Fulbright US Student Program Tips

The tips mentioned below are for easy reference. In case of conflicting information, always refer to the Fulbright US Student Program site.

In addition to these pages, we highly recommend that you read through the application process on the Fulbright US webpage.

If you haven’t already, please check out the Recommended Fulbright Application Schedule.

Choosing a Host Country and Program
Please consider the following when choosing the country and program

Host Country
- You must have a compelling reason to choose your host country
- For those who plan to apply for the Study/Research program, decide on how significant the country will be for the research/study
- The country should have some sort of impact on the program chosen and vice versa
- What draws you to the host country? Culture? Language? Family history? Etc.?
  - You must have a strong knowledge on the country
- Please note that choosing a country that you have visited for more than 6 months in your life will give you a strong disadvantage

Program (Research, Study or ETA)
- Choose a program that fits your qualifications, interests, and future goals
- Do not choose a program because it may seem “easier.” The Fulbright is a competitive grant and not one program is harder to receive than another

<tr>
<td>You choose what type of research you would like to pursue</td>
<td>There are open study awards as well as collaborations with different institutions and Fulbright</td>
<td>The ETA allows awardees to teach English and the US culture more evidently</td>
</tr>
<tr>
<td>Make sure the research is feasible with the amount of time you will be abroad</td>
<td>Check the specific country for more information on the study grant</td>
<td>What is the reason you want to teach English to this particular group of people?</td>
</tr>
<tr>
<td>How does your research correlate with your host country?</td>
<td>You will need to apply for both the Fulbright and the institution</td>
<td>What are your experiences that make you a viable ETA candidate?</td>

Writing your Statements
Write, Revise, Re-write, and repeat

Personal Statement
- Paint a holistic picture of who you are
- Discuss about your past, present and future
- Write about your personal background and how it brought you to be where you are right now
- How will the Fulbright help you reach your future professional/academic goals
- Emphasize on any cultural and study abroad experiences that you have had and how that has helped shape you and motivated you to apply for the Fulbright US
- You can find more tips on the Fulbright Website under the application components tabs

Statement of Grant Proposal

Letters and Evaluations
Letters of Recommendation, Affiliation Letters, and Language Evaluations

Letters of Recommendation
- Ask early! It is recommended to ask your recommenders at least 4 weeks in advance
- Send them your statements so they can incorporate them into the letters
- The letters should include your capabilities as well as the relevance/significance of your project
- Find someone that can speak best to your abilities
- Give your recommenders the campus deadline and send reminders along the way

Affiliation Letters
- Most affiliations can be from a variety of places including institutions, NGO, museums, archives, etc.
  - However, check with your host country and program to see if there are any specific affiliation requirements
- Contact previous Fulbright awardees/ Fulbright Alums to see how they went about looking for an affiliations
  - This is a great place to start
  - Some may even be able to help you and connect you to an affiliation
- Attend different workshops and sessions where the keynote speaker is in the related field as your research or host country
  - Try and connect with the speaker afterwards and that can lead to an affiliate abroad
- Reach out to your advisor or professors who know about your research or work
  - They may be able to connect you with their colleagues abroad
Cold Emailing
- This may seem a little daunting but a lot can come out of it
- Do some research and find certain institutions or organizations that may be a resource for your research and contact them directly
  - Be sure to keep the email concise and express your research interests through the Fulbright
  - You can always attach your personal statement and grant proposal if the organization would like to know a little more about your research topic
- When requesting, please take a look at what needs to be included in the affiliation letter

Language Evaluations
- Language evaluations vary by country
  - There are 3 possible requirements:
    - Not required
    - Recommended
    - Required
  - There are 3 levels for the evaluation:
    - Novice
    - Intermediate
    - Advance
- Please check the host country and program for the language proficiency requirements
- Those that are recommended should take the opportunity to turn in the evaluation if they know the language
- Evaluators must be a teacher of the said language

Transcripts
Obtain an UNOFFICIAL transcript
- Download an unofficial transcript from every institution in which you received credit for in order to receive your degree
  - Study abroad programs in collaboration with UCLA (i.e. UCEAP) will not need a separate transcript from the abroad host institution
    - If you have any concerns, please contact your Fulbright Program Advisor

Sample Statements
UCLA Graduate Division’s Fellowships and Financial Services has Fulbright sample statements and affiliation letters from previous awardees in person that you can access online and in person. If you would like access to the online statements, please contact the Fulbright U.S. Student Program Advisor.
