1999 Doctoral Commencement Hooding Ceremony

Dear Graduate Student,

The organization of knowledge is clearly a dynamic process that evolves and changes over time. These changes have important implications for education in general, and for graduate education in particular. Certainly many of the problems we face as a society—ranging across such issues as protection of the environment, the quality of interpersonal relations among diverse groups, international politics, the diagnosis and treatment of various diseases, understandings of art, literature and other products of our cultural heritage, and numerous other domains of human activity and concern—do not lend themselves readily to the methodologies, theories, and favored approaches of one particular academic discipline.

Philip Channing

One of the strengths of graduate education at UCLA is the broad range of opportunities provided for students to engage in interdisciplinary study, research and scholarship. This issue of the *Graduate Quarterly* features two of UCLA's Interdepartmental Programs (IDPs), Neuroscience and Comparative Literature, which are illustrative of these opportunities. At the foundation of the IDP concept is the belief that the university should have the flexibility to establish new degree programs that take full advantage of the academic strengths and interests of faculty and that prepare students to address emerging new issues in research and scholarship. From the first graduate IDP in Latin American Studies begun in 1956, to the Women's Studies Program, which will begin admitting students into masters and doctoral programs in Fall of 2000, nearly all new graduate degree programs initiated at UCLA during the past 35 years have been IDPs.

UCLA also offers concurrent and articulated graduate degree programs that promote interdisciplinary training by a coordinated course of study in which two degrees are earned simultaneously. Concurrent degree programs allow a specified amount of course credit to apply to both degrees. Examples of the 17 concurrent degree programs offered on campus include: American Indian Studies, MA and Law, JD; Asian American Studies, MA and Public Health, MPH; Latin American Studies, MA and Urban Planning, MA; Management, MBA and Computer Science, MS. Articulated degree programs permit no course credit overlap and require that students complete degree requirements separately for each degree. Examples of the seven articulated degree programs currently offered include: African Area Studies, MA and Public Health, MPH; Latin American Studies, MA and Information Studies, MLIS; and Medicine, MD and Graduate Division health science majors, PhD. Students may also petition to design their own articulated program, with departmental and Graduate Division approval.

Regardless of specific degree objectives, I hope that all of UCLA's graduate students will recognize the importance of interdisciplinary issues in their training and take full advantage of the opportunities available to cross departmental lines and engage in intellectual exchange with peers and faculty from a broad range of disciplines.

Sincerely,

Claudia Mitchell-Kernan

quote for thought

*"When I went to law school from doing graduate work in English Literature, I was startled to discover how similar the two enterprises were, and similar in ways that seemed to be generally unremarked. I had expected to be at an enormous disadvantage compared with people who had studied political science or economics, but I discovered that I was not, for the habits of close reading and textual analysis that I had developed as a reader of literature were in fact very close to those required by legal training. This circumstance, I think, led me to think about the law as a kind of literature and my first book *The Legal Imagination*, was aimed at working that idea out."*

1999 Distinguished TAs Honored

Five graduate students received the prestigious Distinguished Teaching Assistant Award for 1999. They were honored at the annual “Andrea L. Rich Night to Honor Teaching” dinner on May 19, along with five distinguished UCLA professors and three lecturers.

At the ceremony held in the Royce Hall West Lobby, Claudia Mitchell-Kernan, Vice Chancellor of Academic Affairs and Dean of the Graduate Division, presented each graduate student with a \$2,500 prize. In addition, award recipients who had advanced to candidacy received a Dissertation Year Fellowship from the Graduate Division for the 1999-2000 academic year. The fellowship provides full fees, a \$12,500 stipend, and \$500 in research support.

The Distinguished Teaching Assistant Awards were established to recognize the important role of apprentice teachers at UCLA and to honor individual graduate students for their excellence and achievements in teaching.

The five graduate students—Timothy Clary, Vanessa Herold, John Hetts, Rhoda Janzen, and David Klein—were nominated for the award by their departments and selected by the Academic Senate Committee on Teaching. The committee is composed of former distinguished teaching award recipients, current students, and alumni. Award recipients are selected on the basis of diversity of classes taught, impact on students, impact on undergraduate and graduate education, and involvement in community-linked projects.

Timothy Clary, *Geography*

The Geography Department chair wrote in his nominating letter for Tim Clary, “Teaching is not just a job, but a career of service to others. Tim’s teaching philosophy is guided by the belief that student participation is crucial to student learning.” His students describe a classroom marked by debate, respect, and dynamic engagement from all participants. As one student put it, it is an environment “with no absolutes, in which curious students may actively seek out answers to their own questions.” Tim’s students learn quickly that they will be treated, respected and taught as individuals. The students find his passion “contagious.” Besides the usual assignments for TAs, Timothy has served as the department of Geography’s TA Consultant; he has taught in the prestigious Collegium of University Teaching Fellows Program; and he was one of the first TAs to teach the new course on incorporating technology into Classroom Teaching. He also serves as a reading tutor to a disadvantaged third grade student.

Vanessa Herold, *French*

The French Department describes Vanessa Herold as a naturally warm, generous, and communicative person who has passionately embraced teaching as a calling. Her “absolute dedication” to her students regularly converts reluctant students of French into enthusiastic learners. Her skills give her, according to one student, an “uncanny ability to anticipate” difficulties that students might

Continued on page 4

have, and students continually rate her as one of the best teachers they have ever had. They praise her organization, her patience, and her availability to them. Her teaching philosophy extends beyond her role in the classroom. As part of her mission to make the study of French relevant and effective, she acts as a resource about cultural events in Los Angeles and helps students in planning trips to France. Vanessa has made many contributions to the French Department. As the TA Consultant, she implemented a mentorship program and wrote a detailed workbook for new TAs, including advice about lesson planning, self-confidence building, and grading. She contributes to the departmental web site, and she has developed many media resources, including an indexed collection of popular music.

John Hetts, *Psychology*

One of the things that distinguishes John Hetts as a teacher is his dedication to improving his teaching practice. His department describes him as a person “who puts a great deal of time and enthusiasm into teaching, and takes a reflective and analytical approach toward the results. His continual search for improvement in his teaching skills has lead him to develop concrete and practical approaches to help students master difficult and unfamiliar concepts. By encouraging and challenging his students, John helps them to achieve what they did not think possible.” They consistently identify him as a tough grader, but also as a great communicator and a devoted, insightful and inspirational teacher. He works hard to build both their knowledge of psychology and their confidence in their intellectual abilities. John’s commitment to teaching extends far beyond the classroom. He mentors other teachers, serves on committees dedicated to undergraduate education, and advises students in their applications to graduate school. Students comment on his “openness and availability outside of class. John has a self-conscious, caring, enthusiastic and challenging teaching practice.”

Rhoda Janzen, *English*

Rhoda Janzen’s teaching experience is varied. She has taught in classrooms in Fresno and in Lithuania; she taught in the playgrounds of Central California and in coffee shops around Los Angeles. She has taught English as a second language to migrant workers, creative writing to elementary school students and poetry to senior citi-

zens. At UCLA, she has taught a variety of courses, but has been especially successful and committed to the English Department’s most difficult assignment: English 3, the required course in composition. In all of these situations, Rhoda has been a caring and demanding teacher whose imaginative and rigorous style has inspired countless students to take risks in expressing themselves. By setting a high standard for the ideas and the form of expression of her students, Rhoda conveys to them that their ideas are valuable. She has the ability to foster great work in her students. Rhoda served last year as the English Department Teaching Assistant Consultant. One of the TAs from that course summed up the kind of standard Rhoda holds herself to and encourages in other teachers. “She taught them to ask: ‘Am I being noble in my teaching style? Is my class diplomatic, genuine, accessible and blisteringly intelligent?’ Rhoda’s teaching has managed to consistently reach this high level that she sets for herself.”

David Klein, *Chemistry*

Even a casual observer in the Chemistry Department would notice David Klein’s popularity with his students and his dedication to teaching. Students crowd the hall during his office hours; they follow him around campus for marathon review sessions; and they show up for extra classes, even when he is not their instructor. His students comment on his sense of humor and creative use of everyday materials to explain difficult concepts. Mostly, they revere David for his effectiveness as a chemistry teacher. If you were to pass his classroom, you might find David standing on a chair or you might hear the whole class laughing, but should you quiz his students afterward, you would find that they had mastered some difficult concept. As one student says, “The reason for David’s immense popularity with the students is that we believed that we could learn from him.” David’s passion for teaching has lead him to design a unique PhD program with a focus on education; he has already developed several tools; and many of his colleagues report that their own teaching has been improved as a result of their contact with his ideas.

Interdisciplinary Programs Build Academic Bridges

Neuroscience

Neuroscience is arguably the biggest single discipline at UCLA, but no single department owns its intellectual turf. As many as 200 faculty scientists in 14 or more departments are studying a remarkable range of subjects involving the brain and nervous system: which genes trigger the “pioneer neurons” that create the cortex; what happens in the brain when people read or speak; how are Alzheimer’s Disease and other dementias caused, and how might they be cured; what kinds of cellular changes are required for learning and memory; what makes us breathe.

“More neuroscience research is performed at UCLA than at virtually any other single campus in the world,” says Dr. Arthur P. Arnold, whose own research looks at genetic and hormonal factors that lead to sex differences in the ways brains develop. “Students benefit greatly from this exceptional milieu.”

Bigger than most departments, and with a new home in the \$45 million Gonda (Goldschmeid) Neuroscience and Genetics Research Center, Neuroscience was organized in 1968 as an Interdepartmental Program (IDP) and has thrived in that structure, particularly over the last decade. It connects departments in the UCLA School of Medicine and

The tidal wave of new information being generated at the end of this century no longer fits neatly into the bags our academic ancestors stitched over the last several hundred years: arts and sciences, languages and literature, history and social sciences. In fact, these bags are metaphorically ripping at the seams, and some of the most interesting research is being done among the “spillage” between disciplines.

At UCLA, Interdepartmental Programs (IDPs) were developed as a structure for transmitting these new kinds of interdisciplinary knowledge to students. For nearly 50 years, faculty attached to different departments have collaborated to develop curricula and offer degrees in these blossoming fields of study. Today, 18 such programs are available to graduate students. (See the box on page 4 for details.)

While these programs vary greatly, not just in content but in size and administrative strategies, all of them must meet strict criteria that govern degree-granting programs. Another common thread is that “somewhere, there is a core of faculty who really care about the interdisciplinary aspects of a problem they’re looking at,” says Kathleen Komar, Associate Dean in the Graduate Division.

Among its benefits, interdisciplinary work builds bridges linking academic areas that have become increasingly specialized, fosters new fields of study at the intersection of traditional disciplines, enables universities to respond more effectively to complex social problems, and promotes intellectual flexibility that prepares students to work and live in a diverse society.

“Lots of problem-solving nowadays requires crossing disciplinary boundaries. IDPs are the perfect place to do that,” Professor Komar says. “IDPs are an important kind of structure because there has to be a place that allows research and teaching from multiple perspectives. That’s pretty much what an IDP does.”

This issue of the Graduate Quarterly examines Comparative Literature and Neuroscience as a way of discussing the advantages and challenges of interdisciplinary study within both the humanities/social science and science perspectives. It also profiles four students, two in each of these programs, who have benefitted from the opportunity to work across disciplines.

continued on page 6

Comparative Literature

This fall, Comparative Literature achieved a goal it has pursued since shortly after it was established at UCLA 31 years ago: It begins the fall quarter as an academic department in the Division of the Humanities.

“We consider this a big step,” Professor Emily Apter, the new department’s chair, says. “But, it should probably have happened sooner because we have such top-flight students,” among them the 50 or more graduate students who are currently pursuing degrees in Comparative Literature.

In most respects, the consequences will be subtle. Leaving behind its status as an Interdepartmental Program (IDP) will not change Comparative Literature’s interdisciplinary focus, Apter says. In fact, because its own FTEs can now be used to hire faculty and develop new areas of interest, she says, being a department “enhances an interdisciplinary curriculum that was already in place.”

An important advantage is an expected rise in the national stature of UCLA’s Comparative Literature program, and this may have

long-term career consequences for graduate students. But UCLA Comparative Literature PhDs have already been offered jobs at schools such as Cornell, Georgetown, Stanford, Princeton, University of Virginia, Wellesley, University of

continued on page 7

Neuroscience, *Continued*

Arthur Arnold, Chair

the Life Science division of the College of Letters and Science, and recently has developed a partnership with the School of Engineering and Applied Science so that neuroengineering could be added to the curriculum.

As the degree-granting arm of the Brain Research Institute, one of the first research institutes in the world devoted to brain function, the Neuroscience IDP is one of the oldest PhD-granting

programs in the field. Because the neuroscientists were already collaborating on research, “coming together for a combined curriculum was relatively easy,” says Dr. Arnold, who is chair of the program.

Graduate students in neuroscience spend their first year doing course work and completing at least two laboratory rotations, getting a closer look at research that interests them. At the end of the year, they choose a mentor. “In biomedical research, the most important decision of your graduate career is who you work with,” Dr. Arnold says. “You learn how to be a scientist predominately in the laboratory with that person.” Because Neuroscience is an IDP, with links to several departments, students have an extraordinary selection of scientist mentors.

Access to these mentors helps UCLA attract the best and brightest students. In 1999, both winners of the Alumni Association’s Outstanding Graduate Student awards were from the Neuroscience IDP. Graduates go on to careers at research universities, private institutions, biotechnology companies and government agencies, such as the National Institutes of Health and the National Science Foundation. Many

students are also candidates for the MD degree through the Medical Scientist Training Program. These students likely will become practicing research physicians.

Being an IDP also offers administrative economies. “It’s a lot cheaper to get an expert in an adjacent department to teach a course than to go out and hire your own,” Dr. Arnold explains. At UCLA, many Neuroscience classes are also part of the

curriculum in their faculty’s home department. Collaboration of the faculty “conserves a great deal on the effort needed to mount an excellent program.” Along with about 50 core faculty who contribute to teaching and administration, Dr. Arnold

works hard to overcome any problems linked to the IDP structure.

Because Neuroscience has no FTEs, it must rely on departments to allot faculty time to the program. “The departments have generally been quite wonderful in this support,” Dr. Arnold says. “Faculty members really pitch in. There is a great deal of goodwill toward this program because many see it as a strong point in the community.”

Loss of coherence is another concern. While the new Gonda (Goldschmeid) building provides a home to the Brain Research Institute and central administrative services for Neuroscience graduate students, the labs where they work are distributed among several buildings clustered at the south end of the campus. “Since the faculty is spread across departments, we try to use a bit more glue than we would need if all the students were working in the same building,” Dr. Arnold says. The Neuroscience IDP invests considerable time and effort in building a sense of community.

“More neuroscience research is performed at UCLA than at virtually any other single campus in the world.”

**—Arthur P. Arnold,
Neuroscience Chair**

A principal focus is “taking excellent care of our students. We pride ourselves on a history of doing that,” Dr. Arnold says. “We try to know each student individually and know what their needs are. To the extent possible, we make it a very personal program.”

One strategy in this effort is to let students know their comments and feedback are welcome. Suggestions made by students “have led to very important adjustments to the curriculum,” Dr. Arnold says. “We think we have some ideas about what’s good for students, but they have ideas, too, and often, they’re right on.”

Dr. Arnold also makes it his business to see that new faculty are introduced to the culture in neuroscience, including how to work with graduate students and help them develop their skills. Besides the first-year course work, occasions to come together are found in a weekly neuroscience seminar series, journal clubs, and annual student/faculty retreats at Arrowhead. One effect of the resulting “group esprit” is “important interactions between the students,” a heterogeneous group with much to teach each other, Dr. Arnold says.

As he looks to the future of neuroscience, Dr. Arnold sees “the most exciting work will be at the interface of traditional disciplines,” for example, using new imaging technology to understand molecular phenomena, or molecular technology to solve systems problems. In this environment, the IDP will remain an ideal structure for neuroscience education, he believes: “I’m strongly convinced that we can achieve more together than we can separately.”

Comparative Literature, *Continued*

Toronto, University of Mexico, and American University in Cairo. Others have been successful in journalism, founding publications such as *Suitcase* and *Emergences*. Comparative Literature students have also served as editors of *UFAHAMU: Journal of the African Activist Association*, an internationally respected interdisciplinary journal of African Studies.

It might seem that attracting better students would be the obvious result of the shift to departmental status, but both Apter and Professor Arnold Band, the IDP's founding chair, say this may be an area where the standard is so high that improvement is difficult. Comparative Literature students are an "enormous resource of talent and interest and good will," Band says. Moreover, the program has been able to admit as few as 20-25% of its applicants because a large percentage of them accept the offer of admission. One of the things that draws them is Los Angeles, says Band: "With all the negative stew about the city, it's a fascinating place."

Another key factor is the quality of teaching: four of the 10 core faculty members have been honored for distinguished

"Leaving behind its status as an Interdepartmental Program (IDP) will not change Comparative Literature's interdisciplinary focus."

**—Emily Apter,
Comparative Literature Chair**

About 1,200 undergraduates a year take "Great Books" courses offered by the new department and about 50 undergraduates now comprise the major.

The biggest impact of departmental status may be among the 10 core faculty, more than half of whom have been involved in Comparative Literature for a decade or more: Finally, their home is where their heart is. Although most retain 50-50 appointments in other humanities departments, their work in Comparative Literature is now on an equal footing, not time "stolen" from the place where issues of tenure and promotion are decided.

And for Band, who was among the three founding faculty members of Comparative Literature and is now an emeritus professor on recall, an old dream is now fulfilled. He began seeking departmental status before the IDP was a decade old because lacking it "made running things two to three times more difficult," he says. Being a department has "already made a huge difference in prestige, in getting things done, in working with the deans," he says.

Although in other universities Comparative Literature started life as a department, that status was probably not pos-

Emily Apter, Chair

sible at UCLA in 1968, when Comparative Literature was first organized as an IDP. Band recalls that the campus was much smaller and both the university and the city of Los Angeles were more provincial. "The introduction of Comparative Literature was a step in expanding the horizons of the university, a major step," he says.

The field of Comparative Literature was born among

European academics who came to the United States after World War II. Their concern was to de-emphasize national literary traditions, or to reemphasize them in the broader framework of critical paradigms transcending nationalist focus. At UCLA it quickly took on a more global configuration.

With Band, a scholar in Hebrew literature, as chair for its first 10 years, and Professor Ross Shideler, an expert in Scandinavian Literatures, Comparative Literature was more open to both faculty and students whose interests lay beyond the standard Eurocentric concept. When programs at other universities "began discovering the rest of the world," Band says, "we'd been there for 30 years already. It wasn't something new."

While Comparative Literature doesn't ignore "a certain kind of critical training that comes out of a more old-fashioned model of literary study," Apter says, it continues to seek "original new areas of research and flexibility of methodology."

Some of those new areas are suggested by the titles of recent classes: Latin American Literature in Comparative Contexts, Literature and Visual Arts, Chinese Immigrant Literature and Film, and Translation and the Global Market. A major emphasis is translation

studies. Michael Heim, one of the foremost translators in the world, teaches practical courses to students who hope to use such skills as a stepping stone to academic or journalistic careers. Apter, who is editing a book series for Princeton University Press called *Translation/Transnation*, is

"Being a department enhances an interdisciplinary curriculum that was already in place."

**—Emily Apter,
Comparative Literature Chair**

"getting a good sense of who is doing what at some of the better places. I see a close fit between new developments in transnational theory and the critical ideas that we are experimenting with pedagogically in our department."

With some Comparative Literature students seeking journalism careers, Apter is also eager to help "forge more vital links, if not with the mainstream media, then at least with organizations that are both political and cultural. In this way, we can add to the intellectual life of the country."

David DiGregorio

Neuroscience

David DiGregorio is conducting his PhD research in neuroscience in a laboratory that does not explicitly study neurons. His adviser and mentor, Dr. Julio Vergara, is a biophysicist whose primary research is in muscle physiology. What the two had in common was calcium.

David had become interested in calcium during a post-college year working at Genentech, the biotechnology firm in South San Francisco. There, he had helped measure calcium inside lymphocyte cells. He learned that calcium is so essential to the body's functions that the body will actually deconstruct the skeleton to get what it needs. "They say taking calcium is for your bones, but in reality, it's necessary for many other cellular process in your body," he says.

Dr. Vergara, in the course of studying changes in the amount of calcium inside muscle cells, had developed a new way to do the measuring that was fast enough to suit the millisecond time scale of the synaptic transmitters that carry messages between cells. He suggested that David might apply those measuring techniques to communications between nerve cells and muscle cells. The resulting work was the first in the world to measure calcium changes so quickly and at the level of the single nerve cell.

Facilitating this combination of interests and resources was the fact the David's chosen field, neuroscience, is an Interdepartmental Program (IDP) at UCLA, a degree-granting structure that makes more than 150 faculty across campus available as mentors for graduate research. Like other graduate students, David began with a year of course work and exposure to a number of labs in rotation. During that process, he met Dr. Francisco Bezanilla, another biophysicist, who introduced him to Dr. Vergara, a fellow Chilean.

Besides their interest in calcium, Dr. Vergara and David also shared a preference for using the methods of physics and engineering to examine questions that involve biology. During his undergraduate work at Stanford University, David had proceeded from mechanical engineering to chemical engineering to biology. By his senior year, he knew that he wanted to do biophysics.

In his dissertation research, David worked with frog nerve and muscle cells isolated in a laboratory dish. Using a glass pipette, he was able to introduce into the cell molecules that give off light when they bind to calcium, allowing him to measure its presence during different cell activities. The calcium gives a signal to releases neurotransmitters, which initiate an electrical signal to a muscle cell or another nerve cell.

David's measurement technique attracted the attention of Dr. Angus Silver, who does synaptic physiology at the University College of London. As a result, David will work there as a postdoctoral fellow, applying his knowledge to the study of calcium in the brain's cerebellum, the part that is responsible for

integrating movement. "It's going to be a nice stepping stone," says David, who is considering that this aspect of brain research might be built into a career.

The first stepping stone in David's career path was one of his teachers at Silver Creek High School in San Jose. Mr. Okuda's advanced placement biology class was "the best course I took in high school," David says. Mr. Okuda was "inspiring yet very accurate and knowledgeable in his approach to teaching biology, and for whatever reason, I just latched onto it."

It seemed that people were always assuming David would become a medical doctor. In fact, he came to UCLA in the Medical Scientist Training Program that would have resulted in an MD as well as a PhD. However, he'd been drawn to UCLA by the excellence of the neuroscience program, and eventually, he decided to focus on the science alone. Still, he has completed two years of classroom work toward an MD, and thus, he hopes to be "a more medicine-sensitive scientist." Eventually, he hopes to find a position within the research/teaching faculty at a medical school.

His outlook should be bright. This year, David was one of two students both from neuroscience who were honored by the UCLA Alumni Association as Outstanding Graduate Students. The awards were presented at a black-tie gala, David says: "It was a lot of fuss for a scientist. I'm not used to that kind of attention."

Alyssa Meejong O'Farrell

Neuroscience

Thanks to dissertation research by Alyssa Meejong O'Farrell, neurosurgeons may someday be able to cut away sections of the brain, with total confidence that these areas are not involved in language or other essential human functions. In fact, Alyssa herself may be one of those neurosurgeons.

As the PhD part of the Medical Scientist Training Program, Alyssa is studying blood flow in animal brains suffering seizure or migraine headaches. Researchers have already established that if a normal person is doing a language task, "there's more blood flow to the language area of the brain . . . you can see the language area of the brain light up," she explains.

This knowledge is already being used in surgical procedures. Brain maps made with Magnetic Resonance Imaging (MRI) help surgeons avoid important functional areas of the brain. In the most advanced studies, patients actually do simple language tasks during the operation itself, and the measurements of blood flow are taken after the brain resettles following skull removal. Alyssa has participated in this type of operation as part of her work in the Brain Mapping Division of the Department of Neurology.

However, an important piece of information is still missing. Researchers “don’t really understand why blood flow increases to the brain when areas are active,” Alyssa says. “They have some ideas, but it hasn’t been studied well in pathological states,” for example, among patients with seizures, tumors, or neurological trauma. It’s important “to understand if the blood flow response is still normal after trauma,” Alyssa explains, otherwise language areas might not experience increased blood flow during imaging, and thus remain unidentified for surgeons. It’s this gap in the research that Alyssa hopes to help fill with her work creating images of rodent brains during and after migraine or seizure.

Alyssa started her Medical Scientist Training program with two years in medical school at the University of Pennsylvania. Moving to UCLA with her boyfriend, she took up the PhD part of the training. Being at UCLA has had an important bonus: Alyssa has been able to study Korean, the native language of her mother, who came to the United States to attend graduate school, married, and stayed. “It’s nice having a so much available here,” Alyssa says, explaining that she’s also taken courses in French and Spanish “just for fun.”

When Alyssa finishes her PhD in about a year she’ll go back to medical school, probably in neurosurgery. The program, funded by the National Institutes of Health at a number of medical schools, is aimed at creating scientists with the clinical expertise of doctors.

As a physics major at Harvard University, Alyssa saw graduates turning to finance or other unrelated fields when they couldn’t find work in physics. She began to look around for other options, and the pleasure she’d taken in a summer job at a physiology lab steered her in the direction of the Medical Scientist program.

Neuroscience was attractive because it includes logical and mathematical components, exposing her to “a lot of problems that may not explain the universe, but the results are useful.” Computer modeling and ever-improving techniques for imaging the brain’s activity open interesting doors. For example, Alyssa says, “we are able to figure out how simple cell behavior can lead to more complicated things like a breathing pattern or a heart beat or even perceptual abilities like detecting the edges of objects and recognizing shapes.”

Several years of study are ahead for her, but eventually, Alyssa hopes to teach at a medical school or research university. As a role model, she has her mentor, Arthur Toga, co-founder of the International Consortium for Brain Mapping, which has just received a second \$5.5 million grant from the NIH. The consortium’s goal is to develop a comprehensive atlas of the organization and function of the brain.

“Choosing a mentor was very important to me.” Alyssa says. She feels that Dr. Toga “is in some ways as much a businessman as he is a scientist” and that pragmatism about outcomes makes it “easy to relate to him.” Alyssa wanted “to be sure that I wrote papers while I was here, that I gave talks,” she says. “He expects you to write a grant or be involved in writing a grant while you’re here.”

In Alyssa’s case, Dr. Toga’s expectations have been met. She can do everything, he says, from researching the literature to writing the paper. “She just pounds away at a problem,” Dr. Toga says. “What she’s doing is very important.”

Babak Nahid

Comparative Literature

A graduate student at UCLA months away from completing his dissertation, Babak Nahid already has a full-time job as a communications officer for the world’s largest independent medical relief organization, Doctors Without Borders, also known as Medecins Sans Frontieres*. In addition, as a new issue slowly evolves, he remains the editor of the literary and cultural journal, *Suitcase*. And by March 2000, he must complete his dissertation in comparative literature, an examination of how and why the collection of stories known as *A Thousand and One Nights* impacted the political and philosophical

Photo by Yair Reiner

thought of the Enlightenment period.

It might seem that Babak is going off in three different directions at once, but the links become apparent as he describes his activities.

Perhaps the strongest connector is *Suitcase*. Conversations started by Babak among fellow graduate students in comparative literature in 1994 and 1995 led to the founding of the multidisciplinary, multicultural journal, whose unifying theme is an internationalism based on transcultural community-building and human rights. Contributors from more than 40 countries have appeared in the pages of *Suitcase*, writers and artists from places that include Tehran, Tel Aviv, Belgrade, and Sarajevo.

Because of this theme, *Suitcase* invited humanitarian organizations to become involved at *Suitcase* readings, conferences, and festive public events surrounding its publication. One such organization was Doctors Without Borders. After the event, key members of the organization stayed in touch with Babak. As *Suitcase*’s editor and as the co-founder of a Los Angeles based relief agency in 1993, Babak offered occasional advice, and when he proposed a more formal relationship, Doctors Without Borders hired him to help educate the media and the public about the critical issues that define the global humanitarian arena.

Babak finds it “an amazing experience to go from academia into the gritty and sometimes difficult real world” where volunteer medical and non-medical personnel are being called to assist endangered populations. “Because they are ethically bound to report what they see and because they are often the first ones to arrive at the scene of an emergency” the volunteers also “bear witness to human rights violations,” Babak says. “I’ve crossed over into something I hope I’ll continue in because it’s a very rich and eye-opening world.”

But that doesn’t mean Babak, who describes himself as a “restless soul” who “needs to straddle worlds,” plans to leave academia behind. For one thing, he still has a dissertation to finish, and in a sense, that work may offer a model for the kind of career he’s hoping to build.

In his dissertation, Babak has been studying the role of the cosmopolitan scholar who, 300 years ago, gave the West a literary

*Editor’s Note: On October 15, 1999, Medecins Sans Frontieres was awarded the Nobel Peace Prize for pioneering humanitarian work on several continents.

masterpiece. Antoine Galland was a scholar attached to the court of the French king Louis XIV as the 17th century was giving way to the 18th century. Part of the diplomatic delegation to the Ottoman Empire, Galland's "day job" was to translate diplomatic documents and acquire rare coins and Greco-Roman relics for the growing royal library of the "Sun king." But as he moved through the towns and marketplaces of the Orient, he became "somewhat privately obsessed with the translation of stories he'd gathered there," Babak says.

A restless, nocturnal reader of both the profane Nights and the holy Quran, Galland prepared a translation of *A Thousand and One Nights* from the Arabic using a 14th-century version of the text and delivered it to Versailles in 1704. Thus, he introduced to the West a text that "played itself out in the culture of the Enlightenment as an export from the Orient and today almost enjoys the ubiquity of the Bible."

The framing story of the text particularly interests Babak. In that story, "the very masculine king" of a "brutal dictatorship" acting in revenge for illicit relationships among his harem and his slaves decides to wed every unmarried woman in his kingdom for one night only to execute each the next, post-nuptial, morning. Shahrzad, whom Babak describes as "a philosopher, a scientist, a multidisciplinary person," decides to talk her way out of this predicament. When her turn comes, she "doesn't use logic to try to stop gynocide, she tells stories," Babak says, turning "a mass serial killer into a stable and generous sovereign."

In his dissertation, Babak proposes that these tales had a great impact on thinkers such as Montesquieu, Voltaire, and Diderot who

often dressed their philosophical treatises in fictional narratives. *A Thousand and One Nights*, Babak believes, "gave a space to the libertarian, even democratic tendencies that were beginning to grow" during this time when, scholars suggest, "the seeds of the modern West were sown."

Multiple itineraries like those exemplified by Babak are becoming less anomalous in today's world. In other countries, there is a deep tradition of university-trained intellectuals becoming public figures and political leaders. "Travelling and translating across seemingly divergent trades and disciplines," suggests Professor Emily Apter, chair of Comparative Literature and one of Babak's mentors, "can engender fresh thinking and new knowledge. The idea of forming public intellectuals and not just academics or the two going together more is something we [in Comparative Literature] are not afraid to support at all," she says.

A native of Iran who came to Los Angeles because he got a free ticket on

People Express and applied only to UCLA for undergraduate and graduate studies, Babak is pleased with the outcome. Like Galland in the 18th century, he and his fellow "immigrants bring a lot of baggage with them," Babak says, "cultural, personal, and political." Whether speaking of the energy and skills supplied by the motley multicultural group who helped produce *Suitcase* or recalling the many faculty members who have advised and supported him, Babak is thankful. "I feel fortunate that I have come here and am enjoying the conditions that allow me to unpack in such a productive way."

Julie Townsend Comparative Literature

In some respects, Julie Townsend began working on her dissertation when she was 3 years old. "I was pigeon-toed and tripped over my own feet, so my mother put me into ballet class," Julie says. She studied ballet until she was 14, when damage to her knees prompted a move to modern dance.

Then, for several years, Julie pursued an academic career in French and English literature and became fluent in French. She was about three years into her graduate studies in comparative literature at UCLA when everything came together. "I started seeing all of these dancers in the literature of the late 19th century and early 20th century, which was the period that interested me," she says.

Gustave Flaubert, for example, projected the problems of French culture into central dance scenes in novels such as *Salammbô* and *Reboures*. Oscar Wilde wrote a play about Salome, using the dancer to explore erotic representation and aesthetic desire. Stéphane Mallarmé made the dancer embody an idea.

Comparative Literature dissertations usually cover three areas. Julie had French and English literature. The dance, in particular the works of Loie Fuller as represented in early French films, became her third area.

Fuller was the teacher of Isadora Duncan, who has been called the mother of modern dance. Unlike Duncan, who often danced in a simulation of nakedness, Fuller "wore these huge, billowy, white, sheetlike costumes, and she would move under them as light was projected onto the sheets," Julie says. "You saw the dance through the movement of her costume." Perhaps because Duncan's performances evoked more "comfortable metaphors of femininity," she became widely known, Julie surmises. Fuller, "who traveled around with 20 electricians, didn't fit into models of femininity as well," she says.

The interrelationship between modern dance and its representation in Modernist literature will be the subject of Julie's dissertation, now in progress under a UCLA dissertation year fellowship. She believes that Comparative Literature's history as an Interdepartmental Program—it became a department this year—may explain in part her mentors' open-mindedness to encourage her to combine film and dance with literature.

"Shahrzad, whom Babak describes as 'a philosopher, a scientist, a multidisciplinary humanist par excellence,' decides to talk her way out of this predicament. When her turn comes, she 'doesn't use logic to try to stop genocide, she tells stories.'"

"She [Julie] believes that Comparative Literature's history as an Interdepartmental Program—it became a department this year—may explain in part her mentors' open-mindedness to encourage her to combine film and dance with literature."

Congratulations to 1999-2000 Graduate Fellowship Recipients

Moving between history, literature, and other fields, Julie's work represents "an interesting direction in comparative literary studies," says Professor Emily Apter, chair of Comparative Literature and Julie's dissertation committee. "I've seen her work develop in ways that are very exciting."

Julie says she was inspired by Apter's work, using visual arts, performance studies, and psychoanalysis in her work on French, African, and German literatures. "I just loved her classes because they drew from so many sources," Julie says. "It was such a dynamic learning environment."

A co-mentor has been Joe Bristow, a specialist in Victorian British literature and theory in the English Department. While Professor Apter "sends me off spinning in some new research direction," Professor Bristow offers pragmatic and technical advice, from detailed suggestions about written work to thoughts on positioning herself for the job market. "It's an amazing combination," Julie says.

As she looks ahead to her own career in academia, Julie hopes to find a position—perhaps a joint appointment in two departments—that will allow her the same flexibility. "I don't want to have to give up the interdisciplinary side of my work," she says. "It's the way I think."

Julie did her undergraduate work at New York University and UC San Diego. Before she started graduate school, she spent several months in France doing a little bit of everything from cleaning classrooms to selling smoothies on the street to support herself while she developed fluency in French. She returned to France in the 1996 academic year, this time digging into theater and film archives to "get an idea of what dancers looked like" in the period that interested her.

Julie is aware that dancers in academia, perhaps because they sometimes aren't accorded as much status as other fields, are often wary of outsiders doing dance research. "They get nervous that you're going to colonize dance with your literary ideas," Julie says, "and forget the dance part." As a result, Julie makes an effort "to stay connected with the dancer in me as well as the scholar in me."

She has even considered whether dance might contribute to the form as well as the content of her dissertation. "Can I write it like a dance," Julie asks herself, "and what would it look like?"

This feature appears in each edition of the **Graduate Quarterly**. For inclusion in future issues, UCLA graduate students who have **recently** presented their work at conferences, written books, published articles in professional journals, or received extramural awards should send **complete** references to: *Patricia Jordan, Graduate Division, at pjordan@gdnet.ucla.edu*.

SUBMISSION DEADLINES:

Fall Quarter **September 20**
 Winter Quarter **December 20**
 Spring Quarter **March 20**

Recipients of intramural fellowships and selected extramural fellowship are listed in the "Award Recipients" section of this issue.

AFRICAN AREA STUDIES

Christa Lee Spieth: Master's thesis, June 1999, "Forms and Processes of Resistance to Development Interventions in Lesotho," was nominated for the 1999-2000 WAGS/UMI Distinguished Master's Thesis Award national competition.

ANDERSON SCHOOL

Jina Kang: "Knowledge of the Firm and the Learning Effects of Strong Ties on Project Success." American Sociology Association Meeting, Chicago, Aug. 6, 1999.

ANTHROPOLOGY

Selma E. Morley: "Boundary Maintenance and Pueblo Pottery Styles." Presented at the 64th Annual Meeting of the Society for American Archaeology, Chicago, IL, March 24-28, 1999.

Melissa Pashgian: [1] "In-vitro Fertilization: Naturalization of Motherhood in Northern Vietnam." Paper presented at the American Ethnological Society Meeting, Portland, Or., March 27, 1999. [2] "Conceiving the Happy Family: The Invisible Infertile and Population Planning in Hanoi, Vietnam." American Anthropology Association Annual Meeting, Philadelphia, Pa., December 4, 1998.

APPLIED LINGUISTICS

Ahmad Abu-Akel: [1] "Episodic Boundaries in Conversational Narratives." *Discourse Studies*, Vol. 2(1), in press, 1999. [2] "Impaired Theory of Mind in Schizophrenia." *Pragmatics and Cognition*, in press, 1999. [3] "Phoricity As a Measure of Clozaril's Efficacy In Treating Disorganized Schizophrenia." *Journal of Clinical Linguistics and Phonetics*, Vol. 13, in press, 1999. [4] "The study of cohesion in schizophrenia: Theory and Application." *Issues in Applied Linguistics*, Vol. 9(1), p 37-60, 1998. [5] (Co-authored) "Arabic diglossia and language policy in the Arab world: Conditions for learning the standard variety." *Alresaleh: An Interdisciplinary Journal*, Vol. 7, p 289-308, 1998. [6] "Childhood Schizophrenia: Responsiveness to questions during conversation." 46th Annual Meeting of the American Academy of Child & Adolescent Psychiatry, Chicago, Oct. 19-24, 1999. [7] (Co-authored) "Episodic boundaries in conversational narratives." International Conference on Pragmatics and Negotiation, Tel-Aviv and Jerusalem, Israel, June 13-16, 1999. [8] "Impaired Theory of Mind in Schizophrenia: Hyper vs. Lack Theory of Mind." The Mount Sinai Conference on Cognition in Schizophrenia (4th Biennial), Santa Fe, NM, April 16-17, 1999. [9] UCLA Graduate Division Merit Award-2000. [10] ISAP/USIA Fulbright Scholarship-1997-2000. [11] Conference Travel Award, 1999. IASP/USIA- Mount Sinai Conference on Schizophrenia and Cognition, Santa Fe, NM. [12] Conference Travel Award, 1999, UCLA Graduate Division-International Conference on Pragmatics and Negotiation, Israel.

Namhee Han: [1] "Sequential Use of Proper Names, Personal Nouns and Pronouns: Ways of Referring to the Author in Published Book Reviews." Presented at the 12th World Congress of Applied Linguistics AILA, in To-

kyo, Japan, Aug. 5, 1999. [2] (Co-authored) "Developing Equivalent Test Tasks in Reading Ability in Two Languages." Presented at 12th World Congress of Applied Linguistics AILA, in Tokyo, Aug. 5, 1999. [3] "Understanding Honorifics Used by Mom to Child" at the 1st UCLA Humanities Symposium-Sponsored by the GSA Humanities Council, May 7, 1999. [4] "Directives as a Co-Construction of Extended Discourse in Child-Mom Conversation" at the 5th Annual Conference on Language, Interaction and Culture (CLIC), UC Santa Barbara, April 30, 1999.

Leslie C. Moore: [1] Awarded the James S. Coleman Summer 1999 Pre-dissertation Fieldwork Fellowship for pilot research and language learning in Cameroon. [2] "Language Socialisation: the relationship between the acquisition of language and the acquisition of culture," *The View from Elsewhere* column, *The Clarion*, Magazine of the European Second Language Association Vol. 5(1).

Foong Ha Yap: [1] (Co-authored) *The Grammar, Meaning and Referential Functions of 'Else'.* *English Language and Linguistics*, in press. [2] "'Else' and 'Other': A Contextual Analysis of the Semantic Niches of Two Complementary Comparative Reference Markers." Paper presented at the 1999 International Cognitive Linguistics Conference, Stockholm, July 10-16, 1999. [3] (Co-authored) "From Verb to Preposition and Sometimes Far Beyond: A Crosslinguistic Perspective of the Grammaticalization of 'Give' Morphemes." Paper presented at the 1999 International Cognitive Linguistics Conference, Theme Session on "Prepositions, Postpositions, and Other Grams," Stockholm, July 10-16, 1999. [4] (Co-authored) "How Passives Emerge From Causatives: A Periphrastic Perspective From Some East and Southeast Asian Languages." Paper presented at the 1999 International Cognitive Linguistics Conference, Theme Session on "Cognitive Linguistics and Non-Indo-European Languages (Semantics and Morphosyntax)," Stockholm, July 10-16, 1999. [5] (Co-authored) "Grammaticalization of Verbs of Transfer in Serializing Constructions in West African and East and Southeast Asian Languages." Paper presented at the International Symposium on Grammaticalization, Potsdam, Germany, June 17-19, 1999.

APPLIED LINGUISTICS AND TESL

Lyle Bachman: [1] Keynote address, "Designing and Developing Useful Language Tests," at Global Citizenship: Languages and Literacies, July 6-9, 1999, Adelaide, Australia. [2] "Considerations in Measuring Learner Outcomes in Language Learning Programs," plenary panel presentation at the conference, "Global Citizenship: Languages and Literacies", July 6-9, 1999, Adelaide, Australia. [3] "Language Testing at the Turn of the Century: Assuring that What We Count Counts," lecture at University of Melbourne, July 12, 1999, Melbourne, Australia. [4] Workshop, "Designing Useful Language Tests," Macquarie University, Sydney, Australia, 1999. [5] Paper, "Language Assessment Reform in Hong Kong." Presented at National Language Testing Reform: Possibilities and Constraints, at the 21st Annual Language Testing Research Colloquium, Tsukuba, Japan, July 28-31, 1999.

Shoichi Gregory Kamei: "Did we take the same test? A Study of the Factor Structure of a Telephone Oral Interview Across Two Cohorts." Presented at the 1999 Southern California Association for Language Assessment Research Conference, Los Angeles, May 22, 1999.

David Olsner: [1] "Collaborative completions: An interactional resource for scaffolding in language learner discourse." Presented at AAAL National Conference, Stamford, Ct., March, 1999. [2] "Public speaking projects for the oral skills classroom." Presented at TESOL Annual Convention, New York City, March 1999. [3] "Look who's talking: Behind the scenes participation in the conduct of a broadcast news interview." at National Communications Association Annual Convention, New York City, November 1998. [4] "Something's happening: Temporal perspectives in broadcast news interview talk." Presented at National Communications Association Annual Convention, New York City, November 1998.

Leah Wingard: [1] "Teasing in the Late-Night Interview: Two Discursive Strategies," at International Communications Association annual meeting, May 1999. [2] Research Mentorship Award for Summer 1999.

ARCHITECTURE AND URBAN DESIGN

Anthony Denzer: [1] "Pioneer Romanticism: The Ballard Schoolhouse," *Material Culture*, No. 2, Summer 1999, (forthcoming). [2] Education Director, Society of Architectural Historians (Southern California Chapter), elected January 1999.

Dora Epstein: [1] "From Airstream to Mainstream: Marcel Breuer's Domesticated Trailer." Presented at Hypotheses 3, Princeton University, February 1999. [2] American Institute of Architects/American Architectural Foundation Fellowship for Advanced Study for 1999-2000. [3] Franklin Israel Memorial Fellowship for 1999-2000, awarded by UCLA Architecture and Urban Design Department.

Pablo La Roche: (Co-authored) "Thermal Evaluation of Buildings with Different Combinations of Mass Congress: Sustainable Applications for Tropical Island States." Paper presented at SATIS 99, sponsored by Universidad de Puerto Rico, USDOE, and Caribbean Solar Energy Society, San Juan, Puerto Rico, Aug. 25-27, 1999.

Sara Weinstein: AIA/AAF Scholarship for Professional Degree Candidates, 1999-2000 academic year.

ART HISTORY

Susanne Anderson: [1] "Heinrich Wöflin, Hans von Marées and the Principles of Art," *Pantheon*, November 1999. [2] "Desnoyers, Auguste-Gaspard-Louis," *Allgemeines Künstlerlexikon (AKL, SAUR, Leipzig, Germany)*.

John P. Bowles: "On Adrian Piper's 'Catalysis' Series: Destruction and the Self." *Critical Perspectives on Visual Culture: 1998-99 Independent Study Program Symposium at Whitney Museum of American Art*, New York, May 26, 1999.

ASIAN-AMERICAN STUDIES

Eiichiro Azuma: [1] Received the W. Turrentine Jackson Prize for the outstanding article written by a graduate student to appear in the *Pacific Historical Review*. [2] "Racial Struggle, Immigrant Nationalism, and Ethnic Identity: Japanese and Filipinos in the California Delta, 1930-1941," *Pacific Historical Review*, Vol. 67(2), May 1998, 163-199. [3] Awarded the George and Sakaye Aratani Fellowship in Japanese American Studies.

Susan Nakaoka: The first recipient of the Michael S. Dukakis Internship in Public Policy at the School of Public Policy and Social Research.

France Nguyen: [1] (Co-authored) "A Brief Overview of the US State Tobacco Control Legislation." Presented at For a Tobacco-Free World: Meeting of the Working Group of Regional Lawmakers on the Control of Tobacco Use, Valparaiso, Chile at the Chilean Congress, Aug. 26-28, 1999. [2] UC Institute on Global Conflict and Cooperation-1999 Graduate Student Summer Scholarship Summer 1999 at the Pan American Health Organization Washington, DC. [3] UCLA Latin American Studies Center 1999 Tinker Research Travel Grant, Summer 1999.

Amy Haruko Sueyoshi: Awarded the George and Sakaye Aratani Fellowship in Japanese American Studies.

Jennifer A. Yee: 21st Century Fellowship award.

ASTRONOMY

Aimee Norton: [1] (Co-authored) "Characteristics of Magnetohydrodynamic Oscillations Observed with the Michelson Doppler Imager." Published in *The Astrophysical Journal*, Vol. 518(2), June 20 1999, 123-126. [2] (Co-authored) "Michelson Doppler Imager and Advanced Stokes Polarimeter Joint Observations: Search for Magnetohydrodynamic Waves." Conference on Helioseismic Diagnostics of Solar Convection and Activity, Stanford University, July 12-15, 1999.

ATMOSPHERIC SCIENCES

Yu Gu: [1] "Interactions of radiation, microphysics, and turbulence in the evolution of cirrus clouds," *J. Atmos. Sci.* (in revision). [2] "Three-dimensional radiative transfer in inhomogeneous cirrus clouds." Presentation at 1999 Spring Meeting of AGU, Boston, Ma., June 1-4, 1999. [3] "Radiation effects in cirrus cloud formation and maintenance." Poster presented at Tenth Confer-

ence on Atmospheric Radiation, Madison, Wi., June 28-July 2, 1999. [4] "Radiative transfer in inhomogeneous cirrus clouds based on diffusion approximation." Poster presented at Tenth Conference on Atmospheric Radiation, Madison, Wi., June 28-July 2, 1999. [5] Dissertation Year Fellowship, 1999-2000, UCLA, AGU Outstanding Student paper Award, 1999 AGU Spring Meeting.

Seongjoon Koo: (Co-authored) "A Multiple Regimes Approach to Atmospheric Zonal-Flow Vacillation." Presented at 12th Conference on Atmospheric and Oceanic Fluid Dynamics, Columbia University, New York City, June 7-11, 1999.

Wen-wen Tung: [1] (Co-authored) "The Coupling Between Convection and Large-scale Motion Associated with MJO Observed During TOGA-COARE IOP." Preprints, 23rd Conference on Hurricanes and Tropical Meteorology, Vol. 2, American Meteorological Society, Boston, p 875-878. [2] Graduate Student Scholarship-10th Symposium on Global Change Studies. 79th Annual Meeting, American Meteorological Society, Jan. 10-15, 1999, Dallas, Texas.

BIOMATHEMATICS

Karin S. Dorman: (Co-authored) "Estimating Confidence in the Inference of HIV Recombination." Presented at the Joint Statistical Meetings, Baltimore, Aug. 9, 1999.

Marc Suchard: (Co-authored) "Bayesian Comparison of Continuous-Time Markov Chain Evolutionary Models." Presented at the Joint Statistical Meetings, Baltimore, Aug. 10, 1999.

BIOMEDICAL PHYSICS

Jennifer Daigle: [1] "Molecular and Cellular Responses of TNF Receptor Knockout Mice to Brain Irradiation." Presented at the 90th Annual Meeting of the American Association for Cancer Research, Philadelphia, Pa. April 10-14, 1999. [2] Received the AACR/Bristol-Myers Squibb Young Investigator Award, April 1999.

Anthony L. Daniell: (Co-authored) "A Real-Time, Low-Cost MR Image Reconstruction Device: Applications to Interventional MRI." Presented at International Society for Magnetic Resonance in Medicine: Seventh Scientific Meeting and Exhibition, Philadelphia, Pa., May 22-28, 1999.

Nathaniel Wyckoff: [1] (First author) "The Use of Contrast Enhancement, Texture and Three Dimensional Size and Shape Features for Classification of Solitary Pulmonary Nodules." Accepted for presentation at RSNA Annual Meeting, 1999. [2] (Co-authored) "The Effects of Co-Occurrence Matrix Based Texture Parameters on the Classification of Solitary Pulmonary Nodules Imaged on CT." Accepted for publication in *Computerized Medical Imaging and Graphics* (1999). [3] (Co-authored) "A Pattern Classification Approach to Characterizing Solitary Pulmonary Nodules Imaged on High Resolution CT: Preliminary Results." *Medical Physics* Vol. 26(6), p 880-888, 1999. [4] (Co-authored) "Classification of Solitary Pulmonary Nodules Imaged on High Resolution CT Based on Quantitative Image Features." *Radiology*, Vol. 209(P), p 162, 1998. [5] UCLA Dissertation Year Fellowship for 1999-2000. [6] Malcolm R. Stacey Memorial Scholarship for 1999-2000.

Kenneth Yue: [1] International Society for Magnetic Resonance in Medicine Educational Stipend Award, March, 1999. [2] Regents Conference Travel Stipend, February and July 1999. [3] "Frontal Lobe 1H MR Spectroscopy of Children with Bipolar Disorder." Presented at Scientific Sessions of the 7th International Society for Magnetic Resonance in Medicine Scientific Meeting and Exhibition, Philadelphia, Pa., May 22-28, 1999. [4] (Co-authored) "Localized 1H MR Spectroscopy of Human Globe." Presented at the Scientific Sessions of the 7th International Society for Magnetic Resonance in Medicine Scientific Meeting and Exhibition, Philadelphia, May 22-28, 1999. [5] (Co-authored) "Localized Two-Dimensional J-Related MR Spectroscopy of Human Brain and Prostate in vivo." Presented at the 40th Experimental Nuclear Magnetic Resonance Conference, Orlando, FL, Feb. 28-March 5, 1999. [6] (Co-authored) "1H MR Spectroscopy of Juvenile-Onset Bipolar Disorder." Presented at the 37th American College of Neuropsychopharmacology Annual Meeting, Las Croabas, Puerto Rico, Dec. 14-18, 1998. [7] (Co-authored) "Z-localized Two-dimensional MR Spectroscopy of Human Brain in vivo." Presented at the 84th Radiological Society of North America Annual Meeting, Chicago, IL, Nov. 29-Dec. 4, 1998.

BIOSTATISTICS

Ngayee Jacqueline Law: "Cure Models with Time Dependent Covariates." Joint Statistical Meeting, Baltimore, Md., Aug. 8-12, 1999.

CHEMISTRY AND BIOCHEMISTRY

Jianguo Cao: "Molecular Shuttles by the Protecting Group Approach." Presented at 218th American Chemical Society National Meeting, New Orleans, Aug. 22-26, 1999.

Thang Chiu: Department of Chemistry and Biochemistry Dissertation Year Fellowship, 1999-2000.

Arkadij Elizarov: (Co-authored) "Convergent Self-Assembly of Rotaxane-Like Dendrimers." Presented at 218th American Chemical Society National Meeting in New Orleans, Aug. 22-26, 1999.

Nora S. Green: (Co-authored) "Torsional and Steric Effects Control the Stereoselectivities of Alkylations of Pyrrolidinone Enolates." *Journal of the American Chemical Society*, 1999, issue 121, p 5334.

Michael M. Miller: (Co-authored) "Reactivity of Chromium Arene Complexes Towards Direct Addition of Radicals, Cations, and Anions." 218th National Meeting of the American Chemical Society, New Orleans, La., Aug. 24, 1999.

Andrew J. Norris: (Co-authored) "A concise and stereoselective synthesis of c-glycoside analogues of beta-L-fucopyranosyl phosphate and beta-L-rhamnopyranosyl phosphate." *Journal of Carbohydrate Chemistry*, September-October 1999.

Dorota Sawicka: [1] (First author) "The 16 kcal/mol Anomaly: Alteration of [2+2+2] Cycloaddition Rates by Through-Bond Interactions." *J. Am. Chem. Soc.*, 1999, Vol. 121, p 864. [2] (First author) "[2+2+2]-Cycloreversion Reactions: A Theoretical Elucidation of Thermodynamic and Through-Bond Coupling Effects on Activation Energies." *J. Chem. Soc., Perkin Trans 2*, in press. [3] (First author) "[2+2+2]-Cycloreversions: The Influence of Stereochemistry and Substituents on Rates." Presented at the 217th American Chemical Society National Meeting, Anaheim, Ca., March 1999.

Jing Tian: [1] Co-authored "Substituent Effect on Stereospecificity and Energy of Concert of the Retro-Diels-Alder Reaction of Isopropylidenebornene." *Journal of Physical Chemistry*, Vol. 102(39), p 7662-7667, Sep. 24, 1998. [2] Co-authored "Retro-cycloadditions and Sigmatropic Shifts: The C7H8 and C7H10 Potential Energy Surfaces." *Pure and Applied Chemistry*, October 1998, Vol. 70(10) p 1947-1952.

CLASSICS

Andrew Lear: Translation of *Palatine Anthology 12.134*, an epigram by Callimachus, will appear in the *Boston Book Review*, Vol.6(8) p 24, October 1999.

Jessamyn Lewis: "Eat and be Eaten: Invidia, Fames and Self-Consumption in the Metamorphoses." Paper to be presented at the annual meeting of the American Philological Association, Dallas, Texas, December 1999.

COMMUNITY HEALTH SCIENCES

Nancy Hikoyeda: Awarded UCLA Dissertation Year Fellowship for 1999-2000.

Jennifer Holt: Received Cancer Research Training Award through the National Cancer Institute's Health Communications Internship Program on July 1999.

Carolyn Mendez: (Co-authored) "Satisfaction with Pregnancy and Newborn Care: Development and Results of a Survey in a Health Maintenance Organization." *Journal of Managed Care*, November 1999.

Jane Steinberg: [1] (Co-authored) "Sexual Abuse and HIV Risk Factors Among Incarcerated Women." Presented at the College on Problems of Drug Dependence Annual Meeting, Acapulco, Mexico, June 14, 1999. [2] Pre-doctoral fellowship in substance abuse through the UCLA Drug Abuse Research Center, 1998-2000.

Beatriz M. Solis: [1] (Co-authored) "The Prevalence and Circumstances of Child Sexual Abuse: Changes Across a Decade." *Child Abuse and Neglect*, Vol. 23(1), p 45-60, 1999. [2] (Co-authored) "The Prevalence and Circumstances of Child Sexual Abuse Among Latina

Women." *Hispanic Journal of Behavioral Sciences*, Vol. 2(N3), p 351-365, 1999. [3] (Co-authored) Policy Brief: Barriers and Benefits of Managed Care for Low Income Women. Los Angeles, UCLA Center for Health Policy Research, 1999. [4] (Co-authored) Medicaid Managed Care and Low-income Women: Implications for Access and Satisfaction." *Women's Health Issues*, Vol. 8(6), p 339-49, 1998. [5] "HIV/AIDS in Los Angeles County: Issues for Women of Color." Presented at Women's Health Conference: Preparing for the New Millennium, Baldwin Park, Ca., March, 1999. [6] (Co-presented) "Women and Managed Care: Listening to Women." *Women's Health Collaborative*, Oakland, Ca., April, 1999. [7] "Low-Income Women Enrolled in Managed Care in California. Los Angeles County Women's Health Policy Summit, Los Angeles, May 1999.

Anita Hue-Hoa Yuan: Minority International Research Traineeship Award, June 1999.

COMPARATIVE LITERATURE

Pravina Cooper: [1] "Between Materialism and Messianism: The Films of Ritwik Ghatak." Published in the Summer 1999 issue of *Asian Cinema*. [2] Chairing a panel and presenting a paper on "Modernism in Indian Film and Literature" for the conference Language into Light: The Written Word Becomes Cinema at West Virginia University, Sept. 16-18, 1999.

Cheryl Goldstein: Awarded the Max and Rita Lawrence Fellowship for 1999 through the Center of Jewish Studies.

Joseph Jenkins: "Swann, Vainteuil et Marcel, et la memoire involontaire," *Sites of Memory: Tracing France's Cultural Self-Consciousness*, *Paroles Gelées*, Special Issue Vol. 16(2) p 91-99, 1998.

Kelly Y. Jeong: Departmental Graduate Summer Mentorship for Summer 1999.

Joanna Nizynska: Received Phi Beta Kappa Award and Hortense Fishbaugh/Margaret and Charles Pollack Fellowship for the academic year 1999-2000.

Mirana May Szeto: [1] (Co-authored) A Chinese novel in English, *Concept: A User's Manual*. Published by Anathematic Illimited, Hong Kong, January 1999. Sponsor: The Hong Kong Arts Development Council. [2] "Traversing the Myths of Western Academia and Local Ethnographies." Presented at The Affiliated Psychoanalytic Workshop Conference on Feminine Sexuality, Boston College, Boston, May 15-16, 1999. [3] Departmental Fellowship 1997-1998 and 1998-1999. [4] Departmental Teaching Assistantship 1999-2000.

Julie Townsend: [1] "Alchemic Visions and Technological Advances: Sexual Morphology in Loie Fuller's Dances." Published in *Dancing Desires: Choreographing Sexualities on and off the Stage*. Wesleyan Press, Hanover, NH, 1999 [2] "Women's Artistic Identity: Travel, Exile, and History in Germaine de Stael and Felicia Hemans." Presented at *British Women Writers Conference*, Albuquerque, NM, Sept. 24-26 1999.

COMPUTER SCIENCE

Giovanni Giuffrida: [1] (Co-authored) "Turning Datamining into a Management Science Tool: New Algorithms and Empirical Results." *Journal of Management Science*, accepted for publication, to appear later in 1999. [2] (Co-authored) "Intelligent Information Dissemination Services in Hybrid Satellite-Wireless networks." *Journal on Mobile Networking and Applications*, Special issue on Software Architectures for Mobile Applications, accepted for publication. [3] (Co-authored) "Dynamic Spatial Clustering for Intelligent Vehicle Information Sharing and Dissemination." Presented at SSD-99, Hong-Kong, July 1999. [4] (Co-authored) "Knowledge Based Dynamic Modeling for Sensor Fusion Applications." Presented at NAFIPS'99, New York, June 1999. [5] (Co-authored) "Loosening the Connection Between Syntax and Semantics for Spatial Data." Presented at AGILE-99, Rome, Italy, April 1999. [6] (Co-authored) "A Scalable Bottom-Up Data Mining Algorithm for Relational Databases." Presented at 10th International Conference on Scientific and Statistical DBMS, Capri, Italy, July 1998. [7] (Co-Authored) "A Model for Dealing with Value-Based Data Dependencies to Improve the Classification Rule Discovery Process." IEEE Conference on Fuzzy Systems, San Antonio, Texas, May 2000. [8] (Co-authored) "Noah: An Algorithm for Mining Classification Rules from Datasets with Large Attribute Space." *EDBT 2000*, Konstanz, Germany, March 2000.

EAST ASIAN LANGUAGES AND CULTURES

James A. Benn: [1] Organized one-day conference on "Body, Form and Practice in East Asian Buddhism," held at Lewis and Clark College, Portland, Or., April 24, 1999. Funded by the Ford Foundation. [2] "Deliverance by Fire? Some Observations on Taoist Auto-cremation," to be presented at Stanford University, May 10, 2000. [3] Awarded the Bukkyo Dendo Kyokai Fellowship for research in Buddhist Studies in Kyoto, July-December 1999.

Minju Kim: "Space, Text, and Discourse: Grammaticalization of Korean and Japanese Demonstratives." Presented at International Symposium New Reflections on Grammaticalization, Potsdam, Germany, June 17-19, 1999.

EDUCATION

Ricky Lee Allen: [1] "The Socio-Spatial Making and Marking of 'Us': Toward a Critical Postmodern Theory of Community and Identity." *Social Identities*, Vol. 5(3). [2] (Co-authored) "The Gift of Si(gh)ted Violence: Locating and Excavating the Construction of Representation." *Discourse*, Vol. 21(2). [3] (Co-authored) "Violencia Cool en el Espacio y el Discurso Educativo." *Cuaderno de Pedagogia Rosario*, Vol. 2(4), p 13-54. [4] (Co-authored) "Is Democratic Schooling Possible in an Ecology of Accountability and Outcomes?" *Contemporary Sociology*, March 1999. [5] (Co-authored) "A review of Social cartography: Mapping ways of seeing social and educational change." *Comparative Education Review*, Vol. 42(2), p 225-228. [6] (Co-authored) "Epistemologies of whiteness: Transforming and transgressing pedagogic knowledge." In *Social Epistemology and Multiculturalism*, R. Mahalingham & C. McCarthy (Eds.). [7] "The Hidden Curriculum of Whiteness: White Teachers, White Territory, White Community." Presented at the Annual Meeting of the American Educational Research Association, April 1999, Montreal, Canada. [8] "Spatiality & Experience in the Curriculum: A Remapping of Dewey's Theory of Experience." Paper at the Annual Meeting of the American Educational Research Association, April 1999, Montreal, Canada. [9] (Co-authored) "Toward a Lifted Theory of Dismembered Meanings." Presented at the Annual Meeting of the American Educational Research Association, San Diego, Ca., April 1998.

Ramin Farahmandpur: [1] (Co-authored) "Critical Pedagogy, Postmodernism, and the Retreat from Class: Towards a Contraband Pedagogy." In *Theoria: A Journal of Social and Political Theory*, Vol. 93, p 83-115, June 1999. [2] (Co-authored) "Critical Pedagogy, Postmodernism, and the Retreat from Class: Towards a Contraband Pedagogy." *Postmodernism in Educational Theory: Education and the Politics of Human Resistance*, 1999. D. Hill, P. McLaren, M. Cole, and G. Rikowski (eds.), p 167-202.

Leslie Henrickson: [1] "Learning Commercial Exports: Educational Commodities in a Global Marketplace." Presented at *Comparative and International Education Society*, Provo, Utah, October 1999. [2] "Complexity Theory, Computers as New Tools for Education Researchers," *Comparative and International Education Society*, Provo, Utah, October 1999. [3] "Structural Change to Science Education," refereed paper for American Educational Research Association, Montreal, Canada, April 1999. [4] "Theory in Comparative Education," *Comparative and International Education Society*, Toronto, Canada, April 1999. [5] "Having a Sense of Ourselves: Communications Technology and Personal Identity," refereed paper for Popular Culture Association Annual Conference, San Diego, March 1999. [6] Chair for session "Electronic Communications: Technology and the Shaping of Media Culture," *Popular Culture Association Annual Conference*, San Diego, March 1999. [7] Policy Implications for Education at Both a Macro and Micro Scale Using Complex Adaptive Systems," refereed paper, *Comparative and International Education Society*, Vancouver, Canada, June 1998. [8] Editor, *Chaos and Complexity Newsletter*, American Educational Research Association, 1999. [9] UCLA Department of Education Unrestricted Fellowship for academic year 1999-2000.

Allison Beauregard Law: [1] "Navigating the Accelerated Learning and Brain-Compatible Learning Movements: A Guide to Leaders, Expertise and Training in the United States." To be presented at the International Alliance for Learning Conference in Atlanta, Ga., January 14-16, 2000. [2] Pi Lambda Theta Education Honor Society, Dissertation Scholarship. [3] UCLA Faculty Women's Club, Fietta Wilkin Clendenin Memorial Scholarship.

ENGLISH

Christina Fitzgerald: "Secreta Mandata: Subversion, Marginality and Alternative Communities in Voragine's Legend of St. Cecilia." Presented at the International Medieval Congress, Leeds, England, July 14, 1999.

Christopher Flynn: "Empire of Genius: Coleridge and America." Presented at Wordsworth Summer Conference, Grasmere, England, July 31-Aug. 13, 1999.

Hovig Tchalian: UCLA Department of English Summer 1999 Mentorship Program Fellowship with Professor H. A. Kelly.

Jayne Devens Willingham: "Doctrine as Commodity: Interactive Theology in The Hopkinsian Magazine and the End of Calvinist Authority." Presented at American Historical Association Conference, Washington, DC, Jan. 9, 1999. [2] "From 'Putting on the Harness' to 'Living Withing the Compass': The Ascetic Transcendentalism of Hopkins and Emerson." Presented at Modern Language Association Conference, San Francisco, Ca., Dec. 27, 1998. [3] "The Restoration of Samuel Hopkins' Reputation in The Hopkinsian Magazine, 1824-1832." Presented at American Literature Association Conference, San Diego, Ca., May 30, 1998. [4] "From Disinterested Benevolence to 'Willingness to Be Damned': The Relocation of Puritan Piety from Theology to Aesthetics." Presented at Conference on Christianity and Literature, Santa Clara, Ca., May 1, 1998. [5] Chancellor's Dissertation Fellowship, 1997-1998.

ELECTRICAL ENGINEERING

Oscar S. Alvarez-Salazar: [1] (Co-Authored) "Destabilizing Effects of Rate Feedback On Strain Actuated Beams." Published in *Journal of Sound and Vibration*, 1999, Vol. 221(2), p 289-307. [2] (Co-authored) "A Novel Gust Monitoring Device." Presented at conference on Communications and Control: Comcon 7 in Athens, Greece, June 1999.

Renny E. Badra: (Co-authored) "Asymmetric Physical Layer Design for High-Speed Wireless Digital Communications" Published in *IEEE Journal on Selected Areas in Communications*, Vol. 17(10), October 1999.

Corey V. Bennett: [1] (Co-authored) "Upconversion Time Microscope Demonstrating 103x Magnification of Femtosecond Waveforms," *Optics Letters*, Vol. 24 (11) p 783-785, June 1, 1999. [2] (Co-authored) "Parametric Temporal Imaging," in *Ultrafast Electronics and Optoelectronics*, J. Bowers and W. Knox, Eds., Vol. 28 of *Trends in Optics and Photonics*, p 53-62. OSA, August 1999. [3] (Co-authored) "Subpicosecond Single-Shot Waveform Measurement Using Temporal Imaging." To be presented at LEOS '99 in San Francisco, Ca., Nov. 8-11, 1999. [4] A writeup about this work titled "Time lens magnifies ultrashort pulses" appeared in the July 1, 1999 issue of *Laser Focus World*, Vol. 35 (7).

Joe C. Chen: Awarded a Raytheon PhD Fellowship for 1999-2000.

Wang, Gary Ming-Jih: (Co-authored) "A Novel Gust Monitoring Device." Presented at conference on Communications and Control: Comcon 7 in Athens, Greece, June 1999.

Cliff Hwang: [1] (Co-authored) "Improvement in Low Temperature CMOS Performance Using Retrograded Channel Profiling." To be presented at the 1999 International Conference on Solid State Devices and Materials, Sept. 21-24, 1999. [2] (Co-authored) "Threshold Voltage Considerations for Optimized Low Temperature CMOS Performance." To be presented at the Fifth International Symposium on Low Temperature Electronics, Oct. 21, 1999.

Gary M. Wang: (Co-authored) "A Novel Gust Monitoring Device." Presented at 7th International Conference on Advances in Communications and Control, Athens, Greece, June 28-July 2, 1999.

ENVIRONMENTAL SCIENCE AND ENGINEERING

Joshua L. Burnam: (Co-authored) "Neurotoxic Effects of Organophosphate Pesticides in Two Children Following Residential Exposure." Seventeenth International Neurotoxicology Conference on Children's Health and the Environment: Mechanisms and Consequences of Developmental Neurotoxicology, University of Arkansas Medical School, Little Rock, Oct. 17-20, 1999. [2] Malcolm Stacey Fellowship for 1999-2000.

Joel A. Pedersen: [1] (Primary author) "Aeration effects on partitioning of a PCB to anoxic estuarine sediment pore water dissolved organic matter." *Environmental Science and Technology*, Vol. 33(9), p 1388-1397, May 1, 1999. [2] (Co-authored) "A physical model of the effect of redox potential on the configuration of pore water dissolved organic matter." Presented at the 9th Annual Conference of the International Humic Substances Society, Adelaide, Australia, Sept. 21-25, 1998. [3] (Co-authored) "A landscape assessment of the western United States: the EMAP Western Pilot." Presented at the USEPA Environmental Monitoring and Assessment Program Symposium on Western Ecological Systems: Status, Issues and New Approaches, San Francisco, Ca., April 6-8, 1999. [4] (Co-authored) "Indicator development for landscape-level aquatic ecological vulnerability assessment in the western United States." Presented at the 1999 Ecological Society of America Annual Meeting, Spokane, Wa., Aug. 8-12, 1999.

Tom Shih: [1] (First author) "Sorption for Removing Methyl Tertiary Butyl Ether From Drinking Water." *American Water Works Association National Conference Proceeding*, Chicago, Ill., June, 1999. [2] (Co-authored) "Sorption for Removing MTBE from Drinking Water." *Health and Environmental Assessment of MTBE*, Vol. 5, Risk Assessment, Exposure Assessment, Water Treatment and Cost Benefit Analysis. Report to the Governor and Legislature of the State of California as sponsored by SB521, November 1998. [3] (First author) "Evaluation of GAC Technology." Seminar Presentation at Lawrence Livermore National Laboratory, March 1999. [4] (First author) "Sorption for Removing MTBE from Drinking Water." Poster presentation at 12th Annual UC Toxic Substances Research and Teaching Program Symposium, April 1999. [5] (Co-authored) "Sorption for Removing MTBE from Drinking Water." Poster presentation at 1999 American Water Works Association Annual Conference & Exposition, Chicago, Ill. [6] (First author) "Sorption for Removing MTBE from Drinking Water." Poster presentation at 9th Annual Society of Environmental Journalists. [7] (First author) "Evaluation of GAC Technology Using Rapid Small-Scale Column Tests for Methyl Tertiary Butyl Ether Removal from Drinking Water." *American Geophysics Union*, Fall 1999 session on MTBE, December 1999. [8] (First author) "Evaluation of GAC Technology Using Rapid Small-Scale Column Tests for Methyl Tertiary Butyl Ether Removal from Drinking Water." 10th Annual West Coast Conference on Contaminated Soil and Water, Association of Environmental Health of Soils, March 2000. [9] Elected a member of IOTA Chapter of the Delta Omega Society, May 27, 1998.

Matt A. Yeager: (Co-authored) "Limited usefulness of extensive self-reported runoff constituent analysis by industry: calculating loads and pollution prevention progress for the metal plating industry, Los Angeles." *American Society of Civil Engineers 26th Annual Water Resources Planning and Management Conference*, Tempe, Az., June 8, 1999.

EPIDEMIOLOGY

Carri Casteel: [1] (Co-authored) "Non-Fatal Assaultive Injuries Against Educators in California, 1995." Presented at 4th Biannual Violence Prevention Conference, Long Beach, Ca., June 3-4, 1999. [2] Center for Occupational and Environmental Health Student Research Award, academic year 1999.

Amy Yee-Ning Chan: [1] (Co-authored) "Somatic Alterations of GSTP1 in Prostate Cancer." *AACR Special Conference on Pathobiology of Cancer*, 1999. [2] Awarded an American Association for Cancer Research Travel Awards for Young Investigators.

Terri Chew: [1] Co-authored "Cigarette Smoking and Risk of Premalignant Cervical Lesions and Cervical Cancer in a Chinese Cohort." Presented at the symposium *Carcinogenesis and Cancer Prevention: Cervical Cancer*, presented by the University of California, Irvine Chao Family Comprehensive Cancer Center, June 25-27, 1999. [2] (Co-authored) "Cigarette smoking and risk of premalignant cervical lesions and cervical cancer in a Chinese population." *American College of Epidemiology 1999 Annual Meeting*.

Tim Clary: Student research award for 1999-2000 from the Center for Occupational and Environmental Health.

Mark Damesyn: Received a grant from World AIDS Foundation titled "The Use of Village Health Helpers in AIDS Prevention (Kenya)." Amount is \$85,000 for March 1997-June 1999. Purpose is to identify methods to make early HIV detection accessible in rural Africa.

Lorena Garcia: (Co-authored) "Acculturation and Intimate Partner Abuse in the Latina Population of Los Angeles." at the 4th Bi-annual Violence Prevention Conference, Long Beach, Ca., June 3-4, 1999.

Mia Hashibe: [1] (Co-authored) "Chewing tobacco, smoking and drinking and risk of oral erythroplakia in an Indian population." *American College of Epidemiology 1999 Annual Meeting*. [2] Awarded an International Agency for Research on Cancer Special Training Fellowship.

Garret K. Morris: Elected as a member of the IOTA Chapter of the Delta Omega Society, an honorary public health society in 1999.

Veronica Wendy Setiawan: [1] Raymond Goodman Scholarship for academic excellence, UCLA School of Public Health, 1999. [2] Special Training Award, Summer 1999 Internship, International Research on Cancer (WHO), Lyon, France. [3] (Co-authored) "GSTT1 and GSTM1 null genotypes and the risk of stomach cancer in Chinese population case-control study." *Cancer Epidemiology, Biomarkers and Prevention*, in press. [4] (Co-authored) "Comparison of Microscan Microstrep, Pasco and Sensititre MIC panels for determining antimicrobial susceptibilities of *Streptococcus pneumoniae*." *Diagnostic Microbiology and Infectious Diseases*, Vol. 33(4), p 267-273, 1999. [5] (Co-authored) "The association between GSTT1 and GSTM1 null genotypes and the risk of gastric cancer in Chinese population case-control study." 1999 American College of Epidemiology Meeting, Bethesda, Md., Oct. 3-4, 1999. [6] (Co-authored) "GSTT1 and GSTM1 null genotypes and the risk of stomach cancer in Chinese population case-control study." 1999 SER Annual Meeting, Baltimore, Md.

L.V. Smith: [1] "Acceptance and use of an HIV home collection kit by STD clinic patients." Poster presented to the 32nd Annual Meeting of the Society for Epidemiologic Research, Baltimore, Md., June 10-12, 1999. [2] (Co-authored) "Using epidemiologic analyses to refocus syphilis elimination efforts in Los Angeles County." Poster presented to the 32nd Annual Meeting of the Society for Epidemiologic Research, Baltimore, Md., June 10-12, 1999. [3] (First author) "The acceptance of urine-based tests vs. physical examinations in the screening of STDs: the community's response." Presented at the 13th Meeting of the International Society for Sexually Transmitted Diseases Research, Denver, Co., July 11-14, 1999. [4] (First author) "Urine testing for gonorrhea and chlamydia—great technology, but will the community accept it?" Poster presented at the 13th Meeting of the International Society for Sexually Transmitted Diseases Research, Denver, July 11-14, 1999. [5] (Co-authored) "Using epidemiologic analyses to refocus syphilis elimination efforts in Los Angeles County." Poster presented to the 13th Meeting of the International Society for Sexually Transmitted Diseases Research, Denver, July 11-14, 1999. [6] (Co-authored) "Chlamydia prevalence and risk factors in women seeking care at a pregnancy termination clinic." Poster accepted for the 13th Meeting of the International Society for Sexually Transmitted Diseases Research, Denver, July 11-14, 1999.

Myduc Linchi Ta: Awarded the ASPH/CDC Public Health System Fellowship Program for "Identification of Potential Risk Factors for Work-Related Trauma," 1999-2000.

Tina Chiao-June Tsai: [1] (Co-authored) "Helicobacter pylori Infection and Increases Risk of Stomach Cancer: Early or Late Stage Carcinogenesis?" *Society for Epidemiologic Research 1999 Annual Meeting*. [2] Awarded an International Agency for Research on Cancer Special Training Fellowship.

Gregory Steven Vaughn: [1] (First author) "Timeliness of Syphilis Reporting in Los Angeles County: Implications for Elimination and Evaluation." Poster presentation at 127th annual meeting of the American Public Health Association, Chicago, Nov. 7-11, 1999. [2] (First author) "Using Epidemiologic Analyses to Refocus Syphilis Elimination Efforts in Los Angeles County." Oral presentation at 127th annual meeting of the American Public Health Association, Chicago, Nov. 7-11, 1999. [3] (First author) "Timeliness of Syphilis Reporting in Los Angeles County: Implications for Elimination and Evaluation." Poster presentation at 13th meeting of the International Society for Sexually Transmitted Disease Research, Denver, Co. July 11-14, 1999. [4] (First author) "Using Epidemiologic Analyses to Refocus Syphilis Elimination Efforts in Los Angeles County." Poster presentation at 13th meeting of the International Society for Sexually Transmitted Disease Research, Denver, Co. July 11-14, 1999. [5] (Co-authored) "Risk Factors for STDs/HIV Among Male Latino Recent Immigrants in Los Angeles County." Poster presentation

at 13th meeting of the International Society for Sexually Transmitted Disease Research, Denver, Co. July 11-14, 1999. [6] (First author) "Using Epidemiologic Analyses to Refocus Syphilis Elimination Efforts in Los Angeles County." Poster presentation at 32nd annual meeting of the Society of Epidemiologic Research, Baltimore, Md. June 10-14, 1999.

ETHNOMUSICOLOGY

Kimasi L. Browne: [1] "The Introduction as Signature: An Analysis of Western Musical Instruments in Chimurenga, Mbaqanga and Motown." Published in *Turn Up the Volume! A Celebration of African Music*, ed. Jacqueline Cogdell DjeDje. Los Angeles: UCLA Fowler Museum of Cultural History (Forthcoming, 1999). [2] "The Intercultural Nexus Between the Music of Motown and the Beatles" in *Intercultural Music 4*, eds. Cynthia Tse Kimberlin and Akin Euba. London: Centre for Intercultural Music Arts, in press. [3] "Music and Ritual in the Northern Soul Allnighter." Paper presented at the Colloquium on Music and Ritual, Irish World Music Center, University of Limerick, Limerick, Republic of Ireland, April 29, 1998.

Christi-Anne Castro: "Musical Mestizaje in the Pearl of the Orient." Presented at *Musical Cultures of Latin America: Global Effects Past and Present*, Los Angeles, May 1999.

Kathleen Hood: "The Druze Wedding Song Repertoire and Cultural Identity." Paper presented at the First International Conference on the Druzes, UCLA, June 12, 1999.

Jonathan Ritter: [1] "Cancega Nahonpi: The Drum as Icon and Teacher in D/Lakota Life." Published in *Bulletin of the Society for American Music*, Vol. 25(2), p 33-38, Summer 1999. [2] "S(t)imulating Community: Virtual Drum and Bugle Corps and the Hyperreal." Presented at *Unnatural Acts: Techno-Performatives, Simulations, Appropriations, Identities*, UC Riverside, April 23-24, 1999. [3] "La Marimba y La Bomba: Articulating Blackness in an Ecuadorian World." Presented at *Musical Cultures of Latin America: Global Effects, Past and Present*, UCLA, May 28-30, 1999.

Sonia Tamar Seeman: [1] "Muziksel icra ve kimlik: Makedon Roma ve Batı Türkiye Roman topluluklarının karsilastirmali ve incelemesi." *Musical Performance and Identity: A comparative examination of Macedonian Roma and Western Turkish Roman communities*, *Muzikalite* Vol. 6, 1998, p 39-45. [2] "Kocani Orkestar, A gypsy Brass Band-Gypsy Mambo." *Liner notes*. Yeni Dünya Records, 1999. [3] "Rumeli ve Turk Trakyasinda Ensrumental ve Takim Gelenekleri," *Instrumental and Ensemble Traditions of Rumeli and Thrace*, *Liner notes*. Kalan Recordings CD, 1998. [4] "Sulukule: Rom Music of Istanbul," *Liner notes, cover photograph, song texts and translations, Traditional Crossroads Recordings CD*, 1998. [5] "Balkanlarindaki muziginde Osmanli ve Turk muziksel etkiler," (Ottoman and Turkish influences in Balkan music), *Musicology Seminar, Istanbul Technical University Conservatory, Istanbul, Turkey*, December 1998. [6] *Roman (Gypsy) Musical Expression and Social Identity in Istanbul: Configuration of a community in performance (Research Report)*, SSRC-NMERTA Fellow's Conference, Tunis, Tunisia, March 16-19, 1998. [7] *Departmental Dissertation Year Fellowship award for 1999-2000*. [8] *NMERTA-Social Science Research Council Dissertation Research Grant for 1997-1998*.

John Vallier: [1] National Resource Fellowship (Title VI) for 1999-2000 academic year. [2] Artsbridge Scholarship for Fall 1999.

Reginald C. Waddell: [1] Perform as an understudy musician in "Play On" at the Pasadena Playhouse, July 9-August 22. [2] Guest lecturer in Cheryl Keyes' "American Popular Music" ETM 117. Lecture was "Transition Years of Rhythm and Blues."

FILM AND TELEVISION

Alina Hiu-Fan Chau: [1] The film, "Kite," produced June 1999, scheduled to screen at 4 film festivals. [2] "Frieden-The Tree of Peace," produced in June 1998, scheduled to screen at 8 film festivals.

Sheila Marie Jenca: Selected by the Phi Delta Theta Educational Foundation to receive Francis D. Lyon Scholarship for 1999-2000 in support of student film makers.

Lichelli Lazear-Lea: [1] BAFTA Los Angeles, Diana Princess of Wales Fellowship 1999. [2] Dorothy Arzner Memorial Scholarship, Spring 1999.

Carl Pfriman: Wrote and directed the film "Boy Next Door," a 13-minute film, which received these awards: [1] 1999

San Francisco International Lesbian and Gay Film Festival Audience award for best short film. [2] 1999 Philadelphia International Gay and Lesbian Film Festival Audience award. [3] 1998 Chicago Lesbian and Gay International Film Festival-Reeling '98 Best. [4] Short Narrative Jury Award. [5] Breakout: National Coming Out Day Competition, Grand Prize Winner. [6] Media One Short Film Competition—Finalist. [7] First Gerald Hughes Comedy Directing Fellowship. Film produced in 1989 and scheduled to screen at 62 venues.

Marc Siegel: "Cliches of Unity: History and Memory in Postwar French Film," Sites of Memory: Tracing France's Cultural Self-Consciousness, *Paroles Gelées*, Special Issue Vol. 16(2) p 57-64, 1998.

Eden H. Wurmfeld: (Co-authored) IFP/West Independent Filmmaker's Manual, published by Focal Press

FRENCH

Vanessa Herold Arnaud: [1] "Gossip as a Mediating Force in 17th Century French Culture." Presented at 17th Annual Conference of the Society for Interdisciplinary French Seventeenth-Century Studies, at Chapman University, Orange, Ca., Oct. 8-10, 1998. [2] Distinguished Teaching Award 1998-1999. [3] Dissertation Year Fellowship 1999-2000.

Stacey Meeker: [1] Edited the volume and wrote the Introduction, Sites of Memory: Tracing France's Cultural Self-Consciousness, *Paroles gelées*, Special Issue, Vol. 16(2) p 5-8, 1998. [2] "Utopia Limited: An Anthropological Response to Richard Rorty," *Anthropoetics* Vol. 4(2), Fall 1998/Winter 1999. [3] Collegium of University Teaching Fellows 1999-2000 for the course "Paris 1900: The Other Turn-of-the-Century."

GEOGRAPHY

Suzanne Dallman: [1] "GIS in Support of Watershed Modeling Illustrated." Paper presented at Association of American Geographers annual conference, Honolulu, March 23-27, 1999. [2] (Co-authored) "Stormwater: Asset or Liability." Paper presented at From Drain to Dream II, annual conference of the Los Angeles/San Gabriel Rivers Watershed Council, Los Angeles, May 1, 1999. [3] Book publication pending this fall.

Wendy Jepson: [1] National Science Foundation fellowship, Doctoral Dissertation Improvement Award. [2] Organization of American States, Programa Regular de Adiestramiento (PRA) Graduate Research Fellowship to support fully doctoral research in Brazil for at least one year.

Travis Longcore: [1] (Co-authored) "Arthropod Monitoring for Fine-scale Habitat Analysis: A Case Study of the El Segundo Sand Dunes," *Environmental Management*, 1999, in press. [2] (Co-authored). "Habitat Evaluation and Reintroduction Planning for the Endangered Palos Verdes Blue Butterfly." Technical Report to California Department of Fish and Game, June 1, 1999. [3] "Terrestrial Arthropods and Restoration: If You Build It, Will They Come?" Xerces Society Symposium at the 11th Annual Conference of the Society for Ecological Restoration, Sept. 23-25, 1999, San Francisco, Ca.

GERMANIC LANGUAGES

Jasmin Harvey: [1] "Effects of Frisian on Dutch." Presented at 5th Germanic Linguistics Annual Conference, University of Texas, Austin, April 16-19, 1999. [2] "Effects of Frisian on Dutch: further notes," *Linguistics Association of the Southwest Conference*, University of Texas, San Antonio, Oct. 1-3, 1999.

Douglas Lightfoot: [1] "Can the Grammaticalization/Lexicalization Distinction be Reconciled?" Presented at the International Symposium New Reflections on Grammaticalization, Potsdam, Germany, June 17-19, 1999. [2] Publication: "Ein Beitrag von Grammatikalisierung zur Wortbildung der deutschen Sprache: Vorteile der Theorie in Bezug auf deutsche Ableitungsprozesse." In: *Internationale Tendenzen der Syntaktik, Semantik und Pragmatik*, ed. by H.O. Spillmann and I. Warnke, p 283-290. Frankfurt am Main: Peter Lang, 1999.

Christina Jessica Wegel: "Der Aufbruch der Phrase zur Tat: Sprichwoertliche Vergewaltigungen und vergewaltigte Sprichwoerter in Elfriede Jelineks Roman Lust." *Proverbium: Yearbook of International Proverb Scholarship*, Vol. 16, p 391-408, 1999.

HISTORY

H. Robert Baker: [1] "Creating Order in the Wilderness: Transplanting the English Law to Rupert's Land, 1835-51." *Law and History Review*, Summer 1999, Vol. 17(2), p 209-246. [2] "English Law and Native Custom: Governing the Eighteenth Century Fur Trade." *Pacific Coast Conference on British Studies*, Long Beach, Ca., March 1998. [3] Winner, 1999 Graduate Student Prize from the Pacific Coast Conference on British Studies Society.

Augusto Espiritu: [1] Bernadotte Schmitt Award, American Historical Association, 1999. [2] Book Review, *Confrontations, Crossings, Convergence: Photographs of the United States and the Philippines, 1898-1998*. *Journal of Asian American Studies*, Vol. 2(1), February 1999, p 101-104. [3] "The 'Pre-history' of an Asian-American Writer: N.V.M. Gonzalez' Allegory of Decolonization." *Amerasia Journal*, Vol. 24(3), Winter 1998, p 126-142. Centennial Commemoration Issue, *Essays into American Empire*. [4] "The Spirits of the Winds." Introduction to *Winds of April*, novel, by N.V.M. Gonzalez, Quezon City, University of the Philippines Press, 1998, xiii-xvi. [5] "'Doveglion' and the Performance of Everyday Life: An Introduction to Jose Garcia Villa." *Filipino American National Historical Society*, Los Angeles Chapter, *Filipino American Reading Room and Library*, Los Angeles, Aug. 15, 1999. [6] "The Dialectics of Modernity and Tradition: Carlos Bulosan's Philippine American World." *Modernity's Histories*, UC Santa Barbara, May 8-9, 1999.

Kimberly Garmoe: [1] "Losing something in Translation: Representations of Colonialism in an 18th Century German Language Newspaper." Presented at the Annual Conference for the American Society for Eighteenth Century Studies in Milwaukee, Wi., March 1999. [2]: DAAD Award (German academic exchange service) for the 1999-2000 academic year for dissertation research in Bremen.

Afshin Marashi: "Passages of the Nation-Form: Nationalism and the Appropriation of 'Race Science' in Iran and India." Presented at Harvard University's "Europe and Empire" Conference, November 1998

Jason Moralee: [1] Awarded a Lady Davis Doctoral Fellowship, Jerusalem, Israel, 1999-2000. [2] Awarded a Dorot Foundation Travel Grant, Summer 1999, Jerusalem, Israel.

Constantina Scourtis: Elizabeth "Libby" Stern Award, University Religious Conference, 1999.

Shobana Shankar: Awarded Foreign Language and Area Studies Summer Fellowship for 1999 from Stanford University, which enabled the study of intermediate Swahili at Yale.

Lissa Wadewitz: Summer RA Mentorship Award, Summer 1999.

Stacey Yukari: Received the National Fellows of the Civil Liberties Public Education Fund for \$10,000 to pursue research on the World War II incarceration of 120,000 Japanese Americans.

HUMAN GENETICS

Chris Ramsey: (Co-authored) "Developmentally regulated expression of AIRE during human leukocyte differentiation." Presented at 49th Annual Meeting of the American Society of Human Genetics, San Francisco, Oct. 18-23, 1999.

INDO-EUROPEAN STUDIES

Jay Friedman: [1] "A Lexical Analysis of Simple *-r/n-Heteroclitism in Proto-Indo-European." Paper was published in the book *UCLA Indo-European Studies*. Volume 1. Edited by Vyacheslav V. Ivanov and Brent Vine, Los Angeles. [2] "The Indo-European Gender System in Light of Noun Class Typology." Presented at 11th Annual UCLA Indo-European Conference, June 4, 1999. [3] "A Unified Theory of the Indo-European Particle System." Presented at 1st UCLA Graduate Symposium of the Humanities, May 7, 1999. [4] Co-founded, with Katherine Crosswhite of the Linguistics Department, the 1st UCLA Graduate Symposium of the Humanities, held at UCLA May 7, 1999.

Natalie Operstein: [1] "Seventeenth-Century Black Spanish: A Demographic Approach." Presented at the joint annual meeting of the Society for Pidgin and Creole Linguistics and the Linguistic Society of America, Los Angeles, Jan. 9-10, 1999. [2] "Was Lingua Franca Ever Creolized?" *Journal of Pidgin and Creole Languages* Vol. 13, p 377-80, 1998.

INFORMATION STUDIES

Nadia Caidi: [1] "Comparing Library Education and the Use of Technology in the Classroom: U.S. and Europe." Presented at the Department of Library and Information Science of the Eotvos Lorand University, Budapest, Hungary, March 25, 1999. [2] "Comparing Library Education and the Use of Technology in the Classroom: U.S. and Europe." Presented at the Department of Library and Information Science, Szombathely College in Hungary, April 8, 1999. [3] Recipient of a research fellowship from the Center for International Business Education and Research, Anderson Graduate School of Management, UCLA, 1999.

Sharon E. Farb: "Whose Art is it Anyway? Towards a National Policy of Due Diligence in the Acquisition of Cultural Property and Cultural Heritage." Presented at the 25th Annual Social Theory, Politics, and the Arts Conference, Nashville, Tn., Oct. 7-10, 1999.

Karen F. Gracy: "Yours, Mine, and Ours: The Zaprunder Film and the Politics of Cultural Appropriation." Presented at the 25th Annual Social Theory, Politics, and the Arts Conference, Nashville, Tn., Oct. 7-10, 1999.

Frank P. Hoppe: "The Politics of Unusual Artifacts of Cultural Heritage: The Significance of Unpublished Field Recordings." Presented at the 25th Annual Social Theory, Politics, and the Arts Conference, Nashville, Tn., Oct. 7-10, 1999.

Charlotte P. Lee: LACASIS Margaret McKinley Memorial Student Scholarship Competition, 1999.

Cindy Mediavilla: *Arthurian Fiction: An Annotated Bibliography*. Lanham, Md., 1999, Scarecrow Press.

Pauline M. Neilly: "The Fine Art of Deselection: The Politics of Not Selecting Items of Cultural Heritage For Preservation." Presented at the 25th Annual Social Theory, Politics, and the Arts Conference, Nashville, Tn., Oct. 7-10, 1999.

Marjorie Rauen: "Reflections on/of the Space of Flows: The Guggenheim Museum Bilbao." Presented at the 25th Annual Social Theory, Politics, and the Arts Conference, Nashville, Tn., Oct. 7-10, 1999.

Samuel E. Trosow: [1] *The Political Economy of Legal Information*, edited by Samuel E. Trosow, New York, Haworth Information Press. [2] *The Political Economy of Legal Information*, co-published simultaneously as *Legal Reference Services Quarterly*, Vol 17(1, 2), 1999. [3] Librarian Fellow, Doreen B. Townsend Center for the Humanities, UC Berkeley, 1999-2000 academic year. Project: examination of the information seeking and use patterns of humanities scholars in order to determine how the "anti-circumvention" rules contained in the recently enacted Digital Millennium Copyright Act, and other enacted or proposed changes in copyright and related laws, might adversely affect the creation, dissemination and use of knowledge.

ISLAMIC STUDIES

Hussam S. Timani: "Reason ('Aql): Druzes vs. Mu'tazila." Presented at The Druzes: 1000 years of History, Reform and Tradition, UCLA, June 11-12, 1999.

LAW

Aileen Alfonso Duldulao: Co-recipient of Joseph Hairston Duff Public Interest Award 1999.

LAW AND URBAN PLANNING

Andre Quintero: California State Senate Fellowship during 1998-99 academic year as part of a program within the Center for California Studies at California State University Sacramento.

LINGUISTICS

Katherine M. Crosswhite: [1] "Segmental vs. Prosodic Correspondence in Chamorro", *Phonology*, Vol. 15(3), August 1999. [2] "A Unified OT Analysis of Dissimilative and Non-Dissimilative Russian Vowel Reduction," *Southwest Workshop on Optimality Theory*, May 15-16, 1999, UC San Diego. [3] "Vowel Lengthening and Length Neutralization in Orlec Chakavian," *Formal Approaches to Slavic Linguistics 8*, May 21-23, University of Pennsylvania. [4] "On the Non-Unitary Nature of Vowel Reduction," Poster presented at North East Linguistics Society, Oct. 22-24, Rutgers University.

MANAGEMENT

Manel Baucells: (Co-authored) "An Invariant Measure of Incomplete Group

Preference." Presented at X International Conference in Game Theory, Stony Brook, New York, July 19-23, 1998.

Enrique Dans: "Systems Life Expectancy and the Maintenance Effort." Published in *Management Information Systems Quarterly*, forthcoming.

MATERIALS SCIENCE AND ENGINEERING

Dawei Zheng: [1] (Co-authored) "Study of local stress using stress-absorbing Si diaphragm." Published in *Journal of Vacuum Science and Technology*, Vol. 17(5), 1999. [2] (Co-authored) "On the methodology of numerical etching." Proceedings of the 1999 Materials Research Society Spring Meeting. [3] (Co-authored) "A novel approach to study patterned thin film local stress for microelectronics application." Proceedings of the 5th International Conference on Solid-State and Integrated Circuit Technology, edited by M. Zhang and K. N. Tu, IEEE, Beijing, 1998, p 569. [4] (Co-authored) "A Low Temperature SOI Fabrication Process Using Si MBE on Double-layer Porous Silicon." *Journal of the Electrochemical Society* Vol. 145(5), 1998. [5] (Co-authored) "A Testing Method and Device for Intrinsic Stress Measurement in Wafer Bumping Process." Proceedings of the 1999 Electronic Components and Technology Conference. [6] (Co-authored) "Aggregation kinetics and stability of structures formed by magnetic microspheres." *Physical Review E* 59, R4758, 1999. [7] (Co-authored) "Two- and three-dimensional arrays of magnetic microspheres." *Journal of Materials Research* Vol. 14(4), p 1186, 1999. [8] "In-situ scanning electron microscopy study of eutectic SnPb and pure Sn wetting on Au/Cu/Cr multi-layered thin films." *Journal of Materials Research* Vol. 14(3), 745, 1999. [9] (Co-authored) "Chain/column evolution and corresponding electrorheological effect." *Journal of Applied Physics* Vol. 85(1), 530, 1999. [10] (Co-authored) "Fractal-chain transition of field-induced colloid structure." *Physical Review* Vol. 58(6), 7682, 1998. [11] (Co-authored) "Experimental investigation for the time-dependent effect in electrorheological fluids under time-regulated high pulse electric field." *Review of Scientific Instruments* Vol. 69(10), 3573, 1998. [12] (Co-authored) "In situ time response measurement of the microspheres dispersed in electrorheological fluids." *Physical Review*, Vol. 57(4), 4516, 1998. [13] (Co-authored) "Reactive wetting and dewetting induced diffusion-limited aggregation." *Physical Review*, Vol. 57(4), Rapid Communications, 3719, 1998. [14] (Co-authored) "Size Dependent Dewetting and Sideband Reaction of Eutectic SnPb on Au/Cu/Cr Multi-Layered Thin Film." *Journal of Materials Research*, Vol. 13(5), Rapid communications, 1103, 1998. [15] (Co-authored) "Accessing residual stress change in thin film due to patterning." Presented at 1999 Advances in Thin Film Simulation and Experimental Verification workshop, Materials Research Society, San Jose, Ca., June, 1999. [16] (Co-authored) "The micro-mechanics of thin film in micron thickness range." 1999 Materials Research Society Spring Meeting, San Francisco, Ca., April, 1999. [17] (Co-authored) "Wetting and dewetting study of Sn bearing solders on Au/Cu/Cr layered thin films." Semiconductor Research Corporations Techcon'98, Las Vegas, September, 1998. [18] (Co-authored) "Size dependent dewetting and sideband reaction of eutectic SnPb on Au/Cu/Cr multi-layered thin film." 1998 Materials Research Society Spring Meeting, San Francisco, April 1998. [19] Panel discussion at Semiconductor Research Corporation/Motorola University SRC continuous quality improvement workshop, Schamburg, Il., 1998. [20] 1998 Winter, Motorola Annual Manufacturing Technology Conference, Best Paper award.

MICROBIOLOGY AND IMMUNOLOGY

Hung Ton-That: [1] (First author) "Anchor Structure of Staphylococcal Surface Proteins: IV. Inhibitors of the Cell Wall Sorting Reaction." *Journal of Biological Chemistry*, Vol. 274, p 24316-24320, 1999. [2] (Co-authored) "Staphylococcal aureus Sortase, an Enzyme that Anchors Surface Proteins to the Cell Wall." *Science*, Vol. 285, p 760-763, 1999. [3] (Co-authored) "Multiple Enzymatic Activities of the Murein Hydrolase from Staphylococcal Phage Phi 11." *Journal of Biological Chemistry*, Vol. 274, p 15847-15856, 1999.

MICROBIOLOGY AND MOLECULAR GENETICS

Megan P. Hall: (First author) "KH-Type Splicing Regulatory Protein, KSRP, is Enriched in the Perinuclear Compartment." Presented at Eukaryotic mRNA Processing

conference, Cold Spring Harbor Laboratory, Cold Spring Harbor, New York, Aug. 25-29, 1999.

MOLECULAR BIOLOGY

Bernadette Grace So: Awarded a National Science Foundation fellowship for 1999-2000.

MOLECULAR AND MEDICAL PHARMACOLOGY

Nona Adonai: Awarded NIH research grant for training at UCLA in pharmacological sciences.

Tarek Abouelleil: Awarded NIH research grant for training at UCLA in pharmacological sciences.

Philip Michael Bauer: "Nitric Oxide inhibits Ornithine Decarboxylase by S-nitrosylation." Paper on biochemical and biophysical research communications presented at 6th International Meeting on Biology of Nitric Oxide in Stockholm Sweden, Sept. 5-8, 1999.

Joan Chang: Awarded UCLA Chemistry-Bio Interface Grant.

Mara Cordeiro: [1] Awarded UCLA Dissertation Year Fellowship for 1999-2000. [2] (First author) "Irreversible inhibition of human immunodeficiency virus type 1 integrase by dicaffeoylquinic acids." *Journal of Virology*, AP 73(4), p 3309-16, 1999.

Daniel Freeman: Awarded NIH grant for research training at UCLA in pharmacological sciences.

Dana Haley: Awarded NIH grant for at Jules Stein.

Yun Han: Awarded a UCLA University Fellowship.

Lorraine Hanssen: Received NIH National Research Service Award.

Dwain Irvin: Received a University Fellowship from UCLA Graduate Division.

Sean Joseph: Received NIH National Research Service Award.

Amanda Kerner: Awarded NIH grant for research training in pharmacological sciences.

Natalie Ludwick: Received a chemistry bio interface grant.

Angelica Olcott: Received a travel conference award for work in autoimmunity to attend FASEB Conference.

Anjay Rastogi: Received dissertation year fellowship.

Chester Rodriguez: Received Eugene Cota Robles Fellowship Award.

Zory Shaposhnik: Awarded a UCLA University Fellowship.

Gail Wong: Awarded a UCLA University Fellowship.

MUSIC

Jeffrey Bernstein: [1] Appointed artistic director of the Pasadena Foothill Master Chorale. [2] He conducts choral ensembles and the glee club at Occidental College, which recently released its first CD recording in its 94-year history, and gave a East Coast concert tour, singing in St. Patrick's Cathedral in New York City and Trinity Church in Boston. [3] Eight premieres of his music at UCLA, including a performance of his "Psalm 51" last spring and in the spring of 1998 the first performance of his symphonic poem, "The Second Age" by the UCLA Philharmonic Orchestra. [4] Commissioned to write a choral piece for the Governor's School Summer 2000 New Music Festival.

NEAR EASTERN LANGUAGES AND CULTURES

Kasia Szpakowska: [1] "A Sign of the Times." *Lingua Aegyptia* VI, 1999, pp 163-166. [2] "Sleep, Dreams, and the Dead." Presented at Annual Conference of the American Research Center in Egypt, Chicago, Il., April 23-25, 1999. [3] "The Ungrateful Dead: Dimensions of Dreams in Pharaonic Egypt." *New Insights in Near and Middle Eastern Research*, University of Toronto, March 19, 1999. [4] "Sleep, Dreams, and the Dead in Ancient Egypt." *The Ways of Death in the Ancient World*, University of Washington, Oct. 23-24, 1998. [5] Collegium of University Teaching Fellows, Spring, 1999.

NEUROBIOLOGY

Ricardo Cristobal: "Hair Cell Formation in the Vestibular Epithelium of the Bullfrog: In Vivo and In Vitro Studies." Presented at XXVI Congress of the Neurootological and Equilibrium Society, Anaheim, Ca., June 19, 1999.

NEUROSCIENCE

Michael Cheney: Awarded a Predoctoral Fellowship from the American Heart Association for 1999-2001.

Uma Karmarkar: National Defense Science and Engineering Graduate Fellowship beginning Fall 1999.

NURSING

Grace Dean: [1] (Co-authored) "Comparing fatigue in Women: Breast Cancer Survivors and Healthy Controls." *Oncology Nursing Forum*, Vol. 26(2), p 370, 1999. [2] (Co-authored) "Comparing Fatigue in Women: Breast Cancer Survivors and Healthy Controls." 5th National Conference on Cancer Nursing Research, Newport Beach, Ca., Feb. 10-13, 1999. [3] "Meeting the Challenge of Physiologic Monitoring." 13th Annual Conference of the Southern Nursing Research Society, Feb. 18-20, 1999. [4] *Oncology Nursing Foundation/Sigma Theta Tau International Research Grant* (\$10,000) for dissertation "Biobehavioral Dimensions of Fatigue," May 1999.

Ann E. Dechairo: Association of California Nurse Leaders 1999 annual scholarship winner (\$1500), February 1999.

Jo-Ann Eastwood: [1] (Co-authored) "Evolving Trends in Critical Care Nursing Practice: Results of a Certification Role Delineation Study." *American Journal of Critical Care*, September 1999, Vol. 8(5). [2] Health-Related Quality of Life Fellowship was renewed for second year 1999-2000.

Gloria Juarez: [1] (Co-authored) "Influence of Culture on Cancer Pain Management in Hispanic Patients." *Cancer Practice*, Vol. 6(5), p 262-269, 1998. [2] "Hispanic Cancer Patients Perceptions of Quality of Life." *Cancer Practice*, Vol. 7(6), p 318-324, 1998. [3] Recipient of the Oncology Nursing Foundation Doctoral Scholarship, 1999.

Mary S. Riedinger: [1] (Co-authored) "A Prospective, Multicenter Study of a Pneumonia Practice Guideline." *Chest*, Vol. 114(1), p 115-9, 1998. [2] (Co-authored) "Can Practice Guidelines Safely Reduce Hospital Length of Stay? Results From a Multicenter Interventional Study." *American Journal of Medicine*, Vol. 105(1), p 33-40, 1998.

Susan T. Roberts: [1] "Gender Role Related to Sexuality among Mexican-American Women at risk for HIV/AIDS." Presented at 1999 National Conference on Women and HIV/AIDS, Los Angeles, Oct. 9-12, 1999 [2] "Gender and Power related to Sexuality and HIV risk among Mexican-American Women." *Women's Work, Health and Quality of Life*, the Eleventh International Congress on Women's Health Issues. Sponsored by UCSF in San Francisco, Jan. 26-29, 2000.

Dorothy France Tullmann: [1] (First author) "Nursing care of the elderly as a vulnerable population." *Nursing Clinics of North America*, Vol. 34(2) p 333-344, June 1999. [2] "The Effect of Family Visitation on Outcomes in Critically Ill Elders." Poster Presentation at UCLA School of Nursing Research Day, May 1999.

ORGANISMIC BIOLOGY, ECOLOGY AND EVOLUTION

Katharyn E. Boyer: (First author) "Effects of epibenthic invertebrates on nutrient dynamics and community structure in a created salt marsh." *Estuarine Research Federation meeting*, New Orleans, Sept. 26-30, 1999. [2] Awarded Estuarine Research Federation Travel Grant, September 1999. [3] Awarded Organismic Biology/Obst Fund Grant, September 1999.

Daniel J. Pondella, II: [1] "The Nearshore Fish Assemblage of Santa Catalina Island." Paper presented at American Society of Ichthyologists and Herpetologists, 1999. [2] Awarded Lerner-Gray Fund for Marine Research, American Museum of Natural History, 1999. [3] Awarded Edward C. and Charlotte E. Raney Award, 79th American Society of Ichthyologists and Herpetologists, Annual Meeting, Pennsylvania State University, June 30, 1999. [4] Awarded Grant-in-Aid of Research, Sigma Xi, The Scientific Research Society, 1998.

Gregory Schrott: "Variation in patch size use in breeding bird communities in a naturally fragmented forest ecosystem in Grand Teton National Park." Presented at Eco-

logical Society of America Annual Meeting, Spokane, Wa., Aug. 10, 1999.

PATHOLOGY AND LABORATORY MEDICINE

Sara Becker-Catania: (Co-authored) "ATM gene expression patterns during early mouse development." Presented at the American Society of Human Genetics 49th Annual Meeting, San Francisco, Ca. Oct 19-23, 1999.

Charles Ho: (Co-authored) "A 450-kb contig of defensin genes on human chromosome 8p23." Published in the *Journal Gene*, June 11, Vol. 233(1-2), p 205-11.

PHILOSOPHY

Larry Herzberg: Selected to be Collegium of University Teaching Fellow by Office of Instructional Development and has been awarded an undergraduate seminar in the Spring of 2000.

PHYSIOLOGICAL SCIENCE

Michelle Wehling: (Co-authored) "Myostatin Expression Is Not Induced by Decreased Expression or Activity of nNOS in Dystrophic Muscle." Presented at 4th Congress of the World Muscle Society, Antalya, Turkey, Oct. 14-16, 1999.

POLITICAL SCIENCE

Shana Bass: "Ethnicity and Immigration Status and Mass Attitudes Toward Multicultural Principles and Policies in the United States." Presented at SPSSI Immigrants and Immigration Conference, Toronto, Ontario, Canada, Aug. 12-15, 1999.

Preston Keat: [1] "Decade of Compromise: Organized Labor and the Politics of Polish Economic Reform." Presented at Brown University's Watson Institute conference on Labor and Privatization, March 3, 1999. [2] "Penalizing the Reformers: Polish Steel and EU Integration." Presented at Annual Meeting of the American Political Science Association, Atlanta, Sept. 2, 1999.

Chris Rudolph: [1] "Deconstructing Sovereignty: The Socio-Political Implications of Global Migration on Conceptions of Sovereignty." Presented at the Annual Meeting of the American Political Science Association, Sept. 1-5, 1999, Atlanta. [2] Awarded dissertation fellowship for the 1999-2000 academic year by the Institute for the Study of World Politics, Washington, DC. [3] Offered position of Visiting Scholar at the Center for U.S.-Mexican Studies, UC San Diego, 1999-2000.

Sanchita B. Saxena: [1] "Follow the Leader? Decentralization and Economic Reforms in Developing Countries." Annual Meeting of the American Political Science Association, Atlanta, Ga., Sept. 2-5, 1999. [2] 1999 UCLA Latin America Center Tinker Field Research Grant (Argentina). [3] 1999 Latin America Center Small Grant (Argentina).

Elin Skaar: [1] "Truth Commissions, Trials, or Nothing? Policy Options in Democratic Transitions." *Third World Quarterly*, Vol. 20(6), 1999 (forthcoming). [2] Reconciliation or Justice? Protecting Human Rights Through Truth Commissions and Trials, Oslo: Cappelen Akademisk Forlag. Baard-Anders Andreassen and Elin Skaar (eds.), 1998, pp 1-384 (in Norwegian). [3] "Dealing with Gross Human Rights Violations in Transitions to Democracy," in Reconciliation or Justice? Protecting Human Rights Through Truth Commissions and Trials, Baard-Anders Andreassen and Elin Skaar (eds), Oslo: Cappelen Akademisk Forlag, 1998, pp. 10-49 (in Norwegian). [4] "Profit or Morals? A Discussion on Trade Interests and Human Rights". Working paper, No. 2. Bergen: Chr. Michelsen Institute, 1998 (in Norwegian). [5] "Truth Commissions, Trials, or Nothing? Policy Options in Democratic Transitions." Paper presented at CISS/ISA Conference, The New Millennium: Challenges and Strategies for a Globalizing World, Paris, Aug. 9-10, 1999. [6] Department of Political Science Award of Fellowship support, Fall 1999.

PUBLIC HEALTH

Mable Everette: "Ethnographic Research on African American Pregnancy Outcomes." Presented at the 1999 Annual meeting of the American Public Health Association, Chicago, Il., Nov. 7-11, 1999.

Lorena Garcia: [1] (Co-authored) "Acculturation and Intimate Partner Violence." Presented at 4th Biannual Violence Prevention Conference, Long Beach, Ca., June 3-4, 1999. [2] (Co-authored) "Acculturation and Intimate Partner Abuse in the Latina Population of Los Angeles." Presented at American Public Health Association 1999 Annual Meeting, Chicago, Il., Nov. 7-11, 1999.

Christine-Marie Schober: (Co-authored) "Association between alcohol use patterns and behaviorally defined sexual orientation in the 1996 National Household Survey of Drug Abuse." NCHS' National Conference on Health Statistics, Washington, DC, Aug. 2-4, 1999.

SLAVIC LANGUAGES AND LITERATURES

Annelie Chapman: SSRC Eurasia Program Dissertation Fellowship for 1999-2000.

Christopher Colbath: [1] "Embedding the Queen: Prescriptive Reading in Ol'ha Kobylins'ka's 'Tsarivna.'" Presented at AAASS Conference in St. Louis, Mo., 1999. [2] Research Mentorship Award 1998-1999 for work in Valerian Pidmohylnyi and Nietzsche.

Andrea Hacker: Lennart Travel Grant for 1999-2000.

Ron Richards: [1] "The Morphology and Syntax of the Old Russian Participial System as Seen in Groznyj's First Epistle to Kurbskij." Presentation at AATSEEL Conference, Chicago, Dec 27-30, 1999. [2] "Ways and Means of Promoting Russian-Language Study." Round table discussion at AATSEEL Conference, Chicago, Il., Dec. 27-30, 1999. [3] Awarded Dissertation Year Fellowship for the 1999-2000 academic year.

SOCIALWELFARE

Sacha Mareka Klein: [1] Awarded the Philip and Aida Siff Educational Foundation Fellowship, 1999-2000. [2] Women's Faculty Club Scholarship, 1999-2000. [3] Regents Stipend and Fee Waiver Grant, 1999-2000.

Alvin Mares: Received two extramural funding awards for October 1999-September 2000. [1] Veterans Administration Predoctoral Fellowship. [2] VA Mental Illness, Research and Clinical Center Pilot Grant

SOCIOLOGY

Tiffani Chin: [1] "Sixth Grade Madness: Parental Emotional Work in the Private High School Application Process." Presented at the annual American Sociological Association meeting in Chicago, Aug. 1999. [2] (Co-authored) Tutoring Matters: Everything You've Always Wanted to Know About How To Tutor. Book published by Temple University Press, Philadelphia, 1999.

Cynthia Feliciano: [1] Awarded Ford Foundation Predoctoral Fellowship, 1999-2002. [2] "The Costs of 'Becoming American': Dropping out of School among Children of Refugees." Paper presented at the American Sociological Association Annual Meetings in Chicago, August 1999.

Jennifer Leich: "Controlling Home Care: The Case of Home Hospice Nursing." Paper presented at the American Sociological Association meeting, Chicago, Il., Aug. 9, 1999.

SPANISH AND PORTUGUESE

Keya Koul: (Co-authored) "Reading El Celoso Extremeno: Feminists, Freudians, and Forgetful Professors." Presented at the Eleventh Annual Southern California Cervantes Symposium, at Occidental College, April 24, 1999.

THEATER

Regina Fletcher Sadono: "Details and Reproducing Domination: The Birth of the Ballet School, the Prison, and Other Correctional Facilities," Sites of Memory: Tracing France's Cultural Self-Consciousness, *Paroles Gélées*, Special Issue Vol. 16(2) p 33-41, 1998.

URBAN PLANNING

Julie-Anne Boudreau: "Megacity Toronto: Struggles over differing aspects of middle class politics." Published in *International Journal of Urban and Regional Research*, December 1999.

Fernando De Paolis: [1] "Industrial Agglomeration and Vulnerability to Trade Impacts." Association of Collegiate Schools of Planning Annual Conference, Chicago, Oct. 21-24, 1999. [2] Awarded non-resident tuition partial support for academic year 1999-2000.

Daniel B. Hess: (Co-authored) "Using GIS to Evaluate a New Source of Transportation Census Data: The American Community Survey." Federal Committee on Statistical Methodology Research Conference, Washington, DC, Nov. 15-17, 1999.

Lezlee Hinesmon-Matthews: [1] Doctoral Dissertation Research Grant, US Department of Housing and Urban Development, 1999-2001. [2] Academic Scholarship, The Links, Inc., Inglewood Pacific Chapter, 1999.

Alison Kirk: Awarded a Michael Dukakis Internship in Public Policy stipend, Summer 1999.

Liang-yi Yen: "City image, public discourse, and the struggle over urban public space in Taipei: reading the Park 14 and Park 15 protest." Presented at fourth annual Conference On the History and Culture of Taiwan, University of Washington, Seattle, Aug. 20-21, 1999.

Ayanna Sumiko Yonemura: Received the National Fellows of the Civil Liberties Public Education Fund for \$10,000 to pursue research on the World War II incarceration of 120,000 Japanese Americans.

Jaron Waldman: (Co-authored) "Planning as Software Development? The case of UCLA's Management Information System for Residential Code Enforcement in the City of Los Angeles." Presented at ACPSP's Rebuilding Nature's Metropolis: Growth and Sustainability in the 21st Century, Chicago, Il., Oct. 21-24, 1999.

WORLD ARTS AND CULTURES

Susan Bauer: [1] Fulbright Scholarship in the year 2000, for initiating intercultural projects in choreography and for continued study in Bali, Indonesia. [2] "Somatic Movement Education: A Body-Mind Approach to Movement Education for Adolescents." Part I appeared in *Somatics, Magazine-Journal of the Mind/Body Arts and Sciences*, Spring/Summer 1999, Vol. 12(2), p 38-43. Part II is scheduled to appear in the same journal, Fall/Winter 1999-2000.

Dan Froot: [1] Curated "The Silver Series: 25th Anniversary Season" for The Danspace Project, New York City, June 20, 1999. [2] Solo performance for American Professional Arts Presenters Conference City Center Studios, New York City, Jan. 9, 1999. [3] Rehearsal residency and performance of "Live Sax Acts," Helena Presents at the Myrna Loy Center, Helena, Mont., Feb. 14-20, 1999. [4] Solo performance to benefit Performance Space 122, New York City, Feb. 26, 1999. [5] Residency to create commissioned performance piece at Emma Willard School, Troy, NY, Feb. 27-March 4, 1999. [6] "Froot Alone," a solo concert at The Kitchen Theater, Ithaca, NY, March 5-6, 1999. [7] Performed in James Cunningham and Tina Croll's "More from the Horse's Mouth" Dance Theater Workshop, New York City, March 9-10, 1999. [8] Solo performance at Movement Research's Monday Night Performance Series, Judson Church, New York City, March 29, 1999. [9] Collaborative performance with choreographer Wendy Perron at Judson Church's Celebration of Freedom, New York City, April 23, 1999. [10] "Live Sax Acts," a collaborative concert with choreographer David Dorfman Highways Performance Space, Santa Monica, Ca., April 29-May 1, 1999. [11] "Live Sax Acts," a collaborative concert with choreographer David Dorfman, Ko Festival of Performance, Amherst, Me., June 25-27, 1999. [12] Duet with David Dorfman, Colorado Dance Festival, Boulder, July 30-31, 1999. [13] "Live Sax Acts," a collaborative concert with choreographer David Dorfman, Dance Theater Workshop, New York City, Aug. 24-Sept. 12, 1999. [14] The Harold Williams Award for Excellence in the Arts, UCLA School of Arts and Architecture, 1999-2000.

Lauren Holt-Hansen: Awarded Tinker Field Research Fellowship for December-March, 1999 in Rio de Janeiro and Salvador, Bahia, Brazil. It funded the research project "Olodum, can a carnival group affect public policy?"

R. Diyah Larasati: [1] "Dance in Bali: From Identity, Staging National Policy and Representation On Tourism." Presented at Dance 2000 Feet Conference, Philadelphia. [2] "Dance in Bali: From Identity, Staging National Policy and Representation On Tourism." Presented at Arts Festival and Conference at Bali, Indonesia: To see our arts: Identity and the limits of Territory. [3] Awarded two 10-month fellowships for 1999-2000: Asian Cultural Council; and Ford Foundation.

Banafsheh Sayyad: [1] Performed at dance and live music concert: "Amvaaj—Waves From the Unseen," as part of The World Festival of Sacred Music and the MFA Upstart Series, Dance Building, Oct. 15-16, 1999. [2] Awarded the Elaine Crown Klein fellowship and Gene Irwin fellowship for 1999-2000.

Two New Courses to Examine Ethical Issues

Ethical Issues In Human Genetics

The School of Medicine's Human Genetics Department will offer the new course Ethical Issues in Human Genetics during Spring quarter 2000. This course will examine the ethical dilemmas that have been raised by the expansion of knowledge in the field of genetics and the application of this knowledge to human disease. Course topics will include:

- Consent for genetic research
- Privacy of genetic information
- Genetic discrimination
- Misattribution of parentage
- DNA databases
- Presymptomatic genetic testing
- Newborn screening
- Genetic testing of children
- Gene therapy
- Forensic use of genetic information

For further information, contact the course instructor, Professor Linda McCabe at 310-206-8450 or by email at lmccabe@mednet.ucla.edu.

Research Ethics in Ethnic Minority Populations

This interdisciplinary course will provide opportunities for researchers at all stages of their research careers to explore the ethics and cultural/racial/gender/class norms of research activities with ethnic minorities populations. The goals of this course are to provide participants with: knowledge of characteristics of ethical research; knowledge of issues of ethnic minorities as these influence the process of ethical research; and development of skills to anticipate and address ethnic population research issues ethically.

Topics covered in the Fall '99 session include:

- Informed consent and definition of ethics
- Risk benefit ratio/conflict of interest
- Screening—benefits and risks of screening for individuals and community/ethnic groups. Sickle Cell Anemia, as an example.
- Genetic testing—human genome project
- Genetic testing—debate panel
- Genetics—human genome diversity project
- Vaccine trials—ethical responsibilities, distribution of disease and priorities for development. HIVNET, as an example.
- Therapeutic trials—focus on diabetes
- Dissemination of information—community needs and benefits/release of information
- Research and scientific freedom as shared responsibilities ethical contracts, participant responsibilities.

A similar course will be offered in Spring 2000 with a focus on differing topics. Postdocs are encouraged to attend any or all sessions of these courses and are not required to register.

Lecturers will include Professor Vickie M. Mays and Professor Barbara Henker, Department of Psychology, Professor Marjorie Kagawa-Singer, Department of Community Health Sciences, School of Public Health, Professor Nancy Reifel, Division of Public Health School of Dentistry and the Center for Native American Studies, and Dr. Jo Ann Dawson, Division of Primary Care, Arthur Ashe Student Health and Wellness Center. For further information, contact Professor Mays at (310) 206-5159 or Henker at 825-2720, or come to the class.

Graduate IDP in Women's Studies for 2000-2001

The UCLA Women's Studies Program will debut a new graduate program in Women's Studies beginning 2000-2001. One-hundred-sixteen associated faculty from 22 departments and eight professional schools will provide interdisciplinary instruction and guidance. Students will take courses offered by the Women's Studies Program as well as graduate courses in other UCLA departments and professional schools.

Students devise their own area of specialization in conjunction with Women's Studies/UCLA faculty. Possible specialties include: women's health, feminist theory, feminist jurisprudence, multicultural feminisms, women's history, women and work, feminist film studies, women and the arts, women in a global context, and feminist approaches to literature.

Credentials offered are:

- Master of Arts (MA). For individuals working in public agencies and institutions that deal with women and women-related issues. Requires successful completion of 40 units of graduate level courses and a master's thesis.
- Doctor of Philosophy (PhD). For those planning an academic career in Women's Studies. Requires 60 units of graduate course work including the Women's Studies core sequence, a pre-qualifying written exam, oral exam and a doctoral dissertation.

The UCLA Women's Studies Program invites applications from students with a BA or equivalent. Individuals working in woman-related agencies and businesses, as well as students preparing for academic careers, are encouraged to apply.

Students already enrolled in UCLA departments, professional schools and programs who seek an interdisciplinary knowledge of feminist theory and issues may earn a Concentration in Women's Studies. It requires successful completion of the three-quarter Women's Studies core courses sequence.

For additional information please visit the website at www.women.ucla.edu, or contact UCLA Women's Studies Graduate Program, 288 Kinsey Hall, Los Angeles, 90095-1504; or send email to women@women.ucla.edu. Applications are due December 15, 1999.

Chancellor Carnesale Welcomes Incoming Graduate Students

Chancellor Carnesale told incoming graduate students, “You are all at UCLA because you are among the very best at what you do, and your promise for the future is great.”

Dean Claudia Mitchell-Kernan greets incoming graduate students who attended the October 1 reception on Royce Terrace.

Chancellor Albert Carnesale extended an official greeting on October 1, 1999 to the 2,680 entering graduate students at the annual reception held this year on Royce Terrace. He remarked to the audience of several hundred, “We will all be enriched by your contributions to UCLA’s academic enterprise, and by the unique experiences, interests, perspectives, and backgrounds you bring to our diverse campus community.”

He continued, “You come from most parts of the United States and from many corners of the globe; 1,721 of you are Californians; 552 of you are international students representing 73 different countries.”

Graduate Division Dean Claudia Mitchell-Kernan encouraged entering graduate students to take advantage of the many opportunities—intellectual, cultural, social, and more—that are available at UCLA. “It is too easy to become very focused on your academic work. But I encourage you to savor this period in your lives by seeing it in the broader context of your overall careers.” She added that this year marks the 30th anniversary of the completion of her own doctoral degree.

Interdisciplinary Graduate Science Journal to Debut This Fall

A fresh opportunity has been created at UCLA to learn about research in a non-discipline specific way. The *UCLA Graduate Science Journal (GSJ)* seeks to unite graduate researchers across the sciences and offers them a forum to present their own research to colleagues and learn about the research of others. Not only does the *GSJ* offer students the chance to connect with people in other fields, it also provides a unique opportunity for students to hone their skills in science writing. Articles from all graduate students in the Physical, Life, and Social Sciences will be accepted for review.

This new journal gives all science gradu-

ate students the opportunity to exercise publishing skills that are not often used in their normal scientific pursuits—communication and writing directed to a general population. More and more science students are encouraged to look into careers outside academia. The *GSJ* offers an opportunity to explore science writing as a career option. The premier issue of the *GSJ* will be distributed on campus during the fall quarter.

For more information about the journal, to submit an article, or to help with the next issue, send email to gradscij@ucla.edu, or see the website at www.studentgroups.ucla.edu/gsj/.

From left are Physical Sciences Dean Roberto Peccei; Life Sciences Dean Fred Eiserling; Research Vice Chancellor Kumar Patel; Humanities Dean Pauline Yu, and Social Sciences Dean Scott Waugh.

Before the presentation of diplomas and the hooding, Vice Chancellor Mitchell-Kernan spoke briefly on the importance of rituals and ceremonies throughout history, and traced the origins of the hooding ceremony to medieval times. Hooding was used to initiate master craftsmen into guilds, as well as to initiate faculty into medieval universities. Vice Chancellor Mitchell-Kernan noted that the hood was originally utilitarian in purpose, as a protective covering from the elements, but later came to symbolize “a protection against bigotry, superstition, or any force that would interfere with the freedom to seek knowledge and wisdom freely.” She noted the commonality of purpose of gathering at this ceremony: to celebrate the responsibility of the new doctorates for the preservation and advancement of knowledge. She wished the graduates “wisdom, good fortune and courage to choose paths of meaning and honor” as they stand at the personal and professional crossroads of their lives.

Each student was hooded by a dean from an official party of deans from the Graduate Division and UCLA’s schools and colleges and was presented with a diploma by Vice Chancellor Mitchell-Kernan.

Following a final salute from Brian Copenhaver, Provost of the College of Letters and Science, graduates, faculty, and guests enjoyed a mid-evening reception in Royce Quad, highlighted by champagne and strawberries. In addition to the graduates and their families and friends, the official party of Vice Chancellors and Deans, as well as UC Regent Velma Montoya and more than 100 faculty attended the ceremony and reception. —Daniel J. Bennett

Ritual Links Past to Future

1999 Doctoral Commencement Hooding Ceremony

On June 21, 591 recipients of the doctoral degree were honored at the Doctoral Commencement Hooding Ceremony. This year the ceremony took place at Royce Hall for the first time since the Northridge earthquake severely damaged the building in 1994. The beautifully restored historic structure provided an elegant backdrop for the formal initiation of the new doctorates into the academy, an annual ceremony begun in 1988 when it marked the fiftieth anniversary of the doctorate at UCLA.

Graduates, faculty, and members of the official party enjoyed light food and drink on the terrace off the West Lobby of Royce, while families and friends took seats in the auditorium. A majestic trumpet fanfare by the UCLA Wind Ensemble Brass signaled the beginning of the formal procession of faculty and graduates.

Executive Vice Chancellor Rory Hume led the procession, followed by Graduate Division Dean Claudia Mitchell-Kernan.

Claudia Mitchell-Kernan, Vice Chancellor for Academic Affairs and Dean of the Graduate Division, gave the call to order and introduced UCLA's newly appointed Executive Vice Chancellor, Wyatt R. "Rory" Hume, who delivered the keynote address.

Executive Vice Chancellor Hume noted in his opening remarks that "this ceremony is a link to the past and to the future." Expanding on this theme, he presented a brief history of higher education that began with its roots in the European universities of the Middle Ages and the establishment of the Doctor of Philosophy degree in Germany in the sixteenth century. He noted that the first PhD in the United

States was awarded in 1861 at Yale, and described what many regard as the formal beginning of American graduate and doctoral education at The Johns Hopkins University. Founded in 1876, The Johns Hopkins University has modeled its graduate programs on those of the early German university.

He spoke of the vast expansion of graduate education and research at American universities after World War II and the contributions this made to the betterment of society, including the development of the information age, "an era of constant and sweeping technological and societal change." Executive Vice Chancellor Hume emphasized that the new graduates were well equipped by UCLA to meet the challenges of these changes and concluded by telling the new doctorates, "You now have the tools to assume a leadership role, not only within your chosen field, but in the service to society at large." The executive vice chancellor formally conferred the degrees.
