The Ph.D. Career Planning Series Presents:

Stories and Strategies from Successful Women Scientists

A PhD CAREER PLANNING WORKSHOP

- What are the challenges faces by women in science?
- How can forming support groups help combat the competition, isolation, and inequity that come with careers in academics and industry?

For over 30 years, Ellen Daniell has been part of a professional problem-solving group of women (and some men) who have attained extraordinary distinction in various scientific fields. Dr. Daniell will share experiences and strategies of the group’s members in the course of their careers. The talk highlights the importance of cooperation and of not “going it alone” in a competitive world.

March 13

Wednesday, 2PM – 4:00PM
CNSI Presentation Space

Space is limited!
