th-century Europe, mathematicians studied the symmetry of groups of geometric objects, developing a lot of information that didn’t seem particularly useful at the time. Then, a century later, “quantum chemists had a meaningful reason to understand this because the symmetry of tetrahedrons or other shapes relates to what happens when different atoms come together to form molecules,” Craig says. Some of today’s mathematicians are looking at symmetry groups of polynomials in algebraic equations, and if the usefulness of the information is unclear at the moment, that doesn’t mean there’s no practical reason for pursuing this knowledge.

At the beginning of the 20th century, a German mathematician named David Hil-

bert challenged his colleagues to solve 23 mathematics problems, and nearly all were “put to bed in one way or another,” Craig says. At the beginning of the 21st century, The Clay Mathematics Institute set out what it called Seven Millennium Problems, adding a new and very 21st-century spin. Some hard-working—and lucky—mathematician will win \$1 million for the solution of each problem. As two of the problems are related to the behavior of L-functions, Craig says, “It’s clear that L-functions are the right objects to be studying at the moment.”

Craig’s path to L-functions began in a typical manner: From the beginning of his school years, he always excelled in mathematics. In high school, a calculus teacher named Pete Lederberg gave him an elementary book on Number Theory—one he’d used himself in college. Craig “thought I wanted to do math, but I didn’t know what that meant.” He did, however, understand what video games were, and he and his friends were adept not only at playing but also at creating them. As a result, he went off to Georgia Tech as a computer science major and stuck with the subject after a transfer to Indiana University.

After a while, however, he decided that the topics in computer science “weren’t of great interest to me,” and when he cast about for another major, “math seemed a natural candidate.” Changing majors with little more than a year to go, Craig had to rush to meet the requisites, and he arrived at UCLA under prepared. To do advanced mathematics requires a solid background, and “I came in with essentially none,” he says. “I had to spend a lot of time catching up and filling in the gaps of my undergraduate education.”

During that period, he took a reading course with Haruzo Hida, a highly regarded mathematician in Number Theory, who calls Craig “the most multitalented student I ever had,” combining excellence as a mathematician,

computer skills, and “outstanding communication and teaching ability. I expect him to become a superb teacher/researcher.” Professor Hida became Craig’s thesis adviser. For a dissertation in mathematics, “you settle on something that you’d like to believe is true, and your goal is to come as close to proving that as you possibly can,” Craig says. The idea is to write a thesis that, with a little tweaking, becomes your first paper as a professional mathematician.

Craig’s tools in this quest basically come down to pencil and paper and perhaps some coffee. An old joke says that mathematicians are machines that turn coffee into theorems, and Craig notes that if they’re not at the Wooden Center Rock Wall, mathematicians can often be found in the café at Kerckhoff Hall. In other words, he can do his research just about anywhere, and his girlfriend knows that dinner may be briefly interrupted while he has an inspiration. “I keep a piece of paper in front of me and scribble something down,” he says.

Toothpaste may also have something to do with his progress. “Sometimes I’ll be working on something for several hours, and I’ll finally decide about 4 a.m. that it’s time to throw in the towel for the night,” he says. “Then I’ll be brushing my teeth, and it will hit me — this is what I was missing, and I go back to work.” At least that happens once every 30 days or so. [GQ](#)

Behind the scenes at a GQ photo shoot: Fellow Mathematics graduate student Will Conley photographs his friend at the Wooden Center Rock Wall.

Norman Abrams at the 2007 Doctoral Hooding Ceremony

The Rosenfield-Abrams Fellowship

New Fellowships for Graduate Students Honor Former Acting Chancellor Norman Abrams

BEGINNING NEXT FALL, two graduate students each year will be supported by Fellowships honoring Norman Abrams, a longtime UCLA law professor who recently concluded his service as UCLA's Acting Chancellor. The \$27,000 annual Award will be funded by a \$300,000 endowment from the Ann C. Rosenfield Fund, through the good offices

of David A. Leveton, the Fund's director and a longtime acquaintance of the former Chancellor. "If anyone is a true Bruin, Norm is," Mr. Leveton says, "and I think that his deeds and accomplishments should be recognized."

As a law student at UCLA, Mr. Leveton took an evidence course from Professor Abrams, then newly arrived at UCLA's

Law School. He was "very proficient and outstandingly thorough in his teachings," Mr. Leveton says. As it turned out, the bar examination in 1962 was "heavily weighted toward evidence questions, so while I was writing the exam, it was like Norm was sitting on my shoulder."

The two reconnected when Professor Abrams was named Acting Chancellor in 2006. As Director of the Ann C. Rosenfield Fund, Mr. Leveton maintains close ties with all UCLA chancellors. The Fund has supported UCLA's Distinguished Community Partnership Prize, the Jules Stein Eye Institute, and the Jonsson Comprehensive Cancer Center.

As former Chancellor Abrams's term was coming to an end, Mr. Leveton says, "I thought it was only fitting that a fellowship should be established to honor him for all he's done for the university," not only as a faculty member for nearly five decades, but also as the former Interim Dean of the Law School and Vice Chancellor for Academic Personnel. Mr. Leveton asked what area of campus he would desire to support.

"I didn't hesitate," the former Acting Chancellor recalls. "I said immediately: graduate education. I consider graduate education one of the most important aspects of the university's operation. We want to obtain the very best graduate students, and to attract them we need adequate fellowship support."

Vice Chancellor of Graduate Studies Claudia Mitchell-Kernan was delighted with his choice. She agrees that "for some time, graduate student support has been a critical issue on our campus," and first-year students aren't the only ones needing help, she says. "The Rosenfield-Abrams Fellowships will support students during dissertation writing, a critical period when funding allows them to move forward without the distraction of a job." The \$27,000 award will include an \$18,000 stipend and in-state fees. Applicants must have advanced to candidacy and must be engaged in full-time study for the duration of the award. More information on this competitive fellowship is available through the Graduate Division. [GQ](#)

Apply for Fellowships!

It's never too early to think about funding for next year...

Below is a partial list of fellowships available to UCLA students. Complete information on all the fellowships below is in the *Graduate Student Financial Support* booklet, which can be found on the web at www.gdnet.ucla.edu/asis/stusup/stusup.htm.

Over 500 extramural (non-UCLA) fellowships can be found in the Graduate and Postdoctoral Extramural Support (GRAPES) database at www.gdnet.ucla.edu/grpinst.htm.

Visit the Graduate Outreach, Diversity & Fellowships office in 1252 Murphy Hall to get advice from staff members, consult fellowship directories, and pick up handouts on Graduate Division funding.

Name	Deadline	Amount
UCLA Fellowships and Grants		
Graduate Summer Research Mentorship Program	February 15, 2008	A maximum \$4,700 stipend.
Graduate Research Mentorship Program	February 22, 2008 *	\$18,000 stipend plus mandatory standard fees (excluding tuition).
Dissertation Year Fellowship Program	March 14, 2008 *	\$18,000 stipend, mandatory standard fees (excluding tuition) and a reimbursable research allowance of up to \$500.
Graduate Division Endowed Fellowships	January 11, 2008 *	varies
Conference Travel and Research Funds	Check with Department	varies
Campus Fellowships Offered in Specific Disciplines		
The George and Sakaye Aratani Fellowship	February 29, 2008	Up to two fellowships of \$7,000
The George and Sakaye Aratani Field Experience Scholarship	February 29, 2008	Two scholarships of \$14,000 to \$25,000 each
Asia Institute Graduate Student Research Fellowships	March 31, 2008	Two academic-year fellowships averaging \$8,000 each
Elizabeth Blackwell, M.D, Award	March 31, 2008 by 5:30 pm	\$1,000
Center for Chinese Studies Graduate Assistantships and Fellowships	April 25, 2008	Limited funding is available.
Center for Chinese Studies Summer Language Fellowships	April 25, 2008	Up to \$2,500 each

* please double-check deadline with department

Fellowships

Center for European and Eurasian Studies Pre-Dissertation/Dissertation Fellowships	February 24, 2008	Awards of up to \$4,000
Center for European and Eurasian Studies Summer Travel Grants	February 24, 2008	Average award is \$2,000
The UCLA Center for Society and Genetics	March 17, 2008	One stipend up to \$20,000 plus in-state standard fees.
Clark Library Dissertation Fellowship / Predoctoral Fellowships	February 1, 2008	One or two fellowships of up to \$15,000 plus fixed fees. Several fellowships of \$6,000 each for up to three months of research are also available for predoctoral research using the Clark Library's collections. Additionally, the Center offers financial support in the form of research assistantships to several UCLA graduate students every year.
Fowler Museum Awards for Graduate Students	March 14, 2008	Awards of \$3,000.
Friends of Archaeology Graduate Research Fellowship	Deadlines are rolling to accommodate research during both the summer and academic year.	Fellowships offered contingent upon availability of funding. Approximately 10 fellowships (typically under \$2,000)
Institute of American Cultures Graduate and Predoctoral Fellowship Program in Ethnic Studies	Application deadline is January 11, 2008 for the Bunche Center for African-American Studies and the Chicano Studies Research Center and April 2, 2008, for the American Indian Studies Center and the Asian American Studies Center.	Contingent upon funding availability, the stipend is \$18,500 per year plus in-state standard fees.
Islamic Studies Fellowship	check with center	Amount varies
Irene C. Kassorla Research Fellowship	check with center	One award of \$750
Herbert and Helen Kawahara Fellowship	February 29, 2008	Two stipends of \$7,000
Elaine Krown Klein Fine Arts Scholarship	check with center	Scholarships of varying amounts starting at \$3,000, based on yearly endowment income.
Latin American Institute Grants Programs	check with center	varies
Pre-dissertation Grants for Study at East China Normal University (ECNU)	February 11, 2008	Grants will cover housing on the ECNU campus, a monthly stipend of up to \$500 and up to \$1,000 toward travel costs.
The Sasakawa Fellowship	February 29, 2008	Approximately 15 fellowships of up to \$7,000 each. Field work in Japan may also be funded. Normally, tuition is funded.
The Sasakawa Japanese Language Study Fellowship	February 29, 2008	A few fellowships of up to \$7,000 each
Jean Stone Dissertation Research Fellowship	April 14, 2008 by 5:30 pm	An award of \$3,000 supports a student in her/his dissertation research.
Paula Stone Graduate Fellowship	April 4, 2008 by 5:30 pm	\$3,000

UC Pacific Rim Research Program (PRRP)	UCLA deadline for Advanced Graduate Research Fellowship: November 30, 2008. Deadline for Mini-grants: October 15, 2007 and February 15, 2008.	Advanced Graduate Research Fellowships up to \$22,000 to support graduate students in a year of dissertation research or its equivalent. Graduate students may apply for mini-grants up to \$3,000 in two rounds for dissertation research and pilot field work.
Stephen A. Vavra Fellowships and Grants for Organismal Plant Biology	April and September of each year	\$6,000 summer or academic year stipend with fees. Full or partial travel and conference expenses (maximum \$1,000).
Hiroshi Wagatsuma Memorial Fund	March 31, 2008	Several awards up to \$7,000
The Mary Wollstonecraft Dissertation Award	May 7, 2008 by 5:30 pm	\$1,000
Early Graduate Study Extramural Fellowships		
Department of Education, Jacob K. Javits Fellowship Program	Anticipated deadline: October 5, 2007. Please check the Javits web site for formal deadline.	Awards range from \$3,000 to \$30,000 plus fees
Department of Defense, National Defense Science and Engineering Graduate Fellowship	January 7, 2008 (Information unconfirmed at time of printing.)	Stipends of \$30,000 the first year, \$31,000 the second year and \$31,500 the third year with tuition and fees.
Department of Energy (DOE), Computational Science Graduate Fellowship Program	January 10, 2008 (Information unconfirmed at time of printing.)	Awards include a yearly stipend of \$31,200 plus tuition. Annual research allowance of \$1,000 plus \$2,500 for computer workstation.
Ford Foundation Predoctoral Diversity Fellowships	November 14, 2007 by 11:59 pm EST. (Information unconfirmed at time of printing.)	Predoctoral fellowships of \$20,000, annual institutional allowance of \$3,000 in lieu of tuition and fees for up to three years, and expenses paid to attend one Conference of Ford Fellows.
Fannie and John Hertz Foundation Fellowship	November 2, 2007 for applications and November 5, 2007 for recommenders	(1) nine-month stipend of \$28,000 plus cost-of-education allowance, renewable for up to five years; (2) nine-month stipend of \$33,000 plus cost-of-education allowance for two years plus up to three years of \$3,000/year supplemental stipend (awardee is required to accept a three-year fellowship from another source). Renewable for up to 5 years.
National Aeronautics and Space Administration (NASA) Graduate Student Researchers Program	February 1, 2008, 5 pm EST (Information unconfirmed at time of printing.)	\$18,000 stipend, \$3,000 student allowance and a \$3,000 university allowance
The National Science Foundation's Graduate Research Fellowship Program	November 1, 2007 through November 9, 2007. Deadlines vary depending on discipline.	Stipends of \$30,000 per year plus up to \$10,500 for tuition
Paul and Daisy Soros Fellowships for New Americans	November 1, 2007	Awards provide stipends of \$20,000 per year plus half-tuition costs up to \$16,000 per annum.
Extramural Dissertation Fellowships		
Council of Graduate Schools / University Microfilms International Distinguished Dissertation Award	Campus Deadline: July 31, 2008 (Information unconfirmed at time of printing.)	Honoraria of \$1,000

Fellowships

Fulbright-Hays Dissertation Research Abroad Fellowships	Campus Deadline: October 24, 2007 (Information unconfirmed at time of printing.)	Awards range from \$15,000 to \$60,000 for travel, health and accident insurance, living and research expenses. Stipend also available for dependent's living expenses.
Phi Beta Kappa Alumni International Scholarship Award	Campus Deadline: February 29, 2008	Several scholarships of up to \$2,500 each. Awards are made based on student's financial need, academic record and availability of funds.
UC Santa Cruz, Guru Gobind Singh Fellowship Competition	Campus Deadline: April 23, 2008	Stipend of \$26,000 per academic year
UNCF-MERCK Graduate Science Research Dissertation Fellowships	Campus Deadline: December 2, 2007 (Information unconfirmed at time of printing.)	Maximum award of \$52,000, which consists of a Fellowship Stipend of \$42,000 for the award recipient and a Department Grant of up to \$10,000.
Fulbright Grants for Graduate Study and Research Abroad (IE)	Campus deadline: September 12, 2007	Stipends vary by country.
Extramural Study Abroad Fellowships		
German Academic Exchange Fellowships (DAAD) Study Scholarships	All materials should be submitted to the UCLA Graduate Division two to three weeks before the campus deadlines: October 12, 2007, for music, visual arts and performing arts; November 1, 2007 for applicants in other fields.	Monthly stipends range from \$861-\$1174 plus health insurance and travel costs.
German Academic Exchange Fellowships (DAAD) Research Grant	All materials should be submitted to the UCLA Graduate Division two to three weeks before the campus deadline: November 1, 2007 for 10-month scholarships and for visits between July 1, 2008 and December 31, 2008.	Monthly stipends range from \$861-\$1174 plus health insurance and travel costs.
German Academic Exchange Fellowships (DAAD) German Studies Research Grant	November 1, 2007	\$1,500 to \$2,500
Luce Scholars Program	November 14, 2007	Travel, medical insurance, and living expenses

Congratulations

2007-2008 Fellowship Recipients

Graduate Student Accomplishments

FEATURED ACCOMPLISHMENT

WORLD ARTS AND CULTURES

Sara Wolf: (Producer) "First Annual Golden Unitard Pop Off!" Performance at Highways Performance Space, Santa Monica, CA, October, 2007. Left: (Photo by Leo Garcia) First Annual Golden Unitard Pop Off! judge and World Arts and Cultures professor David Rousséve joins winner Eko "Tutu Warrior" Supriyanto (holding this year's trophy, the GU lunche libre Barbie, created by artist Sophia Allison) and fellow judge Hannah Sim.

AMERICAN INDIAN STUDIES

Michael G. Osborne: [1] "The First Mounted Police: Formation and Duties of the Cherokee Lighthouse, 1808-1825." 3rd Annual Southeast Indian Studies Conference, Pembroke, North Carolina, April, 2007. [2] "If You're Indian, You Are Under Arrest': Jurisdictional Challenges For Tribal Law Enforcement." Presented at the American Indian Studies Conference, University of Oklahoma, Norman, OK, May, 2007.

ANTHROPOLOGY

Karen L. Ishizuka: [1] (Editor) "Mining the Home Movie: Excavations in Histories and Memories." University of California Press, November, 2007. [2] "Passing on the Passion: Community-Based Film as Movement Griot." Presented at the American Anthropological Association, Washington, DC, November, 2007. [3] (Producer) "Pilgrimage." Film, Best Documentary (Short), Sacramento, CA, September, 2007.

Merav Shohet: "Narrating Anorexia: 'Full' and 'Struggling' Genres of Recovery." Published in *Ethos*, vol. 35, pp. 344-382, September, 2007.

APPLIED LINGUISTICS & TESL

Netta R. Avineri: [1] "Socialization into Moral Reasoning in a Torah School Classroom Discussion." Presented at the UCSB Thirteenth Annual Conference on Language, Interaction, and Social Organization, Santa Barbara, CA, May, 2007. [2] "Socialization into Moral Reasoning in a Torah School Classroom." Presented at the 33rd Annual Association for Moral Education Conference, New York, NY, November, 2007.

Inmaculada M. Garcia Sanchez: [1] (First author) "Practices of Social Exclusion of Moroccan

Immigrant Children in Spain." Presented at the 13th Annual Conference on Language, Interaction, and Social Organization, UC Santa Barbara, CA, May, 2007. [2] (First author) "Identities on the Margins: Moroccan Immigrant Children Daily Experiences in a Spanish Public School." Presented at the II International Conference on Ethnography and Education, Universidad Autonoma de Barcelona, Spain, September, 2007. [3] (First author) "The Construction Of Moral And Social Identity in Immigrant Children's Narratives-In-Translation." Published in *Linguistics and Education*, vol. 17, pp. 209-239, 2006.

Jinhee Lee: [1] "The Linguistic Strategies for Representation of Ideology in Media Discourse." Presented at the 3rd Biennial Conference on Intercultural Rhetoric and Discourse, Columbus, OH, June, 2007. [2] "Gender and Distribution of the Allomorphs of Korean Verb Endings." Presented at the 3rd Seoul International Conference on Discourse and Cognitive Linguistics, Seoul, South Korea, July, 2007.

ARCHAEOLOGY

Sonali Gupta-Agarwal: [1] "Archaeology — A Sojourn into the Past." Presented at Hansraj College, University of Delhi, New Delhi, India, August, 2007. [2] (Co-author) "City Landmark Assessment Report: Palisades Park." *City of Santa Monica & PCR Services Corporation*, pp. 1-48, Santa Monica, CA, April, 2007.

ATMOSPHERIC & OCEANIC SCIENCES

Wen Li: [1] (Co-author) "Refilling of the slot region between the inner and outer electron radiation belts during geomagnetic storms." Published in the *Journal of Geophysical Research*, vol. 112, pp. A06203, June, 2007. [2] (Co-author) "Controlling effect of

the pitch angle scattering rates near the edge of the loss cone on electron lifetimes." Published in the *Journal of Geophysical Research*, vol. 111, pp. A12206, December, 2006. [3] (First author) "Calculation of path-integrated growth of whistler-mode chorus waves with the HOTRAY code." Presented at the GEM 2007 Summer Workshop, Salt Lake City, UT, June, 2007. [4] (First author) "Dynamic evolution of energetic outer zone electrons due to wave-particle interactions during storms." Poster presented at GEM 2007 Summer Workshop, Salt Lake City, UT, June, 2007. [5] (First author) "Numerical simulations of competition between loss and acceleration processes in the outer radiation belts." Poster presented at ISSS-8, Kauai, HI, February, 2007.

BIOLOGICAL CHEMISTRY

Daisuke Hattori: (First author) "Dscam diversity is essential for neuronal wiring and self-recognition." Published in *Nature*, vol. 449(7159), pp. 223-227, September, 2007.

Woj M. Wojtowicz: (First author) "A vast repertoire of Dscam binding specificities arises from modular interactions of variable Ig domains." Published in *Cell*, vol. 130(6), pp. 1134-45, September, 2007.

BIOMEDICAL ENGINEERING

Jun Isobe: "Towards an Implantable FES Device to Correct Strabismus: Artificially-Denervated Feline Lateral Rectus." Presented at the 9th Vienna International Workshop on Functional Electrical Stimulation, Vienna, Austria, September, 2007.

Stephanie M. Reed: (First author) John C. and Elizabeth J. Chato Award for Excellence in Bioengineering. Published in *MIT*, June, 2007.

Accomplishments

BIostatistics

Lily L. Altstein: “Self-Reported Behavior of High-Risk HIV+ Youth: Random Effects Models for Multivariate Longitudinal Discrete Data.” Presented at the Joint Statistical Meeting, Salt Lake City, UT, July, 2007.

Leanne Streja: “Does Pole Position Really Matter? Mixed Model Relationship of Motorcycle Grand Prix (MOTOGP) Qualifying Practice and Race Time.” Poster presented at New England Symposium on Statistics in Sports, Boston, MA, September, 2007.

CHEMISTRY & BIOCHEMISTRY

Karina L. Heredia: [1] (First author) “Synthesis of Protein-Polymer Conjugates.” Published in *Organic and Biomolecular Chemistry*, vol. 5, pp. 45-53, January, 2007. [2] (First author) “Aminoxy Functionalized Polymers by ATRP for Chemosensitive Conjugation to Proteins.” Published in *Macromolecules*, vol. 40, pp. 4772-4779, 2007.

Wei-Siang Liau: (First author) “A persistent mitochondrial deletion reduces fitness and sperm performance in heteroplasmic populations in *C. elegans*.” Published in *BMC Genetics*, vol. 8, pp. 8, March, 2007.

COMMUNITY HEALTH SCIENCES

Claire E. Dye: (First author) “Sociodemographic and health correlates of sexual health among midlife women.” Presented at the 135th Annual Meeting of the American Public Health Association (APHA), Washington, DC, November, 2007.

Gabriel James M. Garcia: [1] (Co-author) “Understanding Tobacco Use among Filipino American Men.” Published in *Nicotine and Tobacco Research*, vol. 9:7, pp. 769-776, July, 2007. [2] (First author) “Correlates of Smoking Cessation among Filipino American Men.” Presented at the American Public Health Association 135th Annual Meeting & Exposition, Washington, DC, November, 2007.

Loan P. Kim: [1] (First author) “Perceptions of diet and physical activity among California Hmong adults and youths.” Published in *Preventing Chronic Disease*, vol. 4 (4), pp. 1-12, October, 2007.

Gergana D. Kodjebacheva: [1] “Inclusive Design: Playgrounds for children using wheelchairs.” Poster presented at American Public Health Association (APHA) Annual Meeting, Washington, DC, November, 2007. [2] (First author) “Pediatric racial disparities in visual impairment: A conceptual framework.” Poster presented at American Public Health Association (APHA) Annual Meeting, Washington, DC, November, 2007. [3] (First author) “Racial/ethnic differences in pediatric visual impairment: Mobile Eye Clinic study.” Poster presented at Jules Stein Eye Institute Vision Health Conference, Lake Arrowhead, CA, September, 2007.

Jennifer Lee: [1] (Co-author) “Use of Health-Related and Cancer-Specific Support Groups Among Adult Cancer Survivors.” Published in *Cancer*, vol. 109, pp. 2580, June, 2007. [2] (Co-author) “Predictors

of Complementary and Alternative Medicine Use among California Adults with Cancer and Other Chronic Conditions.” Published in *Integrative Medicine Insights*, vol. 2, pp. 61, 2007.

Rotrease Regan: “*Penyakit-penyakit Menular, Termasuk HIV/AIDS di Kota Manado, Sulawesi Utara* (Infectious Diseases, Including HIV/AIDS in Manado, North Sulawesi).” Presented at the Consortium for the Teaching of Indonesian and Malay/Sam Ratulangi University, Manado, Northern Sulawesi, Indonesia, August, 2007.

Yoshiko Umezawa: (First author) “Social and Religious Support in Older Racial/Ethnic Minority Women with Newly Diagnosed Breast Cancer.” Poster presented at California Breast Cancer Research Program Symposium, Los Angeles, CA, September, 2007.

Melissa H. Withers: [1] (First author) “Understanding the determinants of prenatal care in Bali, Indonesia.” Presented at the American Public Health Association, Washington DC, November, 2007. [2] (First author) “Community participation in improved maternal health care service utilization in Bali, Indonesia.” Presented at the American Public Health Association, Washington, DC, November, 2007. [3] (First author) “Predictors of workplace sexual health policy at sex work establishments in the Philippines.” Published in *AIDS Care*, vol. 19, pp. 1020-1025, August, 2007.

COMPARATIVE LITERATURE

Emad Mirmotahari: (First author) “Translation of ‘Estranged’ by Morteza Miraftebi, from Persian to English.” Published in *TRANSLATION*, vol. 2, CA, October, 2007.

Rachelle M. Okawa: “Representational Paradoxes and (Un)reliable Translations in Caribbean Literature.” Presented at the Aesthetics and (Self) Deception conference, Seattle, WA, October, 2007.

Theri A. Pickens: “Casino,” “Confessions of a Future Housewife,” “In Situ,” “Like Girls,” “Living with Ghosts,” and “No Use Crying.” Published in *Black Renaissance/Renaissance Noire*, vol. 7.2, pp. 73-75.

Sina Rahmani: [1] (First author) “On Lateness and Incompleteness: A review of Edward Said’s ‘On Late Style.’” Book review of *Politics and Culture*, forthcoming. [2] “How to Become a Famous Islamic Reformer: The Strange Case of Irshad Manji.” Presented at the Global Tensions, Global Possible conference, McMaster University, Hamilton, Canada, September, 2007. [3] “Losing It: Iran and the American Cultural Imagination in the 1970s.” Presented at the Re-Imagining Iran conference, UC Irvine, Irvine, CA, May, 2007.

Jordan Y. Smith: (Co-chair) “Comparative Pedagogies: Critical Reflections on a Neglected Art.” UCLA Department of Comparative Literature, Los Angeles, CA, September, 2007.

EARTH & SPACE SCIENCES

Pamela S. Hill: (First author) “Demonstrating Equilibrium Fe Isotope Fractionation in Fe Cl Solutions.” Presented at the Goldschmidt

Geochemical Conference, Cologne, Germany, August, 2007.

ECOLOGY & EVOLUTIONARY BIOLOGY

Wesley C. Chun: “An Anole Lizard Preserved in Colombian Copal.” Published in *Herpetological Review*, vol. 38, pp. 294, September, 2007.

Melissa M. Gray: [1] (Co-author) “A single IGF1 allele is a major determinant of small size in dogs.” Published in *Science*, vol. 316, pp. 112-115, April, 2007. [2] (Co-author) “Evidence for Induced Estrus or Ovulation in a Canid, the Island Fox (*Urocyon littoralis*).” Published in *Journal of Mammalogy*, vol. 88, pp. 436-440, April, 2007.

Erin Marnocha: (First author) “Anthropogenic habitat alteration affects the strength and form of natural selection in the brown anole (*Anolis sagrei*).” Presented at the Evolution, Christchurch, New Zealand, June, 2007.

Tina W. Weay: “Social network analysis for the study of animal behavior.” Presented at the Animal Behavior Society 2007 Annual Meeting, Burlington, VT, July, 2007.

EDUCATION

Deborah A. Fields: [1] (First author) “Tracing insider knowledge across time and spaces: A connective ethnography in a teen online game world.” Presented at the Computer Supported Collaborative Learning conference, New Brunswick, NJ, July, 2007. [2] (First author) “Stealing from Grandma or generating knowledge: Contestations and effects of cheats in a tween virtual world.” Presented at the Digital Games Research Association conference, Tokyo, Japan, September, 2007. [3] (First author) “The development of distributed expertise across physical and virtual worlds in a teen gaming club.” Presented at the Games + Learning + Society, 3.0 conference, Madison, WI, July, 2007.

Kimberly E. Foulds: (First author) *The African Game* (Book Review). Book review of *Ufabamu: A Journal of African Studies*, vol. 33, February, 2007.

Lauren I. Jones: (First author) “Expressions of faith in new social movements: the cases of the U.S., Argentina, Brazil, and Nicaragua.” Presented at the World Council of Comparative Education Societies conference, Sarajevo, Bosnia i Hercegovina, September, 2007.

Rita Kohli: “Breaking the Cycle of Racism in the Classroom: Critical Race Reflections of Future Teachers of Color.” Published in *Teacher Education Quarterly*, 2008.

Ramon A. Martinez: [1] “Spanglish as Transformative Literacy Practice: Toward an Understanding of the Potential Role of Spanish-English Code-switching in the Development of Critical Literacy.” Presented at the Annual Meetings of the American Educational Research Association, Chicago, IL, April, 2007. [2] (Co-presenter) “Translating Voices: Leveraging Students’ Audience Awareness Skills for Academic

Writing.” Presented at the Annual Meetings of the American Educational Research Association, Chicago, IL, April, 2007.

Greg W. Misiaszek: “Ecopedagogy: Adult environmental education for conscientização on deforestation in developing countries by reinventing Freirian Pedagogy.” Presented at the 8th World Congress of Comparative Education Societies conference, Sarajevo, Bosnia and Herzegovina, September, 2007.

ELECTRICAL ENGINEERING

Yu-Lin Chao: (First author) “Source/Drain Engineering for Parasitic Resistance Reduction for Ge p-MOSFETS.” Published in *IEEE Transactions on Electron Devices*, vol. 54, pp. 2750, October, 2007.

Jared Dulmage: [1] (First author) “Non-Isotropic Fading Channel Model for the Highway Environment.” 1st IEEE International Symposium on Wireless Vehicular Communications, Baltimore, MD, September, 2007. [2] (First author) “Reconfigurable Testbed for Rapid Algorithm Development, Implementation, and Test.” Poster presented at 1st IEEE International Symposium on Wireless Vehicular Communications, Baltimore, MD, September, 2007.

Scott W. Enserink: (First author) “Mitigation of Scintillation Using Antenna Receive Diversity for Satellite Signals.” Presented at the Radio and Wireless Symposium, Orlando, FL, January, 2008.

Daniel N. Liu: [1] (First author) “Low Complexity Affine MMSE Detector for Iterative Detection-Decoding MIMO OFDM System.” Published in *IEEE Transaction on Communication*, September, 2007. [2] (First author) “Recursive LMMSE-Based Equalization in Wireless Mobile Coded OFDM.” IEEE International Symposium on Personal, Indoor and Mobile Radio Communications, Athens, Greece, September, 2007. [3] (First author) “Reduced State Iterative MAP Equalization and Decoding in Wireless Mobile Coded OFDM.” Forty-Fifth Annual Allerton Conference On Communication, Control, and Computing, Champaign, IL, September, 2007. [4] (First author) “Space Time Serial Concatenated Turbo Coded Modulation.” Asilomar Conference on Signals, Systems, and Computers, Pacific Grove, CA, November, 2007. [5] (First author) “Recursive Sliding-Window LMMSE-Based Equalization in Wireless Mobile Coded OFDM.” IEEE Global Communications Conference, Washington D.C., November, 2007.

Hyunggon Park: [1] (First author) “Bargaining Strategies for Networked Multimedia Resource Management.” Published in *IEEE Transactions on Signal Processing*, vol. 55, pp. 3496-3511, July, 2007. [2] (First author) “Multi-user Multimedia Resource Management using Nash Bargaining Solution.” IEEE International Conference on Acoustics, Speech, and Signal Processing (ICASSP '07), Honolulu, HI, April, 2007. [3] (First author) “Fairness Strategies for Multi-user Multimedia Applications in Competitive Environments using the Kalai-Smorodinsky Bargaining Solution.” IEEE International Conference on Acoustics, Speech, and

Signal Processing (ICASSP '07), Honolulu, HI, April, 2007.

Michael R. Samuel: [1] (First author) “Reducing The Detection Complexity By Using 2×2 Multi-Strata Space-Time Codes.” IEEE Internal Symposium on Information Theory, Nice, France, June, 2006. [2] (First author) “Geometric Decoding Of PAM and QAM Lattices.” IEEE Globecom, Washington DC, November, 2007.

Cong Shen: (First author) “Optimal Resource Allocation in Wireless Multiaccess Video Transmissions.” IEEE International Conference on Communications 2007, Glasgow, Scotland, June, 2007.

Hsien-Po Shiang: (First author) “Multi-user video streaming over multi-hop wireless networks: A distributed, cross-layer approach based on priority queuing.” Published in *IEEE Journal on Selected Areas in Communications*, vol. 25, pp. 770-785, May, 2007.

ENGLISH

Nathan Brown: [1] “The Inorganic Open: Nanotechnology and Physical Being.” Published in *Radical Philosophy*, vol. 144, pp. 33-44, July, 2007. [2] “21st Century Materialism.” Chapter published in book *Pre-Specifics: Research, Art, and Design in an Expanded Field*, 2008. [3] “The Politics of Error: An Interview with Shanning Wang.” Published in *Jacket*, vol. 34, October, 2007.

Brendan O’Kelly: “The Photographic Escarre: Derrida’s Paralysis of the Punctum.” Presented at the Real Things: Matter, Materiality and Representation, 1880 to the Present at the University of York, England, York, UK, July, 2007.

ENVIRONMENTAL HEALTH SCIENCES

Irene T. Miranda: (First author) “Temperate marine reserves enhance targeted but not untargeted fishes in multiple no-take MPAs.” To be published in *Ecological Applications*, in press, 2007.

GEOGRAPHY

Barbara Y. Maida: “A Century of Misbelief: Milk Sickness in the American Midwest, 1828-1928.” American Association for the Advancement of Science, Pacific Division, Boise, ID, June, 2007.

Tristan Sturm: (First author) “Re-mapping the Apocalypse After the Cold War.” Best Doctoral Paper Award, Political Geography Specialty Group of the AAG, San Francisco, CA, May, 2007.

Robert E. Sullivan: “Walt Whitman and the Consecration of Manifest Destiny.” Presented at the Association of Pacific Coast Geographers, Long Beach, CA, October, 2007.

Justin Wilford: “Morality of Materiality: Adorno and the Primacy of the Object.” Published in *Space and Culture*.

GERMANIC LANGUAGES

Jonathan T. Jones: (Panelist) “Frightened Out of Our Skin and Back Again: The Spectacle of Gunter von Hagens’ BodyWorlds.” Presented at the German Studies Association, San Diego, CA, October, 2007.

HEALTH SERVICES

Jabar A. Akbar: (First author) “The contribution of soul and Caribbean foods to nutrient intake in a sample of Blacks of US and Caribbean descent in the Adventist Health Study-2: a pilot study.” Published in *Ethnicity & Disease*, vol. 17, pp. 244-249, 2007.

Shana A. Lavarreda: “Discontinuous Medi-Cal and Healthy Families and the Effects on Access to Physician Services.” Presented at the Academy Health Annual Research Meeting, Orlando, FL, June, 2007.

HISTORY

Milo M. Alvarez: [1] (Panelist) “Rethinking Chicano Indianism in the Chicano Movement Era.” Presented at the University of Illinois Urbana-Champaign Latina/o Studies Graduate Student Conference, Champaign, IL, February, 2007. [2] (Panelist) “Towards a ‘Chicana/o Profundo’ based historiography: Understanding the Chicano Movement and the Brown Berets of Aztlan in an Indigenous Context.” Presented at the Graduate Student Colectiva Conference, University of California, Santa Barbara, November, 2007.

Deirdre B. Cooper Owens: (Panelist) “The Tie That Binds: Black and Irish Women’s Bodies, Experimental Surgery and Reproductive Care.” Presented at the The Association for the Study of African American Life and History conference, Charlotte, NC, October, 2007.

Heather M. Daly: “Fractured Relations at Home: The 1953 Termination Act’s Effect on Tribal Relations throughout Southern California Indian Country.” Presented at the Western History Association 47th Annual Conference, Oklahoma City, OK, October, 2007.

Maura D. Dykstra: “In Search of a Guarantee: Law, Community, Reputation, and Dispute Resolution in Batavia.” Presented at the Western Conference of the Association for Asian Studies and the Southwest Conference of the Association for Asian Studies, Salt Lake City, UT, September, 2007.

Joan G. Gonzalez: [1] “Opera as Propaganda: The Trajan-Napoleon Parallel in *Le Triomphe de Trajan*.” Presented at the XII^e Congrès International des Lumières de la Société Internationale d’Étude du XVIII^{ème} Siècle / 12th International Enlightenment Congress of the International Society for Eighteenth-Century Studies, Montpellier, France, July, 2007. [2] “The Incorruptible Genius: Jean-Jacques Rousseau and Civilization.” Presented at the XII^e Congrès International des Lumières de la Société Internationale d’Étude du XVIII^{ème} Siècle / 12th International Enlightenment Congress of the International Society for Eighteenth-Century Studies, Montpellier, France, July, 2007. [3] “Nature as

Accomplishments

Inspiration: Rousseau's Conversion at Vincennes." Presented at the XII^e Congrès International des Lumières de la Société Internationale d'Étude du XVIII^{ème} Siècle / 12th International Enlightenment Congress of the International Society for Eighteenth-Century Studies, Montpellier, France, July, 2007. [4] "The Quest for Freedom and Wisdom in Beethoven's *Fidelio* and Mozart's *Die Zauberflöte*." Presented at the XII^e Congrès International des Lumières de la Société Internationale d'Étude du XVIII^{ème} Siècle / 12th International Enlightenment Congress of the International Society for Eighteenth-Century Studies, Montpellier, France, July, 2007. [5] (Moderator) "Rousseau." XII^e Congrès International des Lumières de la Société Internationale d'Étude du XVIII^{ème} Siècle / 12th International Enlightenment Congress of the International Society for Eighteenth-Century Studies, Montpellier, France, July, 2007.

Zevi M. Gutfreund: "Standing Up to Sugar Cubes: The Contest over Ethnic Identity in California's Fourth Grade Curriculum." Presented at the Whitsett Graduate Seminar in California History, Northridge, CA, May, 2007.

Jared G. McBride: "The Holocaust in Ukraine: New Resources and Perspectives." Presented at the United States Holocaust Memorial Museum, Mémorial de la Shoah, University of Paris IV-Sorbonne, Yahad-In Unum, Centre de Documentation Juive Contemporaine, Paris, France, October, 2007.

Khodadad Rezakhani: [1] "Bactrian Economy in Late Antiquity." Presented at the Sixth Conference of the European Society of Iranian Studies, Vienna, Austria, September, 2007. [2] (Co-chair) "Second Annual University of California Conference on Late Antiquity." Multi-campus Research Group in Late Antiquity, Los Angeles, CA, March, 2007. [3] "Re-drawing the Arsacid Family Tree." Chapter published in book *Prof. A. Shapur Shabbazi Memorial*, November, 2007.

Walter D. Ward: "Aila and Clysma: The Rise of Northern Ports in the Red Sea in Late Antiquity." Chapter published in book *Natural Resources and Cultural Connections of the Red Sea*, August, 2007.

HUMAN GENETICS

Tova F. Fuller: [1] (First author) "Weighted Gene Co-expression Network Analysis Strategies Applied to Mouse Weight." Published in *Mammalian Genome*, vol. 18(6), pp. 463-472, August, 2007. [2] "Differential Network Analysis in Mouse Expression Data." Presented at the BIOCOMP'07 - The 2007 International Conference on Bioinformatics & Computational Biology Conference, Las Vegas, NV, June, 2007. [3] "Differential Weighted Gene Coexpression Network Analysis Applied to Mouse Weight." Presented at the 8th International Conference on Systems Biology, Long Beach, CA, October, 2007. [4] (Moderator) "Co-organizer for Medical Consequences of War: the 2007 National SPSR Conference." Student Physicians for Social Responsibility, Palo Alto, CA, February, 2007.

INFORMATION STUDIES

Katherine M. Becvar: (First author) "Intellectual Freedom and Sensitive Knowledge: Embracing

Pluralism in the Process of Knowing." Progressive Librarians Guild, Braverman Award, Honorable Mention, June, 2007.

Jenna Hartel: [1] (Co-author) "Information and higher things in life: Addressing the pleasurable and the profound in information science." Published in *Journal of the American Society for Information Science and Technology*, vol. 58, pp. 1131-1147, June, 2007. [2] (Co-author) "Revisiting the user-centered turn in information science research: An intellectual history perspective." Sixth International Conference on Conceptions of Library and Information Science, Borås, Sweden, August, 2007.

Janet L. Hughes: [1] "Library Access for Persons with Disabilities: Post-secondary Education." Presented at the UCLA Library Management, Los Angeles, CA, June, 2007. [2] (Co-presenter) "Forgotten Futures." Exhibit of MFA First Year Graduate Work from the Department of Design|Media Arts, Los Angeles, CA, June, 2007.

(Joanne) Monti Lawrence: "Automating metadata using XML profiling." Presented at the Center for Information-Development Management conference, Atlanta, GA, September, 2007.

Sylva N. Manoogian: (Panelist) Talk in Spanish to students and librarians on "The Spirit of Ararat = El Alma del Ararat," an overview of Armenian heritage and the role of libraries in preserving cultural identity. Presented at the University of Valencia, Spain, September, 2007.

Lilly U. Nguyen: [1] (Co-presenter) "Linking and the Network Imaginary." Presented at the New Network Theory conference, Amsterdam, Netherlands, July, 2007. [2] "Dialectics of Memory and Forgetting in the Digital Capture and Surveillance of Sex Offenders." Presented at the Society for Social Studies of Science, Montreal, Canada, October, 2007.

ITALIAN

Gianpiero Doebler: [1] (First author) "Non mi può far ombra: Le distinzioni fra luce e Lume nelle Rime di Dante." Published in *Tenzone*, vol. 7, pp. 29. [2] (First author) "Poems of Mara Cini" (translator). Published in *Journal of Italian Translation*, vol. 2, pp. 170, 2007.

LATIN AMERICAN STUDIES

Phillip A. Ramirez: "¡Japonerías! ¡Chinerías! Por lujo y nada más. A study of the portrayal of East Asia within the works of Latin American modernistas." 9th Annual Conference on Hispanic and Lusophone Literatures, Cultures, and Linguistics conference, UCSB, Santa Barbara, CA, April, 2007.

MANAGEMENT

Michele A. Crane: (Co-presenter) "Top Consulting Honors in Global Consulting Challenge." Presented at the USC Marshall MBA Global Consulting Challenge, Los Angeles, CA, February, 2007.

Marco D. Huesch: "'False Alarms' in Surgical Quality Control." To be published in *Journal for Healthcare Quality*, January, 2008.

Dharma Kwon: "Invest or Exit? Optimal Decisions in the Face of a Declining Profit Stream." Presented at the INFORMS International Conference 2007, Rio Grande, Puerto Rico, July, 2007.

Amit Sharma: (Co-presenter) Second Prize in international competition on India's economic development. Published in *Manifest 2007* (Indian Institute of Management, Lucknow), Lucknow, India, January, 2007.

Ted Shieh: [1] (Sole performer) Won \$10,000 as #11 in the 2007 Interactive Brokers Collegiate Trading Olympiad. (www.interactivebrokers.com/en/general/education/IBTradingOlympiad.php), March, 2007. [2] Won \$1,000 as one of five finalists in the 2006 GMO Investment Strategy Competition. Presented investment strategy at GMO's headquarters in Boston, February, 2007.

Yi Zhou: [1] (Co-author) "The Importance of Leverage in Asset Pricing: Evidence from S&P 500 Index Put Option Prices." Presented at the 2007 Hawaii International Conference on Business, Honolulu, HI, May, 2007. [2] (Co-author) "The Importance of Leverage in Asset Pricing: Evidence from S&P 500 Index Put Option Prices." Presented at the 2007 Financial Management Association Annual Meeting, Orlando, FL, October, 2007.

MATHEMATICS

Igor Yanovsky: [1] (First author) "Log-Unbiased Large-Deformation Image Registration." International Conference of Computer Vision Theory and Applications, vol. 1, pp. 272-279, Barcelona, Spain, March, 2007. [2] (First author) "Quantifying Deformation Using Information Theory: The Log-Unbiased Nonlinear Registration." IEEE International Symposium on Biomedical Imaging, vol. 1, pp. 13-16, Washington D.C., April, 2007. [3] (First author) "Topology Preserving Log-Unbiased Nonlinear Image Registration: Theory and Implementation." IEEE Conference on Computer Vision and Pattern Recognition, vol. 1, pp. 1-8, Minneapolis, MN, June, 2007. [4] (First author) "Multiphase Segmentation of Deformation using Logarithmic Priors." Published in *IEEE Computer Society Workshop on Image Registration and Fusion*, vol. 1, pp. 1-6, Minneapolis, MN, June, 2007. [5] (Co-author) "Statistical Properties of Jacobian Maps and the Realization of Unbiased Large-Deformation Nonlinear Image Registration." Published in *IEEE Transactions on Medical Imaging*, vol. 26, pp. 822-832, June, 2007.

MECHANICAL & AEROSPACE ENGINEERING

Soon S. Hwang: (Co-author) "Estimation of Relative Satellite Position Using Transformed Differential Carrier-Phase GPS Measurements." Published in *AIAA, Journal of Guidance, Control, and Dynamics*, vol. 30, pp. 1217, September, 2007.

Antonio M. Pereira: [1] (First author) Mondialogo Engineering Award Nomination. Presented at the

Mondialogo Unesco Daimler Chrysler, Mumbai, India, December, 2007. [2] (First author) "Energy-storage structural composites." Presented at the American Composites Society - 22nd Technical Annual, Seattle, WA, September, 2007. [3] (Chair) "Global Warming & Economic Sustainability." UCLA - Institute for the Environment - La Kretz Hall - Speaker Series, Los Angeles, CA, March, 2007. [4] (Co-author) "Flexible high-loading particle-reinforced polyurethane magnetic nanocomposite fabrication through particle-surface-initiated polymerization." Published in *Nanotechnology*, vol. 18, pp. 335704-12, August, 2007. [5] (Co-author) "Particle Surface Engineering Effect on the Mechanical, Optical and Photoluminescent Properties of ZnO/Vinyl-Ester-Resin Nanocomposites." Published in *Journal of Materials Chemistry*, vol. 17, pp. 806-813, December, 2007.

MOLECULAR, CELL, & DEVELOPMENTAL BIOLOGY

Sharina P. Desai: (Co-author) "Autocrine VEGF signaling is required for vascular homeostasis." Published in *Cell*, vol. 130(4), pp. 691-703, August, 2007.

MOLECULAR, CELLULAR, & INTEGRATIVE PHYSIOLOGY

Brian J. Duistermars: [1] (First author) "Dynamic properties of large-field and small-field optomotor flight responses in *Drosophila*." Published in *Journal of Comparative Physiology*, vol. 193, pp. 787-799, July, 2007. [2] (First author) "The spatial, temporal and contrast properties of expansion and rotation flight optomotor responses in *Drosophila*." Published in *Journal of Experimental Biology*, vol. 210, pp. 3218-3227, September, 2007.

MOLECULAR BIOLOGY

Lai N. Chan: (First author) "Small Molecule Inhibitors of Protein Geranylgeranylation and Palmitoylation." Poster presented at Gordon Research Conference 2007 - Phosphorylation and G-Protein Mediated Signaling Networks, Biddeford, ME, June, 2007.

Uyen Phuong C. Tran: [1] (First author) "Endogenous synthesis of coenzyme Q in Eukaryotes." Published in *Mitochondrion*, in press, March, 2007. [2] (Co-author) "Saccharomyces cerevisiae Coq9 polypeptide is a subunit of the mitochondrial coenzyme Q biosynthetic complex." Archives of *Biochemistry and Biophysics*, in press, February, 2007.

MOVING IMAGE ARCHIVE STUDIES

Leah M. Kerr: (First author) "Views from Inside: African American Self-representation in Moving Image Archives." Information Studies Student Diversity Paper Award, June, 2007.

MUSIC

Gregory S. Chambers: [1] (Co-performer) Saxophonist for Ginn Resorts Spoleto Festival Orchestra. Performance of Spoleto Festival USA, Charleston, SC, May, 2007. [2] (Co-performer) Saxophonist for all of the festival's orchestras, Aspen Music Festival, Aspen, CO, June, 2007.

Namhee Han: [1] Soloist in Midday Organ Concert, First Congregational Church of Los Angeles, September, 2007. [2] Keyboardist & Featured Artist in the premier concert, Vox Virtus of Cantantes Homines. St. Augustine's By-The-Sea Episcopal Church in Santa Monica and Westwood Presbyterian Church of Los Angeles, Santa Monica & Los Angeles, CA, September, 2007. [3] Solo organist in Mid-Day Wednesday Concert Series. Cathedral of Our Lady of the Angels, Los Angeles, CA, August, 2007. [4] Soloist in Midday Organ Concert. First Congregational Church of Los Angeles, August, 2007. [5] Solo organist in Summer Organ Concert Series. Westwood United Methodist Church, Los Angeles, CA, July, 2007. [6] Solo organist in Organ Concert Series. St. James Episcopal Church, Los Angeles, CA, January, 2007.

Jennifer A. Jester: [1] (Panelist) "Music Business Curriculum for an Innovative and Creative New World." Presented at the Brevard Conference for Music Entrepreneurship, Brevard, NC, July, 2007. [2] (Sole performer) "Thinking Outside the Box for Recitals: Remixing, Commissioning, and Audience Participation." Presented at the South West Regional Tuba and Euphonium Conference, Tucson, AZ, March, 2007.

Allen W. Menton: (Composer) "Unspoken." Performance of world premier by the Orchestra da Camera, Colburn School, Los Angeles, CA, May, 2007.

MUSICOLOGY

Ewelina Boczkowska: (First author) "Musical Constructions of Mourning in the Cinema of Krzysztof Kieslowski." Presented at the International Musicological Society (IMS), Zurich, Switzerland, July, 2007.

Kariann E. Goldschmitt: [1] "Carmen Miranda e as Representações Globais da Música Brasileira." Presented at the Federal University of Rio Grande do Sul, Porto Alegre, Brazil, May, 2007. [2] "Carmen Miranda e as Representações Globais da Música Brasileira." Presented at the Federal University of Rio de Janeiro, Rio de Janeiro, Brazil, July, 2007.

Loren Y. Kajikawa: "Eminem's 'My Name Is': Signifying Whiteness, Rearticulating Race." American Musicological Society Annual Meeting, Quebec City, Canada, November, 2007.

Holley D. Replogle: "Coming-Of-Age In Wartime: American Propaganda and Patriotic Nationalism in *Yankee Doodle Dandy*." Presented at the International Association for the Study of Popular Music, Boston, MA, April, 2007.

Eva Sobolevski: "Szymanowski's Stabat mater as discourse on faith, suffering, and nation." Joint AMS Pacific South-West and Northern California Chapter Conference, Los Angeles, CA, June, 2007.

Bruce Whiteman: [1] "William Andrews Clark, Jr. as Collector and Public Benefactor." Presented at the Collectors and Collecting: Private Collections and Their Role in Libraries conference, Chawton, England, July, 2007. [2] "Text and Music in Chausson's 'Serres chaudes.'" Presented at the Words and Notes in the Nineteenth Century conference, London, England, July, 2007. [3] (Sole performer) "Cui bono?: Printing the Greek and Latin Classics in a Semi-literate Age." Presented at the American Printing History Association Annual Conference, Los Angeles, CA, October, 2007.

NEUROSCIENCE

Allen Ardestani: [1] (Co-author) "Distributed and associative working memory." Published in *Cerebral Cortex*, vol. 17, p. i77, September, 2007. [2] "Functional differentiation within the monkey cortex as revealed by near-infrared spectroscopy." Presented at the Society for Neuroscience Conference, San Diego, CA, November, 2007.

Erin E. Gray: (First author) "Long-Term Potentiation in the Hippocampal CA1 Region Does Not Require Insertion and Activation of GluR2-Lacking AMPA Receptors." Published in *Journal of Neurophysiology*, vol. 98, pp. 2488-2492, October, 2007.

Besim O. Uzgil: (Co-author) "Immature neurons and GABA networks may contribute to epileptogenesis in pediatric cortical dysplasia." Published in *Epilepsia*, vol. 48, pp. 79-85, September, 2007.

PATHOLOGY AND LABORATORY MEDICINE

Eileen L. Heinrich: (First author) "IL-1b Induces ZEB1 and Slug and downregulates E-cadherin in NSCLC." Poster presented at American Association for Cancer Research, Los Angeles, CA, April, 2007.

PHILOSOPHY

Robert C. Hughes: "Governing Without Coercion." Presented at the Northwestern Society for Ethical Theory and Political Philosophy First Annual Conference, Evanston, IL, May, 2007.

PHYSICS & ASTRONOMY

Jonathan S. Landy: (First author) "Centered approach to the period of anharmonic oscillators." Published in *Eur. J. Phys.*, vol. 28, pp. 1051-1061, September, 2007.

Chun Ly: [1] (Co-author) "High-redshift Lya emitters with a large equivalent width: Properties of i-dropout galaxies with an NB921-band depression in the Subaru Deep Field." Published in *Astronomy and Astrophysics*, vol. 468, pp. 877-883. [2] (First author) "Lyman Break Galaxies in the Redshift Desert: Deep GALEX NUV Imaging of the Subaru Deep Field." Poster presented at the American Astronomical Society Meeting 210, Honolulu, HI, June, 2007. [3] (Co-presenter) "Progress Toward a VLBA Movie of the Jet Collimation Region in M87." Presented at

Accomplishments

the Extragalactic Jets: Theory and Observation from Radio to Gamma Ray, Girkwood, AK, May, 2007.

PHYSIOLOGICAL SCIENCE

Edwin M. Valladares: [1] (First author) "Polysomnographic Sleep In Cocaine Dependence: Mini-Review." Published in *The Scientific World Journal*, in press. November, 2007. [2] "Brain structural differences between REM-related and non-REM related obstructive sleep apnea." Presented at the Society for Neuroscience Conference, San Diego, CA, November, 2007. [3] (Co-author) "Increased fMRI Signals to Hand Grip Pressor Challenge in Obstructive Sleep Apnea." Society for Neuroscience Conference, San Diego, CA, November, 2007. [4] (First author) "Altered Timing and Amplitude of Cardiovascular and Neural Responses to a Cold Pressor Foot Challenge in Congenital Central Hypoventilation Syndrome." Published in *Sleep and Biological Rhythms Journal / WorldSleep 07 Conference*, vol. 5 Suppl. 1, p. A65, Cairns, Australia. [5] (Co-author) "Neural Alterations Accompany Depression in Patients with Obstructive Sleep Apnea." Published in *Sleep and Biological Rhythms Journal / WorldSleep 07 Conference*, vol. 5 Suppl. 1, p. A187, Cairns, Australia, August, 2007. [6] (Co-author) "Neural Damage Associated with Anxiety in Obstructive Sleep Apnea Syndrome." Published in *Sleep and Biological Rhythms Journal / WorldSleep07 Conference*, vol. 5 Suppl. 1, p. A189, Cairns, Australia, August, 2007. [7] (Co-author) "Sex-Related Neural Alterations in Obstructive Sleep Apnea." Published in *Sleep and Biological Rhythms Journal / WorldSleep07 Conference*, vol. 5 Suppl. 1, p. A139, Cairns, Australia, August, 2007.

POLITICAL SCIENCE

Theodore Christov: [1] (First author) "Thomas Hobbes in the History of International Political Thought." Published in *European Legacy*, vol. 12:4, May, 2007. [2] "Re-Reading Hobbes on International Relations." Western Political Science Association Meeting, Las Vegas, NV, March, 2007. [3] "Reuniting Political Theory and International Relations as a Model of Intellectual History: The Case of Thomas Hobbes." International Society for Intellectual History Annual Meeting, London, United Kingdom, April, 2007.

Kim Y. Dionne: [1] (Co-author) "The Different Movers in a Social Movement." Presented at the American Political Science Association conference, Chicago, IL, August, 2007. [2] "Global Promises, Local Realities: Access to HIV testing and AIDS drugs in rural Malawi." African Studies Association conference, New York, NY, October, 2007.

Koji Kagotani: "Economic Interdependence and Alliance Reliability: How does International Trade Affect Alliance Commitments in Crises?" Poster presented at the Annual Meeting of the American Political Science Association, Chicago, IL, September, 2007.

James F. Paradise: "A Model of Intellectual Property Rights Enforcement in China." Presented at the Asian Studies on the Pacific Coast conference, Honolulu, HI, June, 2007.

PSYCHOLOGY

Brian R. Baucom: [1] (First author) "Contributions of marital distress and depression to communication patterns in distressed couples." Published in *Journal of Social and Clinical Psychology*, vol. 26 (6), pp. 689-707, June, 2007. [2] (First author) "Power and arousal: New methods for assessing couples." Presented at the Klaus Grawe Think-Tank Meeting, Zuos, Switzerland, September, 2007. [3] (First author) "Encoded arousal and demand/withdraw behavior." Presented at the Association of Cognitive and Behavioral Therapy conference, Philadelphia, PA, November, 2007. [4] (First author) "Relationship satisfaction and endogenous eye-blink rate." Presented at the Association of Behavioral and Cognitive Therapy conference, Philadelphia, PA, November, 2007. [5] (Co-chair) "Positive aspects of relationship functioning." Presented at the Association of Behavioral and Cognitive Therapy conference, Philadelphia, PA, November, 2007. [6] (First author) "The role of anxiety and anger in demand/withdraw behavior." Presented at the Association of Behavioral and Cognitive Therapy conference, Philadelphia, PA, November, 2007. [7] (Co-author) "Do the Naïve know best? Naïve Ratings of Relationship Quality in Problem Solving Interactions During a Clinical Trial of Couple Therapy." Presented at the Association of Behavioral and Cognitive Therapy conference, Philadelphia, PA, November, 2007. [8] (Chair) "Innovative behavioral research methods in couples research." Presented at the Association of Behavioral and Cognitive Therapy conference, Philadelphia, PA, November, 2007.

Kevin R. Binning: "It's us against the world': How distrust in Americans versus people-in general shapes support for competitive foreign policies." Published in *Political Psychology*, vol. 28, pp. 777-799, December, 2007.

Jessica R. Cohen: [1] (First author) "Neural substrates of response inhibition in children examined using fMRI." Poster presented at the Organization for Human Brain Mapping conference, Chicago, IL, June, 2007. [2] "Neural development of reward processing across adolescence." Presented at the Society for Neuroscience conference, San Diego, CA, November, 2007.

Teal S. Eich: (Co-presenter) "Time and People's Metacognitions of Agency." Presented at the Psychonomic Society, Long Beach, CA, November, 2007.

Abbey S. Eisenhower: [1] (First author) "Early student-teacher relationships of children with and without intellectual disability: Contributions of behavioral, social, and self-regulatory competence." Published in *Journal of School Psychology*, vol. 45, pp. 363-383, 2007. [2] "Efficacy of the Strong Start program in promoting school adjustment during the transition to kindergarten: Mechanisms of treatment effect for anxiety and disruptive behavior symptoms." Presented at the Child & Adolescent Anxiety Special Interest Group, Association for Cognitive and Behavioral Therapies, Philadelphia, PA, November, 2007. [3] (First author) "Efficacy of the Strong Start program in promoting school adjustment during the transition to kindergarten: Differential effects for anxiety and disruptive behavior symptoms." Poster presented at the Child & Adolescent Anxiety Special Interest Group Poster Exhibition, Annual Convention of the Association for

Cognitive and Behavioral Therapies, Philadelphia, PA, November, 2007.

Adi Jaffe: (First author) "Do Drugs Really Produce Violence? Drug Use and Partner Violence: A Structural Modeling Approach within a Drug Using Sample." Poster presented at 2007 American Psychological Association's Annual Convention, San Francisco, CA, August, 2007.

Kathleen S. Johnson: [1] (First author) "The persistence of emotion: Modeling affective dimension autocorrelations using dynamic factor analysis." Poster presented at Annual Conference of the Association for Psychological Science, Washington D.C., April, 2007. [2] (First author) "Construction and Validation of a Casual Physical Acquaintance Attitudinal Scale." Poster presented at Annual Conference of the Western Psychological Association, Vancouver, Canada, May, 2007. [3] (Co-author) "Changes in condom-use behavior as a function of message frame." Presented at the Annual "HIV Research: The Next Generation" conference held at UCLA and hosted by the Center for HIV Identification, Prevention, & Treatment Services (CHIPTS), Los Angeles, CA, 2007. [4] (First author) "Factor Structure of Casual Physical Acquaintance Attitudinal Scale." Poster presented at Annual Conference of the American Psychological Association, San Francisco, CA, August, 2007. [5] (Co-author) "Sexual Deception: Scale Construction and Validation." Poster presented at Annual Conference of the American Psychological Association, San Francisco, CA, August, 2007.

Brian P. Keane: [1] (Co-author) "Interpolation Processes in Object Perception: Reply to Anderson." Published in *Psychological Review*, vol. 14, pp. 488-508, April, 2007. [2] "On Representing Objects with a Language of Sentience." *Philosophical Psychology*, in press [3] (First author) "Classification images reveal spatiotemporal contour interpolation." *Vision Research*, in press.

Danielle Keenan-Miller: [1] (First author) "Adolescent psychosocial risk factors for severe intimate partner violence in young adulthood." Published in the *Journal of Consulting and Clinical Psychology*, vol. 75, pp. 456-463, July, 2007. [2] (First author) "Health outcomes associated with early adolescent depression." Published in the *Journal of Adolescent Health*, vol. 41, pp. 256-262, September, 2007.

Katharina Kircanski: [1] (First author) "Effects of Threat-Related Thought Suppression on Physiological and Memory Indices of Anxiety." Poster presented at the Association for Psychological Science 19th annual convention, Washington, DC, May, 2007. [2] (First author) "Thought Suppression Enhances Memory Bias in a Trait Anxious Sample." Poster presented at the Association for Behavioral and Cognitive Therapies 41st annual convention, Philadelphia, PA, November, 2007.

Justin A. Lavner: [1] (First author) "Couple therapy preferences: Gender matters (and interacts with sexual orientation)." Poster presented at the Society for Psychotherapy Research conference, Madison, WI, June, 2007. [2] (First author) "Developmental trajectories of newlyweds' marital satisfaction." Poster presented at International Association for Relationship Research New Scholars Workshop, Boston, MA, July, 2007.

WOMEN'S STUDIES

Azza Basarudin: [1] (Panelist) "Re(creating) A Community of the Faithful?: Negotiating Gender, Islam and Feminism in Malaysia." Presented at the Engaging Islam: Feminisms, Religiosities and Self-Determinations, Fall Institute, U Mass Boston, Boston, MA, September, 2007. [2] (Panelist) "Transnational Muslim *Ummah* (Community) and Feminist Networks." Presented at the Gender and Empire II workshop. Cynthia Nelson Institute for Gender Studies (IGWS), American University in Cairo (AUC), Cairo, Egypt, May, 2007.

Loran R. Marsan: [1] (Director) "Thinking From Women's Lives: Sandra Harding, Science & Standpoint." Film, UCLA's Women's Studies Program, September, 2007. [3] "Sharing/Cherishing Across Boundaries." Presented at the Women's Studies Collaborative Graduate Conference at Emory University, Atlanta, GA, April, 2007.

Jennifer L. Musto: (Co-author) "Neurodegenerative Disorders, Carework, and Identity: Caring For Individuals With Neurodegenerative Disorders." Presented at the 5th International Carework Conference: Is a Caring Society Possible? Mobilizing for Social Change, New York, NY, August, 2007.

WORLD ARTS AND CULTURES

John W. Days, Jr.: [1] "Music, Movement and Ritual Theater in Conflict Transformation." Presented at the *Encuentro Internacional de Danzateórica. Mirar adentro y afuera de la danza: aproximaciones contemporáneas a las manifestaciones dancísticas*, Mexico City, Mexico, September, 2007. [2] (Co-chair) "Class, Gender & Race in Bahia." *Axismundi: Brazil Studio* 2007, Salvador, Brazil, July, 2007.

Tiff Graham: (Panelist) "Small Town Festivals: The Individual Experience." Presented at the Southern Writers, Southern Writing 13th Annual Conference, Oxford, MS, July, 2007.

Sara Wolf: [1] "A Patriotic Movement (feature story about choreographer Bill T. Jones)." Published in *Los Angeles Times*, October, 2007. [2] "Renegade Gender: Theorizing the Female Body in Extreme Motion." Re-thinking Practice and Theory/*Repenser pratique et théorie*, Paris, France, June, 2007. [3] (Producer) "First Annual Golden Unitarid Pop Off!" Performance at Highways Performance Space, Santa Monica, CA, October, 2007.

Have you made a presentation, published an article or premiered your original work recently? Help your department advertise its achievements to the university and beyond.

Submit your accomplishments online at: www.gdnet.ucla.edu/asis/accomplishments

Hee Seung Lee: (First author) "Causal models guide analogical inference." Published in the *Proceedings of the Twenty-ninth Annual Conference of the Cognitive Science Society*, pp. 1205-1210, August, 2007.

Eric F. Mooshagian: (First author) "The role of task history in simple reaction time to lateralized light flashes." Published in *Neuropsychologia*, 2007.

Emilie A. Paczkowski: [1] (First author) "Parenting children with and without developmental delay: The role of self-mastery." Published in *Journal of Intellectual Disability Research*, vol. 51(6), pp. 435, June, 2007. [2] (First author) "Parenting children with and without developmental delays: The role of positive illusions." Presented at the American Psychological Association, San Francisco, CA, August, 2007.

Sarah J. Sullivan: (First author) "Time Perspective and Psychological Adjustment in Women Living with Metastatic Breast Cancer." Poster presented at the American Psychological Association Annual Convention, San Francisco, CA, August, 2007.

Emily E. Thom: [1] (First author) "From Baby Sign to Sounds: Does training in one symbolic modality increase the acceptance of other symbolic modalities?" Poster presented at SRCDC, Boston, MA, April, 2007. [2] (First author) "Five to Fast Map: Is the relation between vocabulary size and fast mapping domain specific?" Poster presented at SRCDC, Boston, MA, April, 2007. [3] (First author) "The domain specific relation between vocabulary size and generalization." Poster presented at the Annual Meeting of the Cognitive Science Society, Nashville, TN, August, 2007.

Haley A. Vlach: [1] (First author) "The role of the spacing effect in young children's object and category learning." Presented at the Symposium on Language and Cognitive Development, Los Angeles, CA, May, 2007. [2] (First author) "Contextual change and encoding specificity in young children's category learning." Presented at the Symposium on Language and Cognitive Development, Los Angeles, CA, May, 2007. [3] (First author) "The role of contextual change in young children's category learning." Poster presented at the Cognitive Development Society Biennial Conference, Santa Fe, NM, October, 2007. [4] (First author) "Timing influences young children's object and category learning." Poster presented at the Cognitive Development Society Biennial Conference, Santa Fe, NM, October, 2007.

Moriel Zelikowsky: (First author) "Naltrexone Attenuates Pavlovian Overshadowing." Poster presented at the Pavlovian Society Conference, Austin, TX, October, 2007.

SOCIAL WELFARE

Katrina A. Dornig: [1] (Co-author) "Predictors of workplace sexual health policy at sex work establishments in the Philippines." Published in *AIDS Care*, vol. 19(8), pp. 1020-1025, September, 2007. [2] (First author) "You gotta start thinking like a parent': Hopes, Dreams, and Concerns of Ethnic Minority Adolescent Parents." *Families in Society*, in press.

Kathryn G. Kietzman: (First author) "Former Family Caregivers and Future Homecare Work." Presented at the Academy Health Annual Research Meeting, Orlando, FL, June, 2007.

SOCIOLOGY

Nurullah Ardic: [1] "Nation-states in the Global Village: The Case of Turkey." Presented at the 5th EuPRA Conference on "Challenges of Peace and Democracy in Europe," Sakarya, Turkey, August, 2007. [2] "Transfer of a 'Case-Sensitive' Concept: Secularization in the Turkish Context." Presented at the 10th Annual International Conference on Conceptual History, Istanbul, Turkey, September, 2007. [3] "How Secular was Turkey's Secularization? Ziya Gökalp and Islamic Fiqh." Presented at the MECA 2007 (Middle East & Central Asia Politics, Economics, and Society Conference) organized by the University of Utah, Salt Lake City, UT, September, 2007.

Faustina M. DuCros: "A Really Difficult Juggle: Latino Students' Negotiation of Community College and Work." Presented at the American Sociological Association Annual Meeting, New York, NY, August, 2007.

Chinyere K. Osuji: [1] "Core Networks of First-Generation Latino Immigrants." Presented at the American Sociological Association Annual Conference, New York City, NY, August, 2007. [2] (Director) "Vistas do Brasil/Views of Brazil" An exhibit of photos I took while doing research in Brazil in 2006. Exhibit of Powell Library, Los Angeles, CA, 2007.

SPANISH & PORTUGUESE

Allison B. Ramay: (Panelist) "Enfrentando la historia en la poesia de mujeres mapuche." Published in *LASA*, September, 2007.

THEATER

Annette F. Lee: "29/12: A Play in Two Acts." Upper Reaches Theater Company, Long Beach, CA, October, 2007.

URBAN PLANNING

Brandi Odum: [1] (Editor) "Inclusionary Housing Database." Exhibit of California Coalition for Rural Housing, Sacramento, CA, May, 2007. [2] (Editor) "Distinguished Student Award (Inclusionary Housing Database)." Central California Section, American Planning Association, Sacramento, CA, September, 2007.

Victor S. Pineda: [1] "Global Rights of People with Disabilities." Presented at the UNICEF and Save the Children conference, Sanaa, Yemen, October, 2007. [2] (First author) "Convention on the Rights of People with Disabilities." UNICEF, New York, NY, January, 2008. [3] "Cultural and Critical History of People with Disabilities in US Public Policy and Planning." ACSP National Conference, Milwaukee, MN, October, 2007.

New Lecture Series Explores Gender and Ethnicity in Scientific Research

PUERTO RICAN CHILDREN are more likely to have asthma and to sicken or die as a result than other children, and yet albuterol, the most commonly prescribed bronchodilator, doesn't work as well for them as it does for some others. Who

knew? No one, until Esteban González Burchard, MD and MPH, who grew up in San Francisco's heavily Latino Mission District, conceived the idea for the Genetics of Asthma in Latino Americans study (GALA).

This example provides evidence that diversity is more than a matter of equity; it's also an issue of excellence, bringing fresh insights and important new perspectives to science.

Dennis Montoya, a graduate student in microbiology, immunology, and molecular genetics, has initiated a lecture series, "Scientific Excellence Through Diversity," to bring to campus prominent scientists whose gender and ethnicity played a role in their research. Dr. Mina Bissell, PhD, a cell biologist at the Lawrence Berkeley National Laboratory, opened the series in October.

Dr. Burchard will be at UCLA on **January 31** to discuss his work at UC San Francisco. On **February 13**, Dr. Olivera Finn, PhD, chair of the University of Pittsburgh's Immunology Department, will discuss her research on tumor antigen discovery and cancer vaccines.

Mark those dates—**January 31 and February 13**—and check the STEM PLEDGE website, www.studentgroups.ucla.edu/pledge/Diversity2007/, for information on time and place. [GQ](#)
