Featured career mentor, Shahrooz Rabizadeh, will share his experience working in the private sector of life sciences and collaborating with academia.

Shahrooz Rabizadeh is an Adjunct Assistant Professor of Bioengineering at UCLA, an Affiliate Member and Visiting Scholar at CNSI, and was most recently the Director of Molecular Drug Discovery at Abraxis BioScience, a role similar to his current position at Nantworks, an Abraxis/Celgene spinout. Shahrooz also presently serves on the Board of Directors of small corporations ranging in focus and expertise from fermentation processes used in the production of fuels and common chemicals to next-generation diagnostic devices. Previously, Shahrooz co-directed the Discovery Translation Unit at the Buck Institute, where he also served as an Asst. Res. Professor. Shahrooz received his PhD degree in neuroscience at UCLA and trained as a postdoctoral fellow in Molecular Biology at Mass. General Hospital and Genetics at Harvard Medical School.

December 7, 2011
12-1:30 PM
CNSI Executive Conference Room

To ensure a fully interactive experience for each attendee, attendance is limited to 10 postdocs/graduate students per luncheon. If you are interested in attending, please include a 3-5 sentence statement indicating how your attendance will benefit your specific career interests. Interested parties must respond by Sunday, November 27, 2011 to education@cnsi.ucla.edu. Selected participants will be notified by Friday, December 2, 2011.
