Dear Colleagues:

The Division of Graduate Education (DGE) is pleased to announce block allocations for 2026–27 and share updates to graduate student support.

Your department's allocation is available for viewing and download on the [Go.Grad website](#). Department SAOs or managers should have access to the system. For assistance accessing Go.Grad, email Chris Testa at [AskGrad@grad.ucla.edu](mailto:AskGrad@grad.ucla.edu) or submit a request through the [Graduate Education Portal](#).

## Changes to Graduate Student Support

As part of efforts to simplify and stabilize graduate student funding, allocations for **Graduate Dean's Scholar Awards (GDSA)**, **Dissertation Year Awards (DYA)**, and **recruitment visit funding** have been consolidated into a single block allocation, added to each program's base amount (set at 2025–26 levels). This change gives academic units greater **local control** over how to use their funding to best support students. Programs now have more flexibility to determine how these resources are distributed across awards and to tailor funding to their students' needs.

DGE encourages programs to think strategically about how their block funding supports students through to degree completion, particularly now that central Dissertation Year Awards have been discontinued and the funds added to the block allocation.

After this year's November 19 deadline, programs will no longer be able to carry forward their block allocation, so all 2026–27 block grant funds (including those carried forward from 2025–26) must be fully expended by the February 5, 2027, award deadline. To maintain flexibility, DGE will continue to allow borrowing of up to **\$80,000** against future allocations.

More information is available in the [Block Allocation article](#) on the Graduate Education Portal.

Any carryforward this year must be fully used in 2026–27.
